ANOTHER OFFER FOR THE BONDS

It Is Better by Hundreds Than That of C. R. Williams & Co.

REGARDED WITH MUCH FAVOR

By Members of the Finance Committee Who Have Examined.

AN OPTION UNTIL OCT. 7

Another offer has been made council for the $92,925 worth of bonds, and from what can be learned of the responsibility of the firm it looks at last as if the bonds will go. W. G. McCullough, representing a Pittsburg firm, arrived in the city this morning and proposed furnishing a buyer who will give par for the bonds and will pay the accrued interest. He is to receive but $150 for his trouble.

The proposition was carried before the finance committee of council by City Auditor Davidson and every one of that committee looked upon it from a favorable standpoint. They realize that it is a better offer than they had ever expected, and when Mr. McCullough asked for an option on the bonds until Wednesday, October 7, his request was immediately granted.

The time given to C. R. Williams & Co., of Pittsburg, to take the bonds expired yesterday, and the finance committee was under no obligations to this concern, nor could it be restrained from calling off the negotiations with it. The proposition of Mr. McCullough is by nearly $700 better than that of C. R. Williams & Co. He asks only $150 for his services and guarantees that his company will pay par and the accrued interest which alone will amount to the $700 at the time of the proposed sale. C. R. Williams & Co. offered to pay par, plus $200, but the city was to pay the accrued interest.

The members of the finannce committee are jubilant over the outlook for the disposal of the bonds and are very anxious that nothing develops that will foil their plans.

UNABLE TO SLEEP SINCE THE MISHAP

A Hanover Township Man Wants Damages From His Neighbor For Reckless Driving.

Lisbon, October 2.—(Special)—Andrew DeVille, of Hanover township, through his attorney, has filed suit against Frank Speidel, also of Hanover township, for $30 damages.

The case is said to be the outgrowth of ill feeling of long standing between the parties. The plaintiff says that on August 23 last, he and the defendant had hitched their horses in an inclosure adjoining the Catholic church yard at Dungannon. After the meeting the plaintiff alleged he had unhitched his horse, and led it to an enclosure opening on the public highway. The plaintiff's wife, an aged and enfeebled woman, had entered the buggy, and the husband was in the act of doing so, having stopped for that purpose, when Speidel is said to have driven up with a double team on his way out of the enclosure, and though, it is alleged, there was ample room to get out, he ran into and upset DeVille's rig.

It is alleged Speidel was driving at a rapid speed, and intentionally ran into DeVille's rig. Mrs. DeVille escaped bodily injury, but the husband says his nervous system was so shocked he has not been able to sleep comfortably since; that his left eye was injured and has become inflamed causing him much suffering, and that by reason of the shattered condition of his nervous system he has been unable to attend to his farm duties. The buggy was also damaged.

GETS A WARRANT AGAINST HIS WIFE

Albert Flesch, of Chester, Accuses Mrs. Flesch of Smashing Things.

A warrant was sworn out before Justice Pugh, of Chester, this afternoon by Albert Flesch, against his wife, who left him recently. Mrs. Flesch is alleged to have taken possession of her husband's barber shop and residence and smashed the furniture and equipment.

OUTLOOK IS GOOD FOR OIL COMPANY

Territory in Which Local Men Are Interested Is Promising.

W. H. Riley returned yesterday from the oil fields back of Marietta, where he spent a few days looking after the interests of the Newport Oil & Gas company, the members of which are mostly local people. Mr. Riley reports the coming in of another well and says the outlook for the company is very encouraging.

There are quite a number of good producers on the leases owned by the company, and it seems that they are right in the midst of a prolific field. The last producer was shot on Tuesday and is now spurting forth at the rate of 20 barrels per day. A sample of the oil was tendered to the members of the company by Mr. Riley, and it is pronounced to be of excellent quality.

'PHONE SERVICE WILL BE BETTER

As a Result of Rivalry Between the Two Competing Companies.

GROCERS FAVOR THE C. C.

Though it is now absolutely certain the object of the Business Men's association to have the people of East Liverpool adopt the Bell telephone, or any other one service, is out of the question, much good will result to the subscribers generally through its efforts. The two companies have left no stone unturned that would tend to make their particular service more popular, and the controversy has taken the form of a fight between the companies instead of having accomplished anything toward the adoption of the one service.

The association of retail grocers and meat dealers is by far the strongest society of its kind in the city, every merchant in those lines having connected himself with the body some time ago. The session last night was a regular one and routine work occupied the attention of its members. It had been announced that since the merchants' association had taken such a positive stand, it was no more than right that this association also express its preference in the telephone controversy, and the members were prepared last evening to discuss the merits of the case in an intelligent manner.

The discussion was a lengthy one, and the question was viewed from every standpoint. The general sentiment favored the Columbiana, even if one system was to be adopted, and the expressions were positive and logical. However, the patrons of a very large majority of these business men were accustomed to doing much of their business by telephone. These patrons in the main were subscribers of the Columbiana, and from what had been gathered before the meeting they proposed to continue to patronize it. It was also shown that not a few Bell telephones were in use among patrons of the grocers and butchers, and in order to cater to all in a manner that will be in every way acceptable it was decided that both services must be maintained. Formal action to that effect was taken.

The physicians of the city held a well attended meeting last evening, and were prepared, it is said, to argue for their particular favorite as long as any one was left to take the other side. Little reliable data can be secured as to precisely what did occur, but it is known that no telephone was adopted on account of the very strong sentiment favoring both. At the conclusion of the meeting it was announced that no decision had been reached, but when it was learned that the grocers' association had adopted both systems, the physicians are said to have favored the plan and concluded to follow it out.

Mrs. J. B. Irwin Ill.

Columbus, October 2.—(Special)—Mrs. I. B. Cameron, wife of State Treasurer Cameron, has been called to Cleveland by news of the serious illness of her mother, Mrs. J. B. Irwin, who is well known in Columbiana county, having been a resident of Salineville for many years.

PARTIAL LIST HANDED DOWN

Grand Jury Has Reported 31 Indictments and a Few Are Made Public.

A TRUE BILL FOR MURDER

Found in the Case of Anthony Clunk, Who Killed Frank Nuzum.

A FINAL REPORT TONIGHT

Lisbon, October 2.—(Special.)—The grand jury made a partial report last evening, returning 31 indictments. Only a few have been given out, as the authorities have not had time to serve summons on the accused. Following are some of the indictments returned:

Anthony M. Clunk, Elkton, murder in the second degree.

Leonard Eells, Lisbon, shooting with intent to kill and wound.

Frank Rose, East Palestine, attempting to assault and abuse females.

Harry Potts, Wellsville, larceny.

Nicholson Murray, East Liverpool, petit larceny.

Harry Dobbins, East Liverpool, petit larceny.

George Stewart, East Liverpool, petit larceny.

John Consadine, East Liverpool, robbery.

James Brannon, East Liverpool, pocket picking.

It is expected that the grand jury will conclude a busy session this evening by making its final report. A large number of witnesses have been examined, principally from East Liverpool and Wellsville.

GRAVE CHARGES MADE AGAINST CHESTER MAN

FOURTEEN-YEAR-OLD GIRL TELLS A SHOCKING TALE.

As a Result a Warrant Is Issued For Her Father, a Well Known Mill Man.

Chester authorities, lady members of the First M. E. church of East Liverpool, Dr. Pratt, the pastor, and the prosecuting attorney of Hancock county are today investigating very grave charges against a Chester man. If the charges are sustained a term in the penitentiary probably awaits him.

Fewson Hopper, a tinner at the mill in Chester, came there to work from Joliet, Ill., about two years ago. He has a large family. For some time his daughter, Emma, aged 14, has been in the hands of a number of good women belonging to the First M. E. church of this city, who, from the statements of the child, believe they have discovered ample grounds for charges and legal proceedings against the father.

One lady of the church and the child appeared before Justice Johnston in Chester today at the instance of Prosecuting Attorney McKenzie; Dr. Pratt, Justice Johnston and the church ladies Mrs. Hopper, the child's mother, was also brought into court and examined.

The father, for whom a warrant is out, was still at work at the mill and had not been arrested at 3 p. m.

ANOTHER TROLLEY LINE ACROSS THE COUNTY

Proposed Road to Run Via Salem to Lisbon and East Palestine.

Columbus, October 2.—(Special)—Another electric line has been incorporated to operate in Columbiana county. It is the Salem and Eastern Railroad company, capital stock, $5,000. The road is to start at Sebring and run in an easterly direction through Mahoning and Columbiana counties to Salem; thence easterly to Leetonia and Columbiana and into East Palestine, which will be the eastern terminal point. The line will also extend from Salem to Lisbon, which will be the southern terminal point.

E. S. Cook, F. S. McGowan, A. T. Brewer, J. W. Tyler and M. L. Fowler are the incorporators. The papers filed with the secretary of state to incorporate the company were attested before a notary in Cuyahoga county, which makes it appear that the parties behind the company are from Cleveland.

NON-SUPPORT IS HER CHARGE

MRS. LEVI BURROWS' ACCUSATION AGAINST HER HUSBAND.

Says She Works Like a Slave to Keep Her Children from Starving.

Chief Wyman is searching for Levi Burrows, who, if apprehended will be arrested and taken before Mayor Weaver to answer the charge of non-support. Mrs. Burrows, wife of the fugitive, appeared at the city hall this morning and filed the charge. Her case is truly a pitiful one.

Mrs. Burrows is the mother of six children, the oldest of whom is but 14 years of age. The woman alleges that her husband has failed to support the children for months and that to keep them from starvation she has been compelled to wash almost day and night throughout the week. She alleges further that her husband is well able to provide for the children, if he chose to do so, and that he has been living in a shanty boat for some time, working only enough to keep himself. He is a potter and could work every day.

The oldest child, Nettie, it will be remembered, mysteriously disappeared a few days ago and was later located at the home of William Prosser at New Cumberland. Mrs. Burrows has asked Mayor Weaver to furnish her money enough to have the daughter returned from New Cumberland. The girl is old enough to do light work, and Mrs. Burrows needs her assistance very badly. It is possible that a fund will be started by the mayor for Mrs. Burrows.

CLARKE WOULD SIT IN MOURNERS ROW

Senator Hanna Tells Why His Opponent Would Be Useless If Elected to Congress.

Paulding, October 2.—"Mr. Clarke accuses me of charging 400,000 Democrats with being Socialists," said Senator Hanna in his speech here yesterday. "I said no such thing, but what I do say is that Tom Johnson and his propaganda are Socialistic at heart and Socialistic in practice. And now I want to plead with you the slimy serpent has raised his head to strike and to kill.

"If you are so unfortunate as to send a Democrat to the senate it will avail you nothing," said Mr. Hanna. "He will go to Washington all right, but he will simply take his seat in the back of the room on the mourners' row. If I go back to the senate, and I will go back, I hope to do effective work in your interests, for President Roosevelt is certain to be again the chief executive of the nation and the next congress is certain to be Republican."

Mr. Hanna disposed of Democratic charges and queries with a single sentence yesterday. "Every statement Tom Johnson has made and is making against me is absolutely false and he knows it," said the senator. "He charges me with using my political influence to secure franchises. Well, that comes pretty near being libelous, but Johnson is a poor man and I will attack him."

WELLSVILLE OFFICIALS VISITED CITY HALL

Also Inspected the Fire Station With a View of Getting Information.

Mayor W. L. Fogo and City Solicitor Charles E. Boyd, of Wellsville, were visitors in the city last evening. They called at the city hall and paid their respects to the officials around that building, after which they called at the central fire station.

Though the two visitors would not make a statement as to their object in calling at the fire station, it is understood that the officials of Wellsville are going to make an endeavor to better equip their fire department, and were making an inspection of the central station for the purpose of gaining information that would assist them in carrying out the proposition. The fire department in Wellsville is badly crippled, having no horses and it is the intention to purchase two animals and go to considerable other expense along the same line.

Day of Atonement.

Yom Kippur, or the day of atonement, the most solemn religious day in the Jewish calendar, commenced Wednesday evening at sunset and continued until sunset last evening. During that time no orthodox or reformed exponent of Judaism touched food or drink.

HEALTH BOARD TO TAKE ACTION

Bill of Dr. Ogden for Services In Smallpox Case May Cause Contention.

RIGHT TO DO SUCH WORK

Is Called in Question As Result of Action On Councilman Moon's Bill.

DOUBT ABOUT THE CASE

At least three very important meetings are scheduled for this evening. It is the regular meeting night of the board of health, the board of public service and council will meet in adjourned session.

At the session of the board of health it is expected more friction will develop than at any meeting held by that body since its organization. A large number of bills are to come before the board for consideration and one of them, it is said, will meet serious objection on the part of certain members. It will be remembered that several weeks ago when a case of smallpox was reported in the West End, Dr. C. B. Ogden, the city's health officer, volunteered to attend the case for $15 per day, he to furnish the medicine. It is contended that Dr. Ogden has no legal right to work for the city in any other capacity than that of health officer, and that the case pronounced smallpox was nothing but a severe case of chickenpox.

The alleged case of smallpox has been pronounced cured, the quarantine having been raised. It is said that while the person was sick with the supposed dread disease she ate regularly three times a day, and during the entire period of confinement to the house was never known to be abed only at night. There are a number of well known local physicians, it is alleged, who have stated positively that the disease was only chicken pox. The physician who had the case in charge when it was turned over to the health officer, it is said, would have willingly attended the case for much less than $15. Those objecting to the bill, it is said, do not favor paying at the rate of $15 per day for services of such minor consequences.

It is not expected that an attempt will be made to prove what the disease was, such a job being almost impossible, physicians always differing on such questions. However, the point will be raised as to the health officer's legal right to do the work. It is alleged by persons interested that Dr. Ogden has no more right to sell his services to the city than had Councilman Moon to sell feed. As a matter of fact Dr. Ogden receives a salary for his work, and it is alleged that he cannot be paid by the city for work incident to the position.

Council and the board of public service will attend to several matters very important to the municipality, and every member of both bodies have been earnestly requested to be present.

DIXONVLILE SCHOOL WILL OPEN MONDAY

The Worry of the Township School Directors Will Now Be At An End.

The directors of the Liverpool township schools are now resting easy. It will be recalled that Enos Jones, one of the members, reported at the city hall a few days ago his fear of spending time in the penitentiary or some other institution because the Dixonville school could not be opened on the date agreed to by the directors.

His fear originated from the delay of a school furnishing concern which was contracted with to supply seats for the new Dixonville school.

The seats arrived in the city yesterday and the school house will be ready for occupancy on next Monday.

Called a Pastor.

Lisbon, October 2.—(Special.)—The congregation of the Reformed church, which was organized in Lisbon less than a year ago, has extended a call to Rev. C. H. Brandt, of Phoenixville, Pa., to become its regular pastor. Thus far the pulpit has been supplied somewhat irregularly by visiting ministers.

A MILK CONTRACT IS IN DISPUTE

Case Involving the Continuance of a Verbal Contract Comes From Moultrie.

Lisbon, October 2.—(Special)—Attorney Charles S. Speaker will go to Moultrie tomorrow to try a case in which a creamery company has brought an action involving an interesting question. The matter in dispute is as to whether a creamery company, under a verbal contract, can compel a party to deliver milk for a whole year. Such a contract was made in this case, but the party delivering the milk quit in about six months, and gave his supply to another creamery.

The proprietors of the Moultrie Creamery allege all their contracts with employers and milk dealers are made by the year, and this decrease in the milk supply is a serious handicap. Mr. Speaker will represent the plaintiff.

MRS. M. A. CROXALL HAS PASSED AWAY

The Oldest Native Born Resident of the City and Highly Honored.

HER LONG, USEFUL LIFE

The death of Mrs. Mary Ann Croxall occurred last night at 10:30 o'clock at her home on West Third street, where she had lived for the past 35 years. Mrs. Croxall was in her seventy-eighth year, and was the oldest native born resident of East Liverpool.

Her husband, the late Jesse Croxall, who died in 1881, was one of the pioneers of the pottery industry here.

The funeral services will be held at the late residence Sunday afternoon at 2 o'clock. Rev. T. V. Milligan, a former pastor of the First Presbyterian church here, is to officiate, assisted by Rev. C. G. Jordan. The interment will be private at Riverview cemetery.

Mrs. Croxall was the daughter of the late Thomas Carey and was born in this city. When she was but a few years of age her parents moved to Hookstown, where she spent the years of her girlhood. It was at Hookstown that she was married to Mr. Croxall. Returning to this city Mr. Croxall, with his brother, purchased of the late Mr. Bennett the pottery located near the corner of Washington and Second streets. This was the pioneer plant of this city or section.

Owing to ill health Mr. Croxall disposed of his interest in the pottery and engaged in other pursuits. At one time he occupied and owned the property now known as the Bradshaw addition. Mrs. Croxall had, at a very early age, united with the Presbyterian church and she took a prominent and important part in the religious affairs in this city. She was closely identified with the auxiliary organizations of the church and accomplished a great deal of good, becoming noted for her charity. Her own life presented an example worthy of emulation and she possessed those traits of character that endeared her to all. Her acquaintance in this city was unusually large, through her activity and energy in affairs that affected the social and religious side of life. Her untiring efforts have done much to advance the cause of Christianity and her compassion for the poor has saved many an hour of suffering. Mrs. Croxall remained a leader in such work until the infirmities of age compelled her to give way to younger members of the church.

With the exception of three years spent at Trenton, all the years of Mrs. Croxall's life since her return from Hookstown in early womanhood, have been spent here and they have been full of good deeds and kind actions. Of the seven children born to Mr. and Mrs. Croxall, two survive, Frank H. Croxall and Mrs. George C. Murphy, both of this city.

Mrs. Croxall had been an invalid for almost a year, and although it was apparent that the infirmities of age were undermining her rugged constitution, it was the hope of her near relatives and friends that she might be spared to them for a number of years. The infirmities became more pronounced as the days passed, and for the past 10 months she had been confined to her room. Last Sunday she became very much worse and was seen to be failing very rapidly. What is thought to have been a slight attack of pneumonia developed, resulting in her death.

BENTLEY POPE BADLY INJURED

Well-Known Former Resident Thrown Headlong Upon Brick Pavement.

UNCONSCIOUS FOR SOME TIME

He Rallied From a Dazed State and Recovered and Went to Work.

HIS ESCAPE A NARROW ONE

A dispatch from Coshocton states that I. Bentley Pope, president of the Pope-Gosser pottery, of that city, was violently thrown from his bicycle, on Main street, Wednesday evening about 4:30 o'clock, and an ugly gash was cut in his head just over the right eye. He was rendered totally unconscious for a quarter of an hour and remained dazed for about an hour.

Mr. Pope was riding home from the pottery at a good rate of speed. At a point on Main street between the restdince of Capt. J. M. Compton and Judge C. B. Hunt, he was seen to suddenly pitch over the handlebars of his bicycle and light squarely on his head on the paved street.

Some of the women and children in the neighborhood rushed to the spot but were so excited that they were unable to do anything to revive the injured man. He lay on the street for at least five minutes before anything could be done for him. J. M. Compton happened along with his buggy and with the assistance of Russell Hanlon lifted him into the buggy and took him to his home at the corner of Seventh and Main streets.

The wound bled profusely and a pool of blood was formed where Mr. Pope's head lay on the street. His face and head were completely covered with blood and it was feared he might be very seriously injured.

Dr. Carr had been summoned and had arrived at the residence by the time Mr. Pope was carried in. An ugly three cornered cut over the right eye and a number of minor bruises were found. Mr. Pope soon rallied to his senses.

He was at a loss to know how the accident occurred and could not remember the slightest thing about it for some time, but the next morning he stated that he remembered seeing a piece of brick lying on the pavement directly in front of him and that he was unable to turn his bicycle out of the way.

Mr. Pope was feeling much better yesterday morning and went to the factory again as usual.

TERMS OF SEPARATION FIXED IN ADVANCE

Middleton Township Couple Arrange Preliminaries Before Seeking a Divorce.

Lisbon, October 2.—(Special)—Anna E. Burson, of Middleton township, is plaintiff in a divorce action which will be filed in court here today against George H. Burson.

The marriage of the two parties took place September 6, 1895, at Chillicothe, O., and in spite of her husband's intemperate habits, the wife lived with him continuously until August 12 last, when they separated, each signing a post nuptial agreement which the court is asked to make final and binding by decreeing a divorce.

By the terms of the mutual agreement entered into on the date of their separation, the wife has custody of their two children, Harry, aged 6, and Grace May, aged 3 years. The children will continue in her custody until April 1, 1904, provided she remains a resident of Middleton township, but in case of her removal the father becomes their custodian. On April 1, 1904, the father gets custody of the boy. The agreement further provides that the father shall continue to the support of both children and that either parent my visit the child in custody of the other parent at any suitable time.

A division of their land and household effects is also agreed upon, the wife getting 22 acres along with numerous articles of furniture, etc.

Library Board Meets—A meeting of the board of directors of the Carnegie library will be held this evening. The report of Miss Gertrude Baker, the librarian, will be received and other routine matters will be considered.

E. church of this city, who, from the statements of the child, believe they have discovered ample grounds for charges and legal proceedings against the father.

One lady of the church and the child appeared before Justice Johnston in Chester today at the instance of Prosecuting Attorney McKenzie; Dr. Pratt, Justice Johnston and the church ladies Mrs. Hopper, the child's mother, was also brought into court and examined.

The father, for whom a warrant is out, was still at work at the mill and had not been arrested at 3 p. m.

ANOTHER TROLLEY LINE ACROSS THE COUNTY

Proposed Road to Run Via Salem to Lisbon and East Palestine.

Columbus, October 2.—(Special)—Another electric line has been incorporated to operate in Columbiana county. It is the Salem and Eastern Railroad company, capital stock, $5,000. The road is to start at Sebring and run in an easterly direction through Mahoning and Columbiana counties to Salem; thence easterly to Leetonia and Columbiana and into East Palestine, which will be the eastern terminal point. The line will also extend from Salem to Lisbon, which will be the southern terminal point.

E. S. Cook, F. S. McGowan, A. T. Brewer, J. W. Tyler and M. L. Fowler are the incorporators. The papers filed with the secretary of state to incorporate the company were attested before a notary in Cuyahoga county, which makes it appear that the parties behind the company are from Cleveland.

NON-SUPPORT IS HER CHARGE

MRS. LEVI BURROWS' ACCUSATION AGAINST HER HUSBAND.

Says She Works Like a Slave to Keep Her Children from Starving.

Chief Wyman is searching for Levi Burrows, who, if apprehended will be arrested and taken before Mayor Weaver to answer the charge of non-support. Mrs. Burrows, wife of the fugitive, appeared at the city hall this morning and filed the charge. Her case is truly a pitiful one.

Mrs. Burrows is the mother of six children, the oldest of whom is but 14 years of age. The woman alleges that her husband has failed to support the children for months and that to keep them from starvation she has been compelled to wash almost day and night throughout the week. She alleges further that her husband is well able to provide for the children, if he chose to do so, and that he has been living in a shanty boat for some time, working only enough to keep himself. He is a potter and could work every day.

The oldest child, Nettie, it will be remembered, mysteriously disappeared a few days ago and was later located at the home of William Prosser at New Cumberland. Mrs. Burrows has asked Mayor Weaver to furnish her money enough to have the daughter returned from New Cumberland. The girl is old enough to do light work, and Mrs. Burrows needs her assistance very badly. It is possible that a fund will be started by the mayor for Mrs. Burrows.

CLARKE WOULD SIT IN MOURNERS ROW

Senator Hanna Tells Why His Opponent Would Be Useless If Elected to Congress.

Paulding, October 2.—"Mr. Clarke accuses me of charging 400,000 Democrats with being Socialists," said Senator Hanna in his speech here yesterday. "I said no such thing, but what I do say is that Tom Johnson and his propaganda are Socialistic at heart and Socialistic in practice. And now I want to plead with you the slimy serpent has raised his head to strike and to kill.

"If you are so unfortunate as to send a Democrat to the senate it will avail you nothing," said Mr. Hanna. "He will go to Washington all right, but he will simply take his seat in the back of the room on the mourners' row. If I go back to the senate, and I will go back, I hope to do effective work in your interests, for President Roosevelt is certain to be again the chief executive of the nation and the next congress is certain to be Republican."

Mr. Hanna disposed of Democratic charges and queries with a single sentence yesterday. "Every statement Tom Johnson has made and is making against me is absolutely false and he knows it," said the senator. "He charges me with using my political influence to secure franchises. Well, that comes pretty near being libelous, but Johnson is a poor man and I will attack him."

WELLSVILLE OFFICIALS VISITED CITY HALL

Also Inspected the Fire Station With a View of Getting Information.

Mayor W. L. Fogo and City Solicitor Charles E. Boyd, of Wellsville, were visitors in the city last evening. They called at the city hall and paid their respects to the officials around that building, after which they called at the central fire station.

Though the two visitors would not make a statement as to their object in calling at the fire station, it is understood that the officials of Wellsville are going to make an endeavor to better equip their fire department, and were making an inspection of the central station for the purpose of gaining information that would assist them in carrying out the proposition. The fire department in Wellsville is badly crippled, having no horses and it is the intention to purchase two animals and go to considerable other expense along the same line.

Day of Atonement.

Yom Kippur, or the day of atonement, the most solemn religious day in the Jewish calendar, commenced Wednesday evening at sunset and continued until sunset last evening. During that time no orthodox or reformed exponent of Judaism touched food or drink.

HEALTH BOARD TO TAKE ACTION

Bill of Dr. Ogden for Services In Smallpox Case May Cause Contention.

RIGHT TO DO SUCH WORK

Is Called in Question As Result of Action On Councilman Moon's Bill.

DOUBT ABOUT THE CASE

At least three very important meetings are scheduled for this evening. It is the regular meeting night of the board of health, the board of public service and council will meet in adjourned session.

At the session of the board of health it is expected more friction will develop than at any meeting held by that body since its organization. A large number of bills are to come before the board for consideration and one of them, it is said, will meet serious objection on the part of certain members. It will be remembered that several weeks ago when a case of smallpox was reported in the West End, Dr. C. B. Ogden, the city's health officer, volunteered to attend the case for $15 per day, he to furnish the medicine. It is contended that Dr. Ogden has no legal right to work for the city in any other capacity than that of health officer, and that the case pronounced smallpox was nothing but a severe case of chickenpox.

The alleged case of smallpox has been pronounced cured, the quarantine having been raised. It is said that while the person was sick with the supposed dread disease she ate regularly three times a day, and during the entire period of confinement the house was never known to be abed only at night. There are a number of well known local physicians, it is alleged, who have stated positively that the disease was only chicken pox. The physician who had the case in charge when it was turned over to the health officer, it is said, would have willingly attended the case for much less than $15. Those objecting to the bill, it is said, do not favor paying at the rate of $15 per day for services of such minor consequences.

It is not expected that an attempt will be made to prove what the disease was, such a job being almost impossible, physicians always differing on such questions. However, the point will be raised as to the health officer's legal right to do the work. It is alleged by persons interested that Dr. Ogden has no more right to sell his services to the city than had Councilman Moon to sell feed. As a matter of fact Dr. Ogden receives a salary for his work, and it is alleged that he cannot be paid by the city for work incident to the position.

Council and the board of public service will attend to several matters very important to the municipality, and every member of both bodies have been earnestly requested to be present.

DIXONVLILE SCHOOL WILL OPEN MONDAY

The Worry of the Township School Directors Will Now Be At An End.

The directors of the Liverpool township schools are now resting easy. It will be recalled that Enos Jones, one of the members, reported at the city hall a few days ago his fear of spending time in the penitentiary or some other institution because the Dixonville school could not be opened on the date agreed to by the directors.

His fear originated from the delay of a school furnishing concern which was contracted with to supply seats for the new Dixonville school.

The seats arrived in the city yesterday and the school house will be ready for occupancy on next Monday.

Called a Pastor.

Lisbon, October 2.—(Special.)—The congregation of the Reformed church, which was organized in Lisbon less than a year ago, has extended a call to Rev. C. H. Brandt, of Phoenixville, Pa., to become its regular pastor. Thus far the pulpit has been supplied somewhat irregularly by visiting ministers.

A MILK CONTRACT IS IN DISPUTE

Case Involving the Continuance of a Verbal Contract Comes From Moultrie.

Lisbon, October 2.—(Special)—Attorney Charles S. Speaker will go to Moultrie tomorrow to try a case in which a creamery company has brought an action involving an interesting question. The matter in dispute is as to whether a creamery company, under a verbal contract, can compel a party to deliver milk for a whole year. Such a contract was made in this case, but the party delivering the milk quit in about six months, and gave his supply to another creamery.

The proprietors of the Moultrie Creamery allege all their contracts with employers and milk dealers are made by the year, and this decrease in the milk supply is a serious handicap. Mr. Speaker will represent the plaintiff.

MRS. M. A. CROXALL HAS PASSED AWAY

The Oldest Native Born Resident of the City and Highly Honored.

HER LONG, USEFUL LIFE

The death of Mrs. Mary Ann Croxall occurred last night at 10:30 o'clock at her home on West Third street, where she had lived for the past 35 years. Mrs. Croxall was in her seventy-eighth year, and was the oldest native born resident of East Liverpool.

Her husband, the late Jesse Croxall, who died in 1881, was one of the pioneers of the pottery industry here.

The funeral services will be held at the late residence Sunday afternoon at 2 o'clock. Rev. T. V. Milligan, a former pastor of the First Presbyterian church here, is to officiate, assisted by Rev. C. G. Jordan. The interment will be private at Riverview cemetery.

Mrs. Croxall was the daughter of the late Thomas Carey and was born in this city. When she was but a few years of age her parents moved to Hookstown, where she spent the years of her girlhood. It was at Hookstown that she was married to Mr. Croxall. Returning to this city Mr. Croxall, with his brother, purchased of the late Mr. Bennett the pottery located near the corner of Washington and Second streets. This was the pioneer plant of this city or section.

Owing to ill health Mr. Croxall disposed of his interest in the pottery and engaged in other pursuits. At one time he occupied and owned the property now known as the Bradshaw addition. Mrs. Croxall had, at a very early age, united with the Presbyterian church and she took a prominent and important part in the religious affairs in this city. She was closely identified with the auxiliary organizations of the church and accomplished a great deal of good, becoming noted for her charity. Her own life presented an example worthy of emulation and she possessed those traits of character that endeared her to all. Her acquaintance in this city was unusually large, through her activity and energy in affairs that affected the social and religious side of life. Her untiring efforts have done much to advance the cause of Christianity and her compassion for the poor has saved many an hour of suffering. Mrs. Croxall remained a leader in such work until the infirmities of age compelled her to give way to younger members of the church.

With the exception of three years spent at Trenton, all the years of Mrs. Croxall's life since her return from Hookstown in early womanhood, have been spent here and they have been full of good deeds and kind actions. Of the seven children born to Mr. and Mrs. Croxall, two survive, Frank H. Croxall and Mrs. George C. Murphy, both of this city.

Mrs. Croxall had been an invalid for almost a year, and although it was apparent that the infirmities of age were undermining her rugged constitution, it was the hope of her near relatives and friends that she might be spared to them for a number of years. The infirmities became more pronounced as the days passed, and for the past 10 months she had been confined to her room. Last Sunday she became very much worse and was seen to be failing very rapidly. What is thought to have been a slight attack of pneumonia developed, resulting in her death.

BENTLEY POPE BADLY INJURED

Well-Known Former Resident Thrown Headlong Upon Brick Pavement.

UNCONSCIOUS FOR SOME TIME

He Rallied From a Dazed State and Recovered and Went to Work.

HIS ESCAPE A NARROW ONE

A dispatch from Coshocton states that I. Bentley Pope, president of the Pope-Gosser pottery, of that city, was violently thrown from his bicycle, on Main street, Wednesday evening about 4:30 o'clock, and an ugly gash was cut in his head just over the right eye. He was rendered totally unconscious for a quarter of an hour and remained dazed for about an hour.

Mr. Pope was riding home from the pottery at a good rate of speed. At a point on Main street between the restdince of Capt. J. M. Compton and Judge C. B. Hunt, he was seen to suddenly pitch over the handlebars of his bicycle and light squarely on his head on the paved street.

Some of the women and children in the neighborhood rushed to the spot but were so excited that they were unable to do anything to revive the injured man. He lay on the street for at least five minutes before anything could be done for him. J. M. Compton happened along with his buggy and with the assistance of Russell Hanlon lifted him into the buggy and took him to his home at the corner of Seventh and Main streets.

The wound bled profusely and a pool of blood was formed where Mr. Pope's head lay on the street. His face and head were completely covered with blood and it was feared he might be very seriously injured.

Dr. Carr had been summoned and had arrived at the residence by the time Mr. Pope was carried in. An ugly three cornered cut over the right eye and a number of minor bruises were found. Mr. Pope soon rallied to his senses.

He was at a loss to know how the accident occurred and could not remember the slightest thing about it for some time, but the next morning he stated that he remembered seeing a piece of brick lying on the pavement directly in front of him and that he was unable to turn his bicycle out of the way.

Mr. Pope was feeling much better yesterday morning and went to the factory again as usual.

TERMS OF SEPARATION FIXED IN ADVANCE

Middleton Township Couple Arrange Preliminaries Before Seeking a Divorce.

Lisbon, October 2.—(Special)—Anna E. Burson, of Middleton township, is plaintiff in a divorce action which will be filed in court here today against George H. Burson.

The marriage of the two parties took place September 6, 1895, at Chillicothe, O., and in spite of her husband's intemperate habits, the wife lived with him continuously until August 12 last, when they separated, each signing a post nuptial agreement which the court is asked to make final and binding by decreeing a divorce.

By the terms of the mutual agreement entered into on the date of their separation, the wife has custody of their two children, Harry, aged 6, and Grace May, aged 3 years. The children will continue in her custody until April 1, 1904, provided she remains a resident of Middleton township, but in case of her removal the father becomes their custodian. On April 1, 1904, the father gets custody of the boy. The agreement further provides that the father shall continue to the support of both children and that either parent my visit the child in custody of the other parent at any suitable time.

A division of their land and household effects is also agreed upon, the wife getting 22 acres along with numerous articles of furniture, etc.

Library Board Meets—A meeting of the board of directors of the Carnegie library will be held this evening. The report of Miss Gertrude Baker, the librarian, will be received and other routine matters will be considered.

WITH THE WORKMEN IN THE CLAY PLANTS

NEW CASTLE.

Local No. 54 held a very interesting meeting with a fair attendance. The communication from the national president was read in regard to the two years' agreement with the manufacturers. A special meeting was called for Monday, September 28, to act on the same. The meeting was held and the result was sent to President Duffy.

In regard to the potteries here, the Universal is not doing much. Mr. Simpson, the manager, can not get along with his men. He tries to ignore the rules of the sanitary ware pressers, and when the shop committee calls him down he makes it so warm for them that they quit. Then he tries it on the new shop committee with the same result. Last winter there were 35 journeymen pressers. Today there are but 12, the balance becoming disgusted and leaving. Brothers Tom Gourley, Minnie and Hoffman, pressers, went away last Saturday, with Brother Cope, a kilnhand. The China works are doing well, but there is one grievance there in regard to the price paid for gilding. The lister and the shop committee only ask for $2.50 per day, which is the price paid in East Liverpool. The firm is waiting, claiming the matter is in the hands of the standing price list committee.

Matters at the Shenango are entirely different. Everything is on the rush. The firm is rushed with orders. This is the first time the shop has been rushed to its fullest capacity. Dan McCarron is a hustler and is going to make a grand success of the Shenango Pottery company.

Tom McKeone, Messrs. Murphy and Bartly, coverdish makers, have orders to make five dozen every day, or as much more as they like, but no less.

W. J. McKeone, who has taken charge of the big dish bench, has secured a helper and will now give the firm what dishes they need.

Brother Braley, the apprentice dishmaker, has gone to Coshocton, and George Brown, of East Liverpool, will take his place. Brother John Leese has gone to Crooksville to work in the new shop.

MANY CHANGES.

In the settlement of the pottery wage scale for the next two years are involved many issues of vital importance to the trade and they will be discussed for many a day. The course of action pursued and the results obtained will cause a number of innovations that were not even contemplated at the Wheeling convention. For instance, a proposition for a wage agreement to endure for a term of years was defeated, the majority of the delegates then thinking it unwise to bind themselves to a working agreement for longer than one year. Already there has been some talk of doing away with the convention, which ordinarily would be held next year, and adopt the plan of biennial conventions. The election of officers next May and any other matters other than wages could be settled by a referendum vote of the trade. It is pointed out that the holding of biennial conventions would save several thousands of dollars to the organization and other good arguements are advanced.

A WESTERN TRIP.

Now that the wage matters have been settled President T. J. Duffy, of the N. B. of O. P., will turn his attention to the formation of local unions at several of the new pottery towns. So strong is the organization that no trouble is experienced in incorporating the operatives at the new potteries in unions. One reason why this is an easy matter is that a majority of the operatives have at some time or other worked in this city, where the sentiment of unionism is predominant, particularly among the pottery operatives.

President Duffy left today for Evansville, Ind., where he will organize a local among the operatives of that city. From Evansville he will go to Tiffin, where he will visit the local organized there several months ago. After the Tiffin visit he will go to Cameron, where he will form a new local from the employes of the Benedum plant, the arrangements for which have already been made.

POTTERY NOTES.

Arthur Shaw has been helping out in the dish shop at Goodwin's.

Sam Shipley, of the kiln drawing crew at Thompson's, has resigned.

Fred Owens, who has been working at Minerva, has returned to this city.

Henry Smith, the presser, has changed from the Colonial to Goodwin's.

Joe Cartwright, the baker maker, has resigned his position here to accept one at Ford City.

Quite a number of Salineville operatives have arrived in the city since the shut down at the Dresden plant there.

Cartwright's will soon install the new jumbo jigger, recently ordered. The machine has been completed and will increase the output of the firm in this line of work as the old one will be used.

A DEATH KNELL TO OLD ECONOMY

Sounded by the Auctioneer Selling Off the Famous Society's Effects.

FIVE MEMBERS ARE LEFT

Of the Once Powerful Organization. Their Property Now Goes Into the Hands of Strangers—Peculiar and Pathetic Scenes.

Economy, Pa., October 2.—Within sight of the graves in which repose the remains of many of the pioneers of the quaint and once world-famous settlement, their treasured possessions, crude but historic implements of their handiwork and other objects which have characterized the great farm of the Harmony society, were sold yesterday for a mere song. The auction of the equipment, implements and live stock of the Economites which began yesterday morning was picturesque, pathetic and throughout interesting.

The staid village with its wide, unpaved streets and houses constructed of home-made bricks, perhaps never before in its history witnessed the business activity and confusion which prevailed yesterday. Farmers and stockmen from all the nearby towns were present at the big sale, hundreds of curious sightseers were here, and a number of beggars and fakirs mingled with the crowds. In many respects the town indicated that it was the scene of a country fair. The disposal of the effects of the Harmony society marks the beginning of a new era for the vast acreage of fertile ground which for almost a century were tilled by the thrifty Dutch and Germans.

The great farm which yielded millions to the Harmony society was yesterday practically abandoned, and within another year the verdant pastures will have been dotted with modern new residences; many historic landmarks will have been supplanted by other buildings, and scarcely anything will be left as a monument to the once sanctified territory of the big and distinctively peculiar family of Father George Rapp, the founder of the colony, except three blocks in the central portion of the town, in the enclosure of which are a series of magnificent but odd buildings, a pretty graveyard in which sleep about 100 Economite husbandmen and their families, a church and the "town hall," whose famous curfew bell is now silent forever.

Were the proceeds of the big auction sale devoted to memorials for the members of the society whose mounds are located under the graceful trees in the midst of the town, the money would scarcely buy half of them crude headboards. Every farming implement, all the stock wagons, harness, and, in fact, everything that will not be needed by the five surviving members of the society, was placed under the auctioneer's hammer yesterday, and the prices received in every instance for the stock and goods was astonishingly low.

The equipment of the farm was, perhaps, the most complete in this section of the country, and, therefore, the sale attracted many prominent farmers of Beaver, Allegheny and Butler counties. The auction was conducted at the old barns of the society in the middle of the town, and almost continuously during its progress several hundred persons participated in the bidding, inspected the stock and the several car loads of farming tools, fixtures and what not. In the large collection of stock and implements were many curious relics. Some of these time-honored fixtures of the farm which had more than intrinsic worth to the honest and sturdy, peace-loving Germans, who worked and worshipped in homespun garments, were almost given away by the auctioneer, who, in a fog-horn voice, shouted, "Going, are you all done? Sold for $10," on numerous occasions when he prodded up a fine Jersey milch cow and announced that it had been sold to the highest bidder.

Sixty head of cattle, embracing Jerseys, Herfords, Holsteins and mixed breeds, were placed on the block, and they brought on an average the ridiculously low price of $13. In the herd were a few cows which have almost outgrown their usefulness, and which have furnished milk to more than one generation of Harmonites. The prices received for those would scarcely pay for their shipping to Pittsburg. A number of fine Jersey cows, which were fresh, young and healthy, were sold for $20 each, while a number of good horses were sold at remarkably low prices.

Everything necessary for the cultivation of a farm was placed on sale yesterday, from the most improved harvester to a grubbing hoe. The bidding was not spirited on the larger implements and machinery, therefore it was decided to hold over these goods until today, when the sale was continued. Many of the tools which for almost three score years were used in the fields by the Economites were manufactured by their hands or by their forefathers. These were religiously treasured by the members of the colony for years, but yesterday the queer collection was desecrated by the eager crowds of curiosity and bargain seekers.

An old buck saw, the teeth of which indicated that it was home made, and whose handles were fashioned from hickory, was knocked down to the highest bidder for 5 cents. A cattle yoke, the bow of which was maple, and which was probably made in the early part of the last century by some patient member of the old colony, was thrown into the crowd by the auctioneer, as were crude but substantial objects required on a farm. Apple butter paddles, great iron kettles, wine casks, whose age had rendered them very valuable, grindstones and cider presses, were practically given away by the auctioneer. None of the five members—all that are left of the prosperous society—was present at the sale yesterday.

While the quintet has a splendid home and every comfort that wealth can provide, the bass voice of the auctioneer yesterday sounded to the five a death knell for old Economy. The sale proclaimed the actual abandonment of the 3,800 acres which were purchased by Father Rapp and his followers in the spring of 1805, and that the undulating green hills and meadows will soon be converted into a busy hustling business and manufacturing community depriving them of the quietude which has prevailed at Economy since the inception of the colony.

The members of the society who now dwell in the miniature new Economy in the midst of the old farm are: Franz Gilmann, Christina Rall, Barbara Boesch, John S. Duss, the trustee of the society, and Mrs. Duss.

The four blocks in which the few members of the old society reside is enclosed by a tall white painted board fence. The buildings and grounds are practically unchanged since the famous regime of Father Hendici, the aged trustee of the society who died about 12 years ago. The group of buildings and the ground within the enclosure will be retained by the survivors of the society for life. Each of the members save Mrs. Duss has reached an advanced age, but are hardy and happy, and while wealthy and with every means at their disposal to provide themselves with luxuries, they still adhere to the provincialisms and customs which characterized their ancestors.

Six months ago the Economy farm was sold and transferred to a land company. Since then the sale portions of the farm have been leased. These leases will all expire after harvest. Then the territory will be laid out in building lots and converted into a pretty modern residential district.

The old grist mill, which has been a landmark in Economy for at least 80 years, and which is now in a state of decay, will soon be razed and replaced by a large new series of dwellings. The old barns will also soon come down, and within another year nothing will be left of the original settlement but the group of dwellings, the dance hall, church and the graveyard, with its weeping willows and white tombstones, in the center of the town.

Go Prepared.

In preparing for your summer outing a little forethought may save you no end of trouble. Mr. John H. Mauly, a dry goods merchant, of Bellville, R. I., while packing an outfit for camping a few weeks on Narragansett Bay, put in a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy for emergency use. The second day in camp his little boy was taken with cramp colic. The first dose of this remedy gave relief and the second dose effected a cure. Think of the pain and suffering this boy would have had to endure without this remedy at hand to relieve him. Such cases often result fatally. For sale by Alvin H. Bulger.

Our shoe stock is larger and our shoe values and styles better this fall than ever before.

SLOT MACHINES SMASHED

Beaver County District Attorney Takes Summary Means to Abolish Them.

Beaver Pa., October 2.—District Attorney D. K. Cooper yesterday destroyed 11 slot machines, which had been seized by Sheriff Howard Bliss during recent raids on gambling houses in the Beaver valley. The machines were thrown from a window of the top floor of the court house and those that were not sufficiently smashed by the fall were knocked to pieces with an ax.

A large crowd watched the machines being destroyed. A few nickels were found in the debris. The bulk of the money had previously been taken from them and will be used to help pay the cost of prosecution.

WITH THE WORKMEN IN THE CLAY PLANTS

NEW CASTLE.

Local No. 54 held a very interesting meeting with a fair attendance. The communication from the national president was read in regard to the two years' agreement with the manufacturers. A special meeting was called for Monday, September 28, to act on the same. The meeting was held and the result was sent to President Duffy.

In regard to the potteries here, the Universal is not doing much. Mr. Simpson, the manager, can not get along with his men. He tries to ignore the rules of the sanitary ware pressers, and when the shop committee calls him down he makes it so warm for them that they quit. Then he tries it on the new shop committee with the same result. Last winter there were 35 journeymen pressers. Today there are but 12, the balance becoming disgusted and leaving. Brothers Tom Gourley, Minnie and Hoffman, pressers, went away last Saturday, with Brother Cope, a kiln-hand. The China works are doing well, but there is one grievance there in regard to the price paid for gilding. The lister and the shop committee only ask for $2.50 per day, which is the price paid in East Liverpool. The firm is waiting, claiming the matter is in the hands of the standing price list committee.

Matters at the Shenango are entirely different. Everything is on the rush. The firm is rushed with orders. This is the first time the shop has been rushed to its fullest capacity. Dan McCarron is a hustler and is going to make a grand success of the Shenango Pottery company.

Tom McKeone, Messrs. Murphy and Bartly, coverdish makers, have orders to make five dozen every day, or as much more as they like, but no less.

W. J. McKeone, who has taken charge of the big dish bench, has secured a helper and will now give the firm what dishes they need.

Brother Braley, the apprentice dishmaker, has gone to Coshocton, and George Brown, of East Liverpool, will take his place. Brother John Leese has gone to Crooksville to work in the new shop.

MANY CHANGES.

In the settlement of the pottery wage scale for the next two years are involved many issues of vital importance to the trade and they will be discussed for many a day. The course of action pursued and the results obtained will cause a number of innovations that were not even contemplated at the Wheeling convention. For instance, a proposition for a wage agreement to endure for a term of years was defeated, the majority of the delegates then thinking it unwise to bind themselves to a working agreement for longer than one year. Already there has been some talk of doing away with the convention, which ordinarily would be held next year, and adopt the plan of biennial conventions. The election of officers next May and any other matters other than wages could be settled by a referendum vote of the trade. It is pointed out that the holding of biennial conventions would save several thousands of dollars to the organization and other good arguements are advanced.

A WESTERN TRIP.

Now that the wage matters have been settled President T. J. Duffy, of the N. B. of O. P., will turn his attention to the formation of local unions at several of the new pottery towns. So strong is the organization that no trouble is experienced in incorporating the operatives at the new potteries in unions. One reason why this is an easy matter is that a majority of the operatives have at some time or other worked in this city, where the sentiment of unionism is predominant, particularly among the pottery operatives.

President Duffy left today for Evansville, Ind., where he will organize a local among the operatives of that city. From Evansville he will go to Tiffin, where he will visit the local organized there several months ago. After the Tiffin visit he will go to Cameron, where he will form a new local from the employes of the Benedum plant, the arrangements for which have already been made.

POTTERY NOTES.

Arthur Shaw has been helping out in the dish shop at Goodwin's.

Sam Shipley, of the kiln drawing crew at Thompson's, has resigned.

Fred Owens, who has been working at Minerva, has returned to this city.

Henry Smith, the presser, has changed from the Colonial to Goodwin's.

Joe Cartwright, the baker maker, has resigned his position here to accept one at Ford City.

Quite a number of Salineville operatives have arrived in the city since the shut down at the Dresden plant there.

Cartwright's will soon install the new jumbo jigger, recently ordered. The machine has been completed and will increase the output of the firm in this line of work as the old one will be used.

A DEATH KNELL TO OLD ECONOMY

Sounded by the Auctioneer Selling Off the Famous Society's Effects.

FIVE MEMBERS ARE LEFT

Of the Once Powerful Organization Their Property Now Goes Into the Hands of Strangers—Peculiar and Pathetic Scenes.

Economy, Pa., October 2.—Within sight of the graves in which repose the remains of many of the pioneers of the quaint and once world-famous settlement, their treasured possessions, crude but historic implements of their handiwork and other objects which have characterized the great farm of the Harmony society, were sold yesterday for a mere song. The auction of the equipment, implements and live stock of the Economites which began yesterday morning was picturesque, pathetic and throughout interesting.

The staid village with its wide, unpaved streets and houses constructed of home-made bricks, perhaps never before in its history witnessed the business activity and confusion which prevailed yesterday. Farmers and stockmen from all the nearby towns were present at the big sale, hundreds of curious sightseers were here, and a number of beggars and fakirs mingled with the crowds. In many respects the town indicated that it was the scene of a country fair. The disposal of the effects of the Harmony society marks the beginning of a new era for the vast acreage of fertile ground which for almost a century were tilled by the thrifty Dutch and Germans.

The great farm which yielded millions to the Harmony society was yesterday practically abandoned, and within another year the verdant pastures will have been dotted with modern new residences; many historic landmarks will have been supplanted by other buildings, and scarcely anything will be left as a monument to the once sanctified territory of the big and distinctively peculiar family of Father George Rapp, the founder of the colony, except three blocks in the central portion of the town, in the enclosure of which are a series of magnificent but odd buildings, a pretty graveyard in which sleep about 100 Economite husbandmen and their families, a church and the "town hall," whose famous curfew bell is now silent forever.

Were the proceeds of the big auction sale devoted to memorials for the members of the society whose mounds are located under the graceful trees in the midst of the town, the money would scarcely buy half of them crude headboards. Every farming implement, all the stock wagons, harness, and, in fact, everything that will not be needed by the five surviving members of the society, was placed under the auctioneer's hammer yesterday, and the prices received in every instance for the stock and goods was astonishingly low.

The equipment of the farm was, perhaps, the most complete in this section of the country, and, therefore, the sale attracted many prominent farmers of Beaver, Allegheny and Butler counties. The auction was conducted at the old barns of the society in the middle of the town, and almost continuously during its progress several hundred persons participated in the bidding, inspected the stock and the several car loads of farming tools, fixtures and what not. In the large collection of stock and implements were many curious relics. Some of these time-honored fixtures of the farm which had more than intrinsic worth to the honest and sturdy, peace-loving Germans, who worked and worshipped in homespun garments, were almost given away by the auctioneer, who, in a fog-horn voice, shouted, "Going, are you all done? Sold for $10," on numerous occasions when he prodded up a fine Jersey milch cow and announced that it had been sold to the highest bidder.

Sixty head of cattle, embracing Jerseys, Herfords, Holsteins and mixed breeds, were placed on the block, and they brought on an average the ridiculously low price of $13. In the herd were a few cows which have almost outgrown their usefulness, and which have furnished milk to more than one generation of Harmonites. The prices received for those would scarcely pay for their shipping to Pittsburg. A number of fine Jersey cows, which were fresh, young and healthy, were sold for $20 each, while a number of good horses were sold at remarkably low prices.

Everything necessary for the cultivation of a farm was placed on sale yesterday, from the most improved harvester to a grubbing hoe. The bidding was not spirited on the larger implements and machinery, therefore it was decided to hold over these goods until today, when the sale was continued. Many of the tools which for almost three score years were used in the fields by the Economites were manufactured by their hands or by their forefathers. These were religiously treasured by the members of the colony for years, but yesterday the queer collection was desecrated by the eager crowds of curiosity and bargain seekers.

An old buck saw, the teeth of which indicated that it was home made, and whose handles were fashioned from hickory, was knocked down to the highest bidder for 5 cents. A cattle yoke, the bow of which was maple, and which was probably made in the early part of the last century by some patient member of the old colony, was thrown into the crowd by the auctioneer, as were crude but substantial objects required on a farm. Apple butter paddles, great iron kettles, wine casks, whose age had rendered them very valuable, grindstones and cider presses, were practically given away by the auctioneer. None of the five members—all that are left of the prosperous society—was present at the sale yesterday.

While the quintet has a splendid home and every comfort that wealth can provide, the bass voice of the auctioneer yesterday sounded to the five a death knell for old Economy. The sale proclaimed the actual abandonment of the 3,800 acres which were purchased by Father Rapp and his followers in the spring of 1805, and that the undulating green hills and meadows will soon be converted into a busy hustling business and manufacturing community depriving them of the quietude which has prevailed at Economy since the inception of the colony.

The members of the society who now dwell in the miniature new Economy in the midst of the old farm are: Franz Gilmann, Christina Rall, Barbara Boesch, John S. Duss, the trustee of the society, and Mrs. Duss.

The four blocks in which the few members of the old society reside is enclosed by a tall white painted board fence. The buildings and grounds are practically unchanged since the famous regine of Father Hendici, the aged trustee of the society who died about 12 years ago. The group of buildings and the ground within the enclosure will be retained by the survivors of the society for life. Each of the members save Mrs. Duss has reached an advanced age, but are hardy and happy, and while wealthy and with every means at their disposal to provide themselves with luxuries, they still adhere to the provincialisms and customs which characterized their ancestors.

Six months ago the Economy farm was sold and transferred to a land company. Since then the sale portions of the farm have been leased. These leases will all expire after harvest. Then the territory will be laid out in building lots and converted into a pretty modern residential district.

The old grist mill, which has been a landmark in Economy for at least 80 years, and which is now in a state of decay, will soon be razed and replaced by a large new series of dwellings. The old barns will also soon come down, and within another year nothing will be left of the original settlement but the group of dwellings, the dance hall, church and the graveyard, with its weeping willows and white tombstones, in the center of the town.

STREET CAR CONDUCTOR THROWN BY A CAR

Attempt to Board a Moving Car Resulted in Conductor Smith Receiving Painful Injuries.

Conductor Smith of the East Liverpool line, was painfully injured about the head yesterday afternoon in attempting to board a rapidly moving car at Ralston crossing. His escape from being thrown under the wheels was a very narrow one and he is congratulating himself that his injuries are not of a more dangerous character.

Smith had finished his run for the day and was not in charge of the car which brought about his injury. He lives in the nighborhood of Ralston's crossing and attempted to board the car to ride to the city. As the car passed he prepared to swing aboard, but he stumbled over some obstacle just as he was about to make the last step and lost his footing. He was thrown to the ground with great force, sustaining a number of deep cuts and several bruises about the head and face.

Smith was taken to the office of Dr. R. J. Marshall, where his injuries were attended to. He was able to walk around this morning, but he will not be fit for duty for a week or more.

ARE WELL SATISFIED

People Along Railroad Street Agreed to Building of a Four-Foot Fence.

Property owners and those living along Railroad street are very well satisfied with the fence the railroad company is having built along its right of way. Statements to the contrary are untrue and the people think it is doing the railroad company an injustice.

Before the work was commenced it was announced that the company would build a six-foot fence. There was objection on the part of the people to this and a conference with the company was sought. Through the efforts of City Solicitor Davidson and several prominent East Enders the company agreed to a four-foot fence. The people realize the necessity of the barrier and are now very well satisfied.

Car of Clay Went Wrong.

Work has been suspended at the Klondike pottery on account of the shortage of clay and it may be several days before work can be resumed. A car of clay consigned to the firm was sent to East Palestine by mistake and was unloaded there. Now the operatives will be compelled to loaf until another car is received.

Foot Ball Tomorrow.

The East End foot ball enthusiasts will turn out en masse tomorrow to see the first game of the season at Columbian park. The Oakland Athletic club is to meet the first Sebring team and a great contest is in prospect. The Dixonville Tigers will play a Wellsville team at the school house grounds tomorrow.

Organizing at Smith's Ferry.

District Deputy D. Frank White, with the able assistance of O. D. Culbertson, is at work among the people of Smith's Ferry for the purpose of organizing a lodge of the Protected Home Circle. As a result of the work done so far quite a number of names have been secured and the success of the undertaking seems assured.

PEARL HUNTING

A Permanent Industry at Canal Dover. Some Good Finds Reported.

For the last two weeks there has been a regular craze in this city for hunting pearls in the Tuscarawas river near Canal Dover. Some one discovered that some of the common fresh water mussels contain pears of a fairly good quality and since then hundreds of people have been dredging the river with fairly good success.

The pearls found vary in size from the small slugs to half an inch in diameter and bring anywhere from $1 to $100. John E. Ross, a New Philadelphia jeweler, has the finest one, which has been found near his place. It is valued at about $100.

The pearl-bearing mussels are found about three miles above that city. Pearl hunting bids fair to be a permanent business.

JAIL BREAK ATTEMPTED

Martin's Ferry Murderer's Plot to Escape from Prison Is Frustrated.

St. Clairsville, October 2.—A bold attempt to break jail was discovered in time to prevent the escape of five prisoners, who are awaiting trial for murder. Harry Bowers, who held up and robbed Dr. R. H. Wilson, of Martin's Ferry, had secured two small files, with which he had removed a section of the metal floor of his cell sufficiently large to permit his body to pass through.

He was at work on the concrete beneath, when the flickering light in his cell was discovered by Jailer Clyde Bulger, and he was removed to another cell.

STREET CAR CONDUCTOR THROWN BY A CAR

Attempt to Board a Moving Car Resulted in Conductor Smith Receiving Painful Injuries.

Conductor Smith of the East Liverpool line, was painfully injured about the head yesterday afternoon in attempting to board a rapidly moving car at Ralston crossing. His escape from being thrown under the wheels was a very narrow one and he is congratulating himself that his injuries are not of a more dangerous character.

Smith had finished his run for the day and was not in charge of the car which brought about his injury. He lives in the nighborhood of Ralston's crossing and attempted to board the car to ride to the city. As the car passed he prepared to swing aboard, but he stumbled over some obstacle just as he was about to make the last step and lost his footing. He was thrown to the ground with great force, sustaining a number of deep cuts and several bruises about the head and face.

Smith was taken to the office of Dr R. J. Marshall, where his injuries were attended to. He was able to walk around this morning, but he will not be fit for duty for a week or more.

ARE WELL SATISFIED

People Along Railroad Street Agreed to Building of a Four-Foot Fence.

Property owners and those living along Railroad street are very well satisfied with the fence the railroad company is having built along its right of way. Statements to the contrary are untrue and the people think it is doing the railroad company an injustice.

Before the work was commenced it was announced that the company would build a six-foot fence. There was objection on the part of the people to this and a conference with the company was sought. Through the efforts of City Solicitor Davidson and several prominent East Enders the company agreed to a four-foot fence. The people realize the necessity of the barrier and are now very well satisfied.

Car of Clay Went Wrong.

Work has been suspended at the Klondike pottery on account of the shortage of clay and it may be several days before work can be resumed. A car of clay consigned to the firm was sent to East Palestine by mistake and was unloaded there. Now the operatives will be compelled to loaf until another car is received.

Foot Ball Tomorrow.

The East End foot ball enthusiasts will turn out en masse tomorrow to see the first game of the season at Columbian park. The Oakland Athletic club is to meet the first Sebring team and a great contest is in prospect. The Dixonville Tigers will play a Wellsville team at the school house grounds tomorrow.

Organizing at Smith's Ferry.

District Deputy D. Frank White, with the able assistance of O. D. Culbertson, is at work among the people of Smith's Ferry for the purpose of organizing a lodge of the Protected Home Circle. As a result of the work done so far quite a number of names have been secured and the success of the undertaking seems assured.

Fruit And Blossoms.

The unusual spectacle of a tree containing both blossoms and ripened fruit is presented near the home of Alex Brownlee, of Dry Run. It is an apple tree, and on the branches to the west are large clusters of the blossoms among the full grown apples.

EAST END AFFAIRS.

Mrs. Cox, of Erie street, is reported quite ill of fever.

John Patterson is spending a few days near Lisbon.

Dr. M. W. Taylor and Willis Orr were visitors to East Palestine yesterday to attend the fair.

Lester Behrman, of First avenue, is reported quite sick today.

Miss Tillie Deever was a visitor to East Palestine yesterday.

Quite a number of the members of Eureka circle attended the big meeting of Stratton circle last night.

Mrs. Anna Pyles, of Midway, Pa., who has been visiting her sister, Mrs. H. L. Bradmon, of Mulberry street, returned to her home yesterday.

The little daughter of Mr. and Mrs. Joseph Walton, of Sandy Bottom, has been quite sick for several days and for a time it was feared that her malady with diphtheria.

PEARL HUNTING

A Permanent Industry at Canal Dover. Some Good Finds Reported.

For the last two weeks there has been a regular craze in this city for hunting pearls in the Tuscarawas river near Canal Dover. Some one discovered that some of the common fresh water mussels contain pears of a fairly good quality and since then hundreds of people have been dredging the river with fairly good success.

The pearls found vary in size from the small slugs to half an inch in diameter and bring anywhere from $1 to $100. John E. Ross, a New Philadelphia jeweler, has the finest one, which has been found near his place. It is valued at about $100.

The pearl-bearing mussels are found about three miles above that city. Pearl hunting bids fair to be a permanent business.

JAIL BREAK ATTEMPTED

Martin's Ferry Murderer's Plot to Escape from Prison Is Frustrated.

St. Clairsville, October 2.—A bold attempt to break jail was discovered in time to prevent the escape of five prisoners, who are awaiting trial for murder. Harry Bowers, who held up and robbed Dr. R. H. Wilson, of Martin's Ferry, had secured two small files, with which he had removed a section of the metal floor of his cell sufficiently large to permit his body to pass through.

He was at work on the concrete beneath, when the flickering light in his cell was discovered by Jailer Clyde Bulger, and he was removed to another cell.

When Tom Johnson began his crusade for "just taxation" in Cleveland, the tax rate was 2.67 per $100 valuation. Despite the fact that, under the wise, businesslike administration of Governor Nash, the state tax has been cut in half, the rate for Cleveland this year will be 3.01 per $100. What is more, the bonded indebtedness of the city has been increased from $13,000,000 to $17,000,000, and its credit has gone from good to bad, the late offer of bonds at a 4 per cent rate attracting few bidders, although the city had previously found a ready market for its obligations at a figure that netted the buyer less than 3½ per cent. There are 106 office-holders in Johnson's Cleveland machine drawing an aggregate salaries of $296,756. These officials return a total valuation for taxation of $41,195 and contribute the niggardly sum of $1,238.33 to the county treasury. Charles Salen, chairman of the Democratic state committee, is county clerk and draws the same salary as the president of the United States—$50,000. He makes no return and pays no taxes. In view of these facts, Clevelanders are awakening to the fact that they have been made victims of a bunco game; that Johnson, while preaching just taxation, is surrounded by a gang whose sole purpose is to loot the public tills.

Ohio has again disgraced herself by a lynching. Mob spirit made sad work in the staid college town of Oxford. Every such outbreak by a mob works more harm than the most diligent efforts of reformers can counteract in years. A stern application of the law, to discourage future lawlessness, should and doubtless will follow. Ohio has no more sympathy with lynching than with any other form of anarchy.

The treasury surplus has been reduced and it is surely not an alarming amount of stored-up wealth for a country as great as the United States. Yet it continues to worry the Democrats. They produced a deficit of huge proportions in a short time when they last attempted to manage the nation's finances, and would do it again in a hurry if they got a chance.

War is inevitable between the United States and Germany, says a Chicago professor who has just returned from the latter country. Wonder where he got his tip? Our friend the kaiser has acknowledged the Monroe doctrine, as well as our trade supremacy and there is little else left to quarrel about.

The triumph of Tom Johnson in Ohio would make the land owners bear all tax burdens. The farmers of this commonwealth will take good care that he does not triumph.

Testimony in the Tillman trial shows that the ex-lieutenant governor of South Carolina had in him more of the coward than of the desperado.

Railroad earnings continue to increase, which is pretty goood evidence that there is nothing radically wrong with the business situation.

The subsidence of the base ball season gives the women golf champions their opportunity and columns of notice in the daily papers.

The Chicago papers loudly boast that the stock yards attract more attention than the art institute as a centennial exhibit.

The Boston champions are likely to discover what really good ball playing is before they get through with Pittsburg.

Japan seems anxious to get mixed up in the oriental imbroglio. The way is easy.

The one-minute automobile has arrived along with the two-minute horse.

OBITUARY

John Morrison.

Lisbon, October 2.—(Special.)—Relatives here received word late yesterday afternoon of the death of John Morrison, son of the late Harvey Morrison, a well known Lisbon lawyer which occurred in Cleveland yesterday afternoon. Death was due to consumption, with which he had been very low for some time. Mr. Morrison was born in Lisbon about 35 years ago and had spent most of his life here. The body was brought here at noon today and at 3:30 o'clock funeral service will be held at the home of Mrs. Ora Morrison, stepmother of the deceased on West Walnut street. Rev. J. A. Ulman, of the M. E. church, will officiate at the services, which will be private on account of the enfeebled condition of Attorney John W. Morrison, an uncle. Interment in the Lisbon cemetery.

Iron Works Destroyed by Fire.

Canton, O., Oct. 2.—A portion of the Novelty Iron company's plant was destroyed, with a loss of about $150,000. The fire is supposed to have been caused by a spark from a passing locomotive. The frame structure, which includes the pattern making department, the setting-up room, coke sheds and scratch room, were destroyed, and the machine shop and other portions of the plant were badly damaged by water.

Three Legal Names in One Day.

Wheeling, Oct. 2.—Mrs. Tillie Crow had her name changed twice by process of law. She was granted an absolute divorce from her husband, John A. Crow, her maiden name of Crubaugh being restored. With the decree in her hand she appeared in the county court, secured a marriage license, and within two hours was Mrs. John W. Woodward.

Ohioan Equals World's Record.

Austerlitz, Ky., Oct. 2.—At the annual live bird shoot of the Hilltop Gun club, situated on the famous Clay farm near here, C. W. Phellis, of Mechanicsburg, O., equaled the world's record and set a new record for the state of Kentucky by scoring 50 straight in a 20-yard boundary. Heikes, of Dayton, O., scored 48; Gilbert, of Spirit Lake, Ia., 47, and Hirschey, of Minnesota, 44.

Always Reliable

We are not trying to establish a reputation for "lowest cut rates." We are not trying to make the biggest show. We do not claim the earth. Our ambition now is just what it was years ago—to deserve the reputation of always being reliable. We won that reputation honestly and it cannot be taken away from us. In drugs reliability is the most important consideration.

SOCIAL EVENTS

THE MOCK TRIAL A BIG SUCCESS

ALL OF THE CAST CARRIED OUT THEIR PARTS FINELY.

Entertainment Under Auspices of Ladies' Auxiliary of Y. M. C. A. a Most Amusing One.

The mock trial of an alleged breach of promise suit, given at the opera house last evening under the auspices of the Ladies' Auxiliary of the Y. M. C. A., attracted a large audience and was a fine entertainment. Judge, counsel, witnesses and attorneys all acquitted themselves with credit and sallies of wit kept the crowd in roars of laughter.

The case was that of Mrs. Jerusha Rugg Perkins, a widow and boarding housekeeper, against Herman Feustel, Jr. The sum of $3.98 was claimed for alleged breach of promise to marry. The testimony developed that Feustel was not at all willing to please the widow, who was in a marrying mood, but was exceedingly anxious to wed the widow's niece, Miss Jerusha Ray Perkins, and that love letters and poems addressed to the latter had been appropriated by the former. The characters in the play were in the following capable hands:

Judge—M. C. Wright.
Plaintiff—Miss Nina Kinsey.
Defendant—Herman Fuestel, Jr.
Prosecuting Attorney—Col. A. V. Newton, of Worcester, Mass.
Defendant's Attorney—Frank E. Grosshans.
Court Officer—Homer Morris.
Court Crier—W. V. Harris.
Clerk of Courts—Willis Davidson.
Witnesses—Dr. W. A. Hobbs, Justice H. P. McCarron, Mrs. John Sellers, Joseph Betz, Miss Maud Webber.
Jurors—F. M. Leasure, Will Morris, W. J. McKinney, D. F. Nellis, Dr. C. H. Birkett, C. L. Gray, W. S. Smith, O. N. Earl, R. G. Otterman, Adam Hill, W. W. Webster, E. W. Bartlett.

The jury, in duty bound to pay no attention to the evidence, the arguments, or the judge's charge, found for the plaintiff and decided that the $3.98 should be divided, $3 going to jury and 98 cents to the judge. The ladies in the cast were well skilled to handle their difficult parts, and 'Squire McCarron, Dr. Hobbs and Joseph Betz proved star witnesses and told some remarkable tales. Col. Newton won new laurels as prosecuting attorney, and F. E. Grosshans, the counsel for the defense, conducted his side with distinguished ability. His closing argument was a gem. It was a pleasing performance throughout—as good as a play and better than many plays.

Farewell Reception.

The missionary society, the Ladies' guild and the Girls' Friendly society of St. Stephen's church united last evening in giving Mrs. William Stubbs a farewell reception. Mr. and Mrs. Stubbs will leave in a short time for England, where they will reside. The entertainment was in the form of a social, each member present expressing their regret upon the departure of one of the most willing and active workers in the church. The ladies of the society served refreshments, after which each one of the societies presented Mrs. Stubbs with a handsome remembrance, as a token of their high esteem for her. The gifts were a bible, a gold cross and a gold thimble. Rev. Edwin Weary made an address when the presentations were made. The event was a complete surprise to Mrs. Stubbs and a social success.

Wedded at Calcutta.

Rev. Mr. Clark, at the Calcutta U. P. parsonage yesterday, married Daniel Darby and Miss Goldie Crawford, two popular young people of this city.

I hereby agree to refund the price paid for Mi-o-na if the purchaser tells me that it has not increased flesh and given freedom from stomach troubles. WILL REED.

For years there has been a demand for a natural means for increasing flesh, and Mi-o-na has come to supply this need.

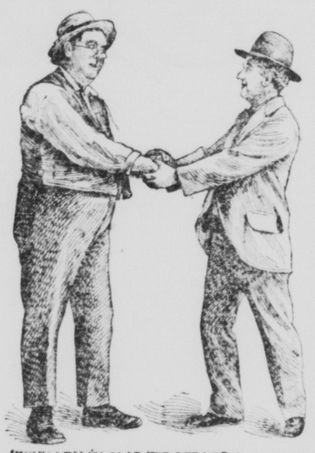

It is not a cod liver oil preparation, but a combination of flesh-forming elements, that regulates and aids digestion and restores health. It mingles with the food you eat, aids its assimilation, tones up and strengthens the digestive organs, and puts the whole system in proper physical condition.

Every one who is troubled with dyspepsia, has that tired feeling, loss of appetite, or is losing flesh or is in a run down condition, should take the guarantee bond to Will Reed and begin the use of Miona at his risk.

Remember that treatment costs you nothing unless it does all that is claimed for it.

When Tom Johnson began his crusade for "just taxation" in Cleveland, the tax rate was 2.67 per $100 valuation. Despite the fact that, under the wise, businesslike administration of Governor Nash, the state tax has been cut in half, the rate for Cleveland this year will be 3.01 per $100. What is more, the bonded indebtedness of the city has been increased from $13,000,000 to $17,000,000, and its credit has gone from good to bad, the late offer of bonds at a 4 per cent rate attracting few bidders, although the city had previously found a ready market for its obligations at a figure that netted the buyer less than 3½ per cent. There are 106 office-holders in Johnson's Cleveland machine drawing an aggregate salaries of $296,756. These officials return a total valuation for taxation of $41,195 and contribute the niggardly sum of $1,238.33 to the county treasury. Charles Salen, chairman of the Democratic state committee, is county clerk and draws the same salary as the president of the United States—$50,000. He makes no return and pays no taxes. In view of these facts, Clevelanders are awakening to the fact that they have been made victims of a bunco game; that Johnson, while preaching just taxation, is surrounded by a gang whose sole purpose is to loot the public tills.

Ohio has again disgraced herself by a lynching. Mob spirit made sad work in the staid college town of Oxford. Every such outbreak by a mob works more harm than the most diligent efforts of reformers can counteract in years. A stern application of the law, to discourage future lawlessness, should and doubtless will follow. Ohio has no more sympathy with lynching than with any other form of anarchy.

The treasury surplus has been reduced and it is surely not an alarming amount of stored-up wealth for a country as great as the United States. Yet it continues to worry the Democrats. They produced a deficit of huge proportions in a short time when they last attempted to manage the nation's finances, and would do it again in a hurry if they got a chance.

War is inevitable between the United States and Germany, says a Chicago professor who has just returned from the latter country. Wonder where he got his tip? Our friend the kaiser has acknowledged the Monroe doctrine, as well as our trade supremacy, and there is little else left to quarrel about.

The triumph of Tom Johnson in Ohio would make the land owners bear all tax burdens. The farmers of this commonwealth will take good care that he does not triumph.

Testimony in the Tillman trial shows that the ex-lieutenant governor of South Carolina had in him more of the coward than of the desperado.

Railroad earnings continue to increase, which is pretty goood evidence that there is nothing radically wrong with the business situation.

The subsidence of the base ball season gives the women golf champions their opportunity and columns of notice in the daily papers.

The Chicago papers loudly boast that the stock yards attract more attention than the art institute as a centennial exhibit.

The Boston champions are likely to discover what really good ball playing is before they get through with Pittsburg.

Japan seems anxious to get mixed up in the oriental imbroglio. The way is easy.

The one-minute automobile has arrived along with the two-minute horse.

OBITUARY

John Morrison.

Lisbon, October 2.—(Special.)—Relatives here received word late yesterday afternoon of the death of John Morrison, son of the late Harvey Morrison, a well known Lisbon lawyer which occurred in Cleveland yesterday afternoon. Death was due to consumption, with which he had been very low for some time. Mr. Morrison was born in Lisbon about 35 years ago and had spent most of his life here. The body was brought here at noon today and at 3:30 o'clock funeral services will be held at the home of Mrs. Ora Morrison, stepmother of the deceased, on West Walnut street. Rev. J. A. Ullman, of the M. E. church, will officiate at the services, which will be private on account of the enfeebled condition of Attorney John W. Morrison, an uncle. Interment in the Lisbon cemetery.

Iron Works Destroyed by Fire.

Canton, O., Oct. 2.—A portion of the Novelty Iron company's plant was destroyed, with a loss of about $150,000. The fire is supposed to have been caused by a spark from a passing locomotive. The frame structure, which includes the pattern making department, the setting-up room, coke sheds and scratch room, were destroyed, and the machine shop and other portions of the plant were badly damaged by water.

Three Legal Names in One Day.

Wheeling, Oct. 2.—Mrs. Tillie Crow had her name changed twice by process of law. She was granted an absolute divorce from her husband, John A. Crow, her maiden name of Crubacher being restored. With the decree in her hand she appeared in the county court, secured a marriage license, and within two hours was Mrs. John W. Woodward.

Ohioan Equals World's Record.

Austerlitz, Ky., Oct. 2.—At the annual live bird shoot of the Hilltop Gun club, situated on the famous Clay farm near here, C. W. Phellis, of Mechanicsburg, O., equaled the world's record and set a new record for the state of Kentucky by scoring 50 straight in a 20-yard boundary. Heikes, of Dayton O., scored 48; Gilbert, of Spirit Lake, Ia., 47, and Hirschey, of Minnesota, 44.

SOCIAL EVENTS

THE MOCK TRIAL A BIG SUCCESS

ALL OF THE CAST CARRIED OUT THEIR PARTS FINELY.

Entertainment Under Auspices of Ladies' Auxiliary of Y. M. C. A. a Most Amusing One.

The mock trial of an alleged breach of promise suit, given at the opera house last evening under the auspices of the Ladies' Auxiliary of the Y. M. C. A., attracted a large audience and was a fine entertainment. Judge, counsel, witnesses and attorneys all acquitted themselves with credit and sallies of wit kept the crowd in roars of laughter.

The case was that of Mrs. Jerusha Rugg Perkins, a widow and boarding housekeeper, against Herman Feustel, Jr. The sum of $3.98 was claimed for alleged breach of promise to marry. The testimony developed that Feustel was not at all willing to please the widow, who was in a marrying mood, but was exceedingly anxious to wed the widow's niece, Miss Jerusha Ray Perkins, and that love letters and poems addressed to the latter had been appropriated by the former. The characters in the play were in the following capable hands:

Judge—M. C. Wright.
Plaintiff—Miss Nina Kinsey.
Defendant—Herman Fuestel, Jr.
Prosecuting Attorney—Col. A. V. Newton, of Worcester, Mass.
Defendant's Attorney—Frank E. Grosshans.
Court Officer—Homer Morris.
Court Crier—W. V. Harris.
Clerk of Courts—Willis Davidson.
Witnesses—Dr. W. A. Hobbs, Justice H. P. McCarron, Mrs. John Sellers, Joseph Betz, Miss Maud Webber.
Jurors—F. M. Leasure, Will Morris, W. J. McKinney, D. F. Nellis, Dr. C. H. Birkett, C. L. Gray, W. S. Smith, O. N. Earl, R. G. Otterman, Adam Hill, W. W. Webster, E. W. Bartlett.

The jury, in duty bound to pay no attention to the evidence, the arguments, or the judge's charge, found for the plaintiff and decided that the $3.98 should be divided, $3 going to jury and 98 cents to the judge. The ladies in the cast were well skilled to handle their difficult parts, and 'Squire McCarron, Dr. Hobbs and Joseph Betz proved star witnesses and told some remarkable tales. Col. Newton won new laurels as prosecuting attorney, and F. E. Grosshans, the counsel for the defense, conducted his side with distinguished ability. His closing argument was a gem. It was a pleasing performance throughout—as good as a play and better than many plays.

Farewell Reception.

The missionary society, the Ladies' guild and the Girls' Friendly society of St. Stephen's church united last evening in giving Mrs. William Stubbs a farewell reception. Mr. and Mrs. Stubbs will leave in a short time for England, where they will reside. The entertainment was in the form of a social, each member present expressing their regret upon the departure of one of the most willing and active workers in the church. The ladies of the society served refreshments, after which each one of the societies presented Mrs. Stubbs with a handsome remembrance, as a token of their high esteem for her. The gifts were a bible, a gold cross and a gold thimble. Rev. Edwin Weary made an address when the presentations were made. The event was a complete surprise to Mrs. Stubbs and a social success.

Wedded at Calcutta.

Rev. Mr. Clark, at the Calcutta U. P. parsonage yesterday, married Daniel Darby and Miss Goldie Crawford, two popular young people of this city.

FOUND THE PRISONER IN HIS WIFE'S LAP

Edward McLaughlin's Charge Against Virgil Zearley—The Case Dismissed.

Virgil Zearley, a railroader who was arrested in the West End early Wednesday evening, enarged with carrying concealed weapons, upon complaint of Edward McLaughlin, was brought before the mayor last evening at 7 o'clock. A number of witnesses were called in and were examined by the mayor. Zearley pleaded not guilty. McLaughlin was questioned on the matter. He said that when he came home early in the evening he found Zearley in the house and in his wife's lap. He said that he at once ordered Zearley out of the house and that when he left the yard he threatened McLaughlin and put his hand to his hip pocket as though about to pull a revolver. McLaughlin said that he saw the butt end of the weapon in his pocket and that for this reason he made complaint against him.

Several of McLaughlin's neighbors who witnessed the affair and who were called in as witnesses, admitted that they had seen Zearley put his hand to his hip pocket, but none of the witnesses admitted having seen the revolver. The mayor dismissed the case, after giving Zearley some good advice. The mayor told him to stay away from the McLaughlin home, as he had no business there.

FIRE PROTECTION IS DEMANDED

A Strongly Worded Petition to Council Urges Action in the Matter.

The Chester council will be presented with a petition this evening, the importance of which can scarcely be calculated. The News Review touched a popular chord when it took up the question of fire protection in Chester, and the outcome of that agitation has been an uprising among the citizens and property owners. There can be but one result, since the best and heaviest taxpayers in the entire community have taken the matter up. The council must take decisive action and that at once.

A petition was prepared a few days ago, and has been widely circulated. The heading reads as follows:

"To the Honorable Council of the Town of Chester:

"We, the undersigned citizens of the town of Chester, do petition you as follows:

"That our rapidly growing town is in sore need of fire protection, the rates for insurance having doubled during the past year, and have now reached a point that renders it almost impossible for the average wage earner to pay. In justice to your citizens and to perpetuate the present unprecedented growth of our thriving little town, we pray that your body at once take the necessary steps that will give to us adequate fire protection."

The document has upwards of 100 names upon it, and when it is placed before the council tonight there will be men on the ground amply able to put forth a good strong argument in favor of its provisions being made a law.

It will be remembered that the town of Chester had a liberal proposition from the water company many months ago. The acceptance of the terms of that contract was prevented by certain citizens who failed to realize its importance at the time. Now, it is said these very men are more anxious than anyone else to have the council act promptly in the matter of providing adequate fire protection for Chester.

GIFT TO SUPT. BROWN

St. Railway Employes' Testimonial to the Popular Bridge Official.

Supt. R. S. Brown, custodian of the East Liverpool bridge, will sever his connection with that institution today and a little surprise was planned for him by the employes of the East Liverpool & Rock Springs street railway.

In his duties as superintendent Mr. Brown has been intimately associated with the employes of the street railway, and no one regrets his departure more than they. As soon as it was learned that he intended to leave a movement was started to procure for him a small token of the high regard in which he was held.

A committee selected a heavy solid gold band ring, inscribed on the inside with the words: "East Liverpool & Rock Springs Street Railway Boys, 1903." Upon the outside the beautiful keepsake contained Mr. Brown's monogram, "R. S. B." The present was handed to the retiring superintendent without ceremony, the feeling of friendship and the deep regret at his departure being so strong that it would not permit of speechmaking.

The New Bank.

It is not yet certain when the new bank will be ready for business. Judge John A. Campbell, of New Cumberland, president of the company, has just made a trip to Pittsburg to purchase United States bonds which the bank must own and place in the proper depository of the government before beginning business.

An Answer is Filed.

An answer to the petition of Robert Pitcairn, of Pittsburg, for an injunction against the town of Chester, has been filed in the United States circuit court at Parkersburg. The case involves the ownership of First street in Chester.

CHESTER NOTES.

J. C. Lewis was in Pittsburg yesterday.

Sheriff C. F. Allison was in town yesterday, collecting taxes.

James Washer lost $130 Wednesday night at some unknown place.

Risinger Bros. today put up seven of the new gas street lamps ordered by the city. The entire town will be well lighted in a short time.

Rev. Mr. Wilson, of Mars, Pa., writes O. O. Allison that he is considering the call extended to become pastor of the new Presbyterian church.

The ladies of the U. P. church will give an oyster supper at Rock Springs park this evening. The ladies have made ample arrangements to serve the large number that will attend.

Dr. Charles H. Birkett, of East Liverpool, has brought suit before Justice Pugh against John Flannagan, of New Cumberland, for possession of real estate alleged to be unlawfully detained.

Negro Lynched in Texas.

Marshall, Tex., Oct. 2.—A mob of several men forced their way through the brick wall of the city jail with the aid of a telephone pole and with sledge hammers and crowbars took out Walter Davis, a negro, and marched him to the west side of town, where he was hanged to a tree. The lynching was the result of the killing of Constable Hayes while he was taking a negro to jail. Hayes was shot from ambush, being literally riddled with bullets. Shortly after killing the constable Walter Davis and two other negroes were arrested and lodged in jail at Marshall. A mob formed during the afternoon and attacked the jail. The Marshall musketeers were ordered out and arrived at the jail after the mob had secured the negro.

FOUND THE PRISONER IN HIS WIFE'S LAP

Edward McLaughlin's Charge Against Virgil Zearley—The Case Dismissed.

Virgil Zearley, a railroader who was arrested in the West End early Wednesday evening, charged with carrying concealed weapons, upon complaint of Edward McLaughlin, was brought before the mayor last evening at 7 o'clock. A number of witnesses were called in and were examined by the mayor. Zearley pleaded not guilty. McLaughlin was questioned on the matter. He said that when he came home early in the evening he found Zearley in the house and in his wife's lap. He said that he at once ordered Zearley out of the house and that when he left the yard he threatened McLaughlin and put his hand to his hip pocket as though about to pull a revolver. McLaughlin said that he saw the butt end of the weapon in his pocket and that for this reason he made complaint against him.

Several of McLaughlin's neighbors who witnessed the affair and who were called in as witnesses, admitted that they had seen Zearley put his hand to his hip pocket, but none of the witnesses admitted having seen the revolver. The mayor dismissed the case, after giving Zearley some good advice. The mayor told him to stay away from the McLaughlin home, as he had no business there.

The Cause of Many Sudden Deaths.

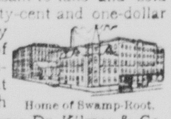

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co. Binghamton, N. Y. When writing mention reading this generous offer in this paper.

TRIFLING WITH YOUR HEALTH

Is like Playing with a loaded Gun. If you have Kidney Trouble attend to it at once.

It is easy to tell whether your Kidneys or bladder are diseased. Take a bottle or glass tumbler and fill it with urine. If there is a sediment—a powder-like substance—after standing a day and night, if it is pale or discolored, ropy or stringy, there is something wrong with the Kidneys. Other sure signs of disease are a desire to urinate often, pain in the back, or if your urine stains linen.

There is no question that Dr. David Kennedy's Favorite Remedy is the best and surest medicine in the world for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation, and the sicknesses peculiar to women. It quickly relieves and cures inability to hold urine and the necessity of getting up a number of times during the night, and puts an end to the scalding pain when passing urine.

The Rev. Henry P. Miller, pastor Baptist Church, Spartenburg, S. C., writes:

"For years I suffered with Kidney, liver and heart troubles, swimming in the head, dull headache and numbness of the limbs. Physicians prescribed for me and I took different medicines, but none of them did me any good. But Dr. David Kennedy's Favorite Remedy cured me in about two weeks."

It is for sale by all druggists in the ***Now 50 Cent Size*** and the regular $1.00 size bottles—less than a cent a dose.

Sample bottle—enough for trial, free by mail.

PITTSBURG'S VICTORY OVER BOSTON TEAM

A Splendid Game Opens the Championship Series, 16,000 in Attendance.

Pittsburg, October 2.—Pittsburg in the first game of the world's championship at the Huntington avenue grounds yesterday won by a score of 7 to 3, gaining the winning margin of four runs after two were out and no one on bases in the very first inning. The showing made by the Bostons, especially in the early innings, was a bitter disappointment to the host of admirers and "stage fright" seems to be the only reasonable explanation.

While Cy Young lacked his best speed, which is the chief merit of his pitching, the contest would never have assumed its one-sided character had not Ferris and Criger "fallen down" in some unaccountable manner. Ferris was manifestly nervous, but why Lou Criger should have become inoculated with the same disease is inexplicable. When you analyze the game, Pittsburg, with all its splendid hitting, was entitled to only two runs, but the same was true of Boston on half the hits. The crowd numbered 16,242.

There was considerable money bet on the Boston-Pittsburg series and also on the outcome of yesterday's game. In the forenoon there was brisk betting and no less than $10,000 was put up. The prevailing odds were 10 to 8.

John Newell, a well known Pittsburg hotel man, won $1,000 of John Keenan's money for which he jeopardized $800.

OAKLANDS WILL MEET SEBRING'S FAST TEAM

First Foot Ball Game of the Season at Columbian Park to Take Place Tomorrow.

Foot ball enthusiasts of the East End will have the opportunity of witnessing the first game of the season next Saturday on the Columbian park gridiron. The fast team from Sebring has been booked by Manager Weaver for that day and a fine game is expected. Last year the Oaklands with a patched up team went to Sebring and were defeated by a score of 10 to 0. The Oaklands are confident of reversing this score in the game tomorrow.

Saturday is an excellent day for a foot ball contest and the East End enthusiasts will turn out en masse to see their favorites at work. The kick off will take place promptly at 4 o'clock.

While the Oaklands will have a great deal the same eleven as in the game against the Rovers, they will miss big Bitner, who has gone to Akron to play with a professional team. He is a fast player and added a tower of strength to the line. The Oaklands missed "Ducky" Myler in that game with the Rovers and it is very likely that he will go in at quarter for them tomorrow. Mountford, the high school boy, will be at left half again.

Sebring has one of the strongest teams in the state and recently defeated Alliance 22 to 0.

The Oakland lineup will be: Price or Johnson, center; Flesch, right guard; Sanford, right tackle; Weikert, right end; Goddard, left tackle; Miles, left end; Gray, left guard; Angle or Hendricks, right half; Mountford, left half; Orr, full back and Myler or Little, quarter back.

Second High School Team Won.

The Second High school team won an unexpected game yesterday afternoon from the East End Tigers, in the gridiron contest at the East End school grounds. The school boys were up against a much heavier team but they managed to win by a score of 2 to 0. The only score of the game, a touch back, was secured by them. They punted the ball from the field to the Tigers' goal line and the Tiger Dwyer who caught the ball, was promptly downed. The High school boys are righly pleased at their victory owing to the fact that nearly all the Tigers' players were full grown men.

The lineups were:

High School.	Positions.	Tigers.
Ball	Left end	Petts
Barlow	Left tackle	Kane
Frost	Left guard	R. Wilson
Thompson	Center	B. Fetty
Wilson	Right guard	Carroll
Croft	Right tackle	L. Price
Miller	Right end	H. Mills
Cripps	Quarterback	C. Price
Smith	Left half	Schrowder
Gipner	Right half	Green
Wynn	Fullback	Terrence
Wells, Ritchey	Sub.	T. Wilson

Threw the Games.

William Phyle, captain of the Memphis base ball team, which won the Southern league pennant by the narrow margin of two points from Little Rock, managed by Mike Finn, is authority for the statement that Memphis was enabled to win by bribing opposing players in at least six of the games played. His statement caused a sensation in all Southern league cities where there has already been much talk and counter-charges of "laying down" in the closest pennant struggle that was ever witnessed in the south.

SPORTING MISCELLANY.

The Mt. Union college football team has elected Emory Powell for this season's captain.

Dr. C. F. Schiltz, formerly one of O. M. U.'s star players, has consented to coach the Canton football team during the rest of the season.

Mike Donovan, of Rochester, N. Y., is open to meet Jack Sullivan, Joe Walcott, George Cole or any of the 150 pound men who are looking for an opponent.

Mr. Billings is out with a statement that he will enter Lou Dillon for the Memphis gold cup if Smathers enters Major Delmar. There is very likely to be some great racing that day.

Jack Lowery, the featherweight, is out with a defi to all of the 126 pound men. Tommy Daly or Kid Goodman can have another crack at him or he will take on Jack Dorman in private.

Novelty Iron Works at Canton Suffer $15,000 to $20,000 Damage By Fire.

Canton, October 2.—The plant of the Novelty Iron works was damaged by fire last night to the extent of between $15,000 and $20,000. The frame portion of the structure, about 5,000x250 feet, was gutted, destroying the pattern making, the setting-up room, coke sheds and the scratch room.

The machine department was damaged by water and the roof was badly damaged over the foundry and testing department. The patterns in the brick vaults were saved and work will probably not be entirely suspended. The loss is pretty well covered by insurance. A spark from a passing locomotive is supposed to have started the fire.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co. Binghamton, N. Y. TRIFLING WITH YOUR HEALTH

Is like Playing with a loaded Gun. If you have Kidney Trouble attend to it at once.

It is easy to tell whether your Kidneys or bladder are diseased. Take a bottle or glass tumbler and fill it with urine. If there is a sediment—a powder-like substance—after standing a day and night, if it is pale or discolored, ropy or stringy, there is something wrong with the Kidneys. Other sure signs of disease are a desire to urinate often, pain in the back, or if your urine stains linen.

There is no question that Dr. David Kennedy's Favorite Remedy is the best and surest medicine in the world for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation, and the sicknesses peculiar to women. It quickly relieves and cures inability to hold urine and the necessity of getting up a number of times during the night, and puts an end to the scalding pain when passing urine.

The Rev. Henry P. Miller, pastor Baptist Church, Spartenburg, S. C., writes:

"For years I suffered with Kidney, liver and heart troubles, swimming in the head, dull headache and numbness of the limbs. Physicians prescribed for me and I took different medicines, but none of them did me any good. But Dr. David Kennedy's Favorite Remedy cured me in about two weeks."

It is for sale by all druggists in the ***New 50 Cent Size*** and the regular $1.00 size bottles—less than a cent a dose.

LOCOMOTIVE SPARK STARTS A BIG BLAZE

Novelty Iron Works at Canton Suffer $15,000 to $20,000 Damage By Fire.

Canton, October 2.—The plant of the Novelty Iron works was damaged by fire last night to the extent of between $15,000 and $20,000. The frame portion of the structure, about 5,000x250 feet, was gutted, destroying the pattern making, the setting-up room, coke sheds and the scratch room.

The machine department was damaged by water and the roof was badly damaged over the foundry and testing department. The patterns in the brick vaults were saved and work will probably not be entirely suspended. The loss is pretty well covered by insurance. A spark from a passing locomotive is supposed to have started the fire.

Press Rate Over Alaska Cable.

Tacoma, Oct. 2.—A. W. Greeley, chief of the signal corps, announces that the press rate over the Alaskan cable will be 6 cents a word between Skagway and Tacoma. It was expected by the papers at Juneau and Skagway that the rate would be much lower and an effort will be made to secure a reduction.

New Kind of Life Insurance.

For twenty five cents you can insure yourself and family against any serious results from an attack of bowel complaint during the summer months. That is the price of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, a medicine that can always be depended upon even in the most severe and dangerous cases. It is equally valuable for children and adults. When reduced with water and sweetened it is pleasant to take. This remedy has relieved more pain and suffering and saved the lives of more people than any other medicine in the world. It is almost sure to be needed before the summer is over. Buy it now. For sale by Alvin H. Bulger.

Killed While Duck Hunting.

Ogden, Utah, Oct. 2.—Daniel H. Ogden, a prominent business man of this city, was shot and killed while duck hunting four miles west of Ogden. The wound was inflicted by a stray shot, the one firing it being unknown.

DANGEROUS WORK IN THE BIG CITIES

Many Persons Engaged in Occupations That Imperil Their Lives Daily.

PROFESSIONAL CLIMBERS

And Others Who Have Duties to Perform on Tall Buildings And Some of the Risks They Run—Cool Heads Required for the Work.

Pittsburg, October 2.—That death constantly stares one in the face, is a thought that seldom troubles the mind of the average human being, but if the person who passes daily through the crowded streets of Pittsburg or any other large and busy city were able to realize the number of hairbreadth escapes daily encountered, he would be amazed.

The steeple climber and professional lofter who works on the tall building, is one whose life is constantly in jeopardy, and yet the number of accidents to such persons is small in comparison with the risk undertaken. The janitor whose duty is to clean the windows of a tall structure, is equipped with a device to render his position safe when it becomes necessary for him to step upon a lofty window ledge, and wash the panes hundreds of feet above the scurrying crowds. He is provided with a strong belt from which dangles a chain that snaps into rings at the sides of the windows, and this outfit makes it practically impossible for him to fall. Some janitors, however, seem more at home at these dizzy heights than when they are upon terra firma, and they ignore the precaution referred to.

Windows in many of the down town buildings are cleaned by women, and some of these are as much at home as the men, when standing upon a narrow sill far above the bustling street. Almost daily, two women janitors can be seen washing the upper windows of a business house in Fifth avenue near Smithfield street. They use no belts or chains and clamber about from sill to sill, without the slightest indications of light-headedness.

Within half an hour, upwards of a hundred narrow escapes are apt to occur in the construction of a skyscraper, and many of these are seen by the scores of pedestrians who "rubber" at the work on these lofty edifices. For instance, only a day or so ago, hundreds of persons saw a nervy piece of risk performed by a laborer on the Bessemer building, now being completed at Sixth street and Duquesne way. Something became wrong at the end of a protruding scaffold, more than 100 feet above the sidewalk. A long piece of timber was shoved out until the end came close to the point that required adjusting. Upon this beam a man crawled, but ere he had passed far, the timber began to tilt. Coolly drawing himself back as a boy would do upon a see-saw board, the laborer reversed the equilibrium and the big beam settled back in its place. The man remained upon his perilous perch and called to a companion to place his weight upon the base of the beam. When the fellow workman complied with the request, the man crept nearly to the end of the pole, but the weight of the other man proved insufficient and for a second time the timber started as though about to fall. The climber once more drew his body back about a foot and with a bump that might have thrown one or both of the men from their places, the big beam again settled back, and another laborer was induced to act as a bottom weight. This proved satisfactory, and the man climbed to the end, and with a display of nerve that nearly paralyzed the crowd, he slowly adjusted a chain and then returned to his other work as though nothing had happened.

John Potter, foreman of the stone masons engaged upon the Bessemer structure, can be seen a dozen times a day, riding to the top of the high structure building, perched upon one of the stones to be used in completing the masonry. His thrilling feat is always watched with wonder by crowds of passers by and frequently there are those who turn away in horror, fearing the man will fall to his death. The stones are drawn to the summit by means of rope and derrick, and when Potter desires to go aloft he steps upon one of these stones, holds the chain with one hand and rides skyward. By the time he is at his destination where he is swung in by the derrick, he appears almost like a speck. When Potter is ready to descend, he seizes the dangling chain, steps into the empty hook and is lowered by machinery to the earth below.

Mrs. Williams

Always Felt Tired

1329 Hawthorne Avenue, Minneapolis, Minn., August 26, 1903.

Mrs. Procter Williams says: "*My greatest trouble seemed to be a general weakness and all-over-tired feeling. I did not expect to be ever strong again. I was in a pitiful state when my husband, who had been benefited by the use of Paine's Celery Compound, urged me to try it. At once after I began taking the remedy my headaches disappeared. My nerves became strong. I consider my cure a miracle, for I had tried a great many doctors and different remedies, and spent hundreds of dollars in vain.*"

VERY LITTLE DONE BY THE SAFETY BOARD

Helmets Wanted for the Firemen And a Supply May Be Ordered.

The board of public safety consumed considerable time last evening in doing nothing. At least an hour was spent in caucus before President Grafton called the members to order and then nearly that much time was lost in talking over matters. The entire complement, excepting Ogilvie, was present.

Mr. Taylor reported that he had been investigating the needs of the firemen and had discovered that the board should by all means buy helmets for them. He said they were used in every up-to-date city and cited many reasons why the local firemen can not do without them. They can be bought for $3.50 each, and it is likely a purchase will be ordered, a committee being appointed to act as it thinks best.

Another attempt is to be made for the purpose of securing permanent quarters for the board. It has been meeting anywhere that room could be had, and council will now be asked to furnish a room for the use of the board. The board is willing to occupy a room on the third floor of the city hall and council will be asked to fit it up.

A large number of bills were read by Clerk Huntsman and the majority of them were ordered paid.

SPEEDY SALE OF BONDS IS EARNESTLY DEMANDED

Council Must Pass an Appropriation Ordinance Before Money Can Be Paid Out.

The employes of the city are doomed to suffer another prolonged wait for their salaries. Tomorrow is the regular pay day, but there is not any money which the treasurer and auditor can use for the payment of the bills and as a result the employes will be compelled to wait at least 10 days. At the adjourned meeting of council tonight that body can arrange for the payment of the bills within 10 days if they so desire, and it is thought probable they will do so.

As was well explained by Special Examiner MacKenzie, when he was on his official visit to the city, it is now necessary for council to pass an appropriation ordinance before any money can be paid out and that is what the body must do now or the employes will suffer. Auditor Davidson states that there is about $8,000 in the treasury at the present time. That amount will cover all expenses incurred up to date, but it will be necessary to appropriate every penny of it. After it is gone is when the hardest blow will be dealt. The only recourse upon which the councilmen can fall is to make a speedy sale of the bonds, and from all appearances they will meet with further difficulty in carrying out that plan.

Though it is not known what council will do this evening relative to a final disposal of the bonds it is thought a strenuous effort will be made to get them off the city's hands. Having several offers, none of them tempting, however, the body is not entirely tied up, and realizing the conditions it is assured everything within their power will be done by the city fathers.

THE CURFEW BELL NOW RINGS AT 9

Mistaken For An Alarm of Fire—One Lad Taken to the City Jail.

The curfew bell rang last night at 9 o'clock, an hour earlier than has been customary since Mayor Weaver inaugurated the adherence to the ordinance. When the rather doleful sounds of the bell pealed forth on the night air persons in all parts of the city were seen to stop suddenly, all thinking it an alarm of fire. According to the ordinance the curfew must ring at 9 o'clock every evening between the dates of October 1 and April 1.

Wayor Weaver announced this morning that he intends to see that this ordinance is rigidly enforced, more so than it was ever before. He believes that it will be productive of much good and has ordered Chief Wyman to instruct the police to keep a strict watch for all violators.

In anticipation of the mayor's wishes, Officer Dawson started the ball rolling last evening when he arrested William Munday, a lad of 14 years. The youngster was warned several times by the officer to seek his home and instead of heeding the officer's command he became very abusive and defied the officer to send him home. It was not the wish of Officer Dawson to do the boy an injustice, but he did not think it was his duty to permit him so openly to disobey the law, and took him to jail. The mayor assessed a small fine and allowed the boy to go after a severe reprimand. It is hoped by the mayor that the case will be an example to other boys.

Record Breaking Auto Trip.

New York, Oct. 2.—Bert Holcomb and Henry Sendall finished a record-breaking automobile trip from Chicago to New York, the machine making the trip in 76 hours. The automobile, a 24-horse power machine, had been delayed several hours on account of losing the road. The car covered 1,177 miles, an average of 15½ miles per hour. It was driven by relays of chauffeurs.

Troops Lost in Snowstorm.

Albertville, France, Oct. 2.—While the Twenty-second Alpine battalion was engaged in maneuvers near Selongey the troops were lost for a time in a heavy snowstorm while approaching the edge of a precipice. Captain Alzien, who was in command, fell over the precipice and was killed. There were no other casualties.

TWO YEAR SCALE PLEASES TRENTON

Manufacturers Believe It Will Have a Good Effect Upon Trade.

CONDITIONS ARE BETTER

Child Labor Being Eliminated From New Jersey Potteries—Staple Lines Picking Up and Specialties in Demand.

From a Staff Correspondent.

Trenton, N. J., October 2.—Although the result of the referendum vote on the proposition of the Brotherhood of Operative Potters signing a two year agreement with the manufacturers, regulating prices in both the sanitary and general ware lines, has been forwarded to the headquarters of the Brotherhood, there appears to be a growing satisfaction among the potters of this city in favor of the move.

Both the manufacturers and the men appear anxious to prevent another occurrence similar to that which took place in the west over the increase in the uniform scale and which kept the trade in a state of uneasiness until a preliminary settlement was reached about two weeks ago in Philadelphia.

Aside from the sanitary plants, the general ware shops here will be but little affected by any change that may be brought about by the Brotherhood in the way of an increase in wages, unless they decide in the meantime to adopt the uniform price list. The feeling that prevails among the manufacturers in regard to the two year proposition is that a two year agreement will tend to steady the trade and improve both the condition of employer and employe.

Since the possibilities of a strike have been eliminated and the settlement of the difficulty at the International pottery, it has had the effect of greatly improving the condition of the local trade. All the staple lines during the past week have enjoyed liberal patronage and there has been a brisk demand for specialties. The potteries that include jardinieres in their production report an exceptionally good business, considerably in advance of last year. Trenton potteries with hotel china, last year experienced one of the largest trades in their history, but judging from the orders which are now being sent in by the men on the road, the trade in this line of goods will likely surpass the orders for 1902. The large department stores and houses handling fancy crockery are among the heaviest buyers. Most of the orders call for shipment in time for the holiday trade.

The condition of the labor arm of the trade seems to be particularly satisfactory since Deputy Factory Inspector Milburn succeeded in ridding many of the potteries of the curse of child labor. About a month ago, or as soon as the new child labor law went into effect, Mr. Milburn started to make an inspection of the potteries and succeeded in causing the discharge of many young boys who were employed as mould runners and in the other small jobs which require but little previous training. Mr. Milburn in about a week or so will go to South Jersey and there will make a similar crusade.

Howard B. Moses has been connected with the Glasgow pottery for 21 years. Last week he celebrated the event by passing cigars around among the employes and ice cream to the girls. In the midst of the festivities he was called down into the decorating department and there in the presence of all the employes he was presented with a gold head handled umbrella and two bouquets of roses.

SILVER TONGUED CAMPAIGN ORATORS

This County Has a Long List of Those Who Are Ready to Speak for Republicanism.

Columbus, October 2.—(Special.)—The Republican state executive committee has issued a list of speakers in the various counties reported as available and to whom invitations have been extended to take part in the coming campaign this fall. Columbiana county presents a formidable array of speakers who are included in the list, as follows:

BELL 'PHONE LINES

Being Extended at a Rapid Rate in Lisbon—Both Systems in Use.

Lisbon, October 2.—(Special.)—The reconstruction of the Bell Telephone company's lines in Lisbon to accommodate new patrons was commenced yesterday afternoon. A gang of workmen came here from the southern part of the county, together with several wagon loads of poles from East Liverpool and Wellsville. The work of preparing the local system to handle its increased patronage will be pushed vigorously.

There seems to be no longer any doubt that nearly all the business people of Lisbon who have signed contracts for the Bell 'phone will be compelled to use both 'phones.

Dieting Invites Disease.

To cure dyspepsia or indigestion it is no longer necessary to live on milk and toast. Starvation produces such weakness that the whole system becomes an easy prey to disease. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that one cares to eat, and is a never failing cure for indigestion, dyspepsia and all stomach troubles. Kodol digests what you eat—makes the stomach sweet. Sold by A. H. Bulger.

Managing Editor Dead.

Winona, Minn., Oct. 2.—Fred N. Van Duzee, managing editor of the Evening Republican and Herald, is dead, aged 36. Mr. Van Duzee for several years acted as Washington correspondent for Twin City newspapers. He was at one time private secretary to Congressman J. A. Tawney.

Shot Wife in Drunken Frenzy.

DISCUSSED TARIFF QUESTION.

Premier Balfour Does Not Mention Cabinet Possibilities.

London, Oct. 2.—Addressing a mass meeting at Sheffield in connection with the conference of the National Conservative association, Premier Balfour delivered the speech which has been long heralded as the first heavy gun to be fired in the fiscal reform campaign which is absorbing the attention of the united kingdom, her colonies, and indeed the whole world and which has caused the present British cabinet crisis, the result of which it is impossible to foretell.

Mr. Balfour, in the course of his speech, did not even hint at the successors in the cabinet to Mr. Chamberlain, Lord George Hamilton and Mr. Ritchie. In fact, he did not mention the ministerial resignations, ignoring altogether that phase of the situation on which it was expected he would make some declaration. The premier confined himself strictly to the tariff question and his speech was to a large extent a repetition of the arguments contained in his secret pamphlet.

Rheumatism

"THE PAIN KING."

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy.

LET DOWN TO PRAY

Lynchers at Oxford Foiled by Gallant Dash of Deputy Sheriff.

PRISONER SPIRITED OUT OF TOWN

Battle on Streets During Fair Results in Fatal Wounding of Two Men. Village Marshal and Deputy Injured Attempting to Make Arrests.

Oxford, O., Oct. 2.—A mob broke open the jail and took Joseph Spivey to an elm tree one square away, on which Henry Corbin was lynched in 1892. Spivey was strung up and let down to pray. A second time he was strung up and let down, and while he was pleading for time to write to his wife Deputy Sheriff Brennan and a few assistants rushed forward, cut the rope and dashed down the street with the prisoner. He was rushed to the jail and has been spirited out of town. John Spivey, his brother, is dying with a bullet through his head. E. V. Jetter, of Monroe, O., was also fatally wounded by the Spiveys.

Were Looking for Trouble.

The trouble arose out of a disturbance created by John Spivey and Joseph Spivey, who came over from Kentucky with some friends and began shooting on the streets of Oxford during the progress of a fair. The village marshal and his deputy attempted to arrest them, and were both wounded. The crowd then pursued the Spivey brothers with shotguns. The men were overtaken after Joseph had been shot in the right side and John knocked unconscious with a stone. A stranger who refused to give his name was shot in the abdomen.

The wound of Deputy Marshal Manrod, who was shot in making the arrests, is regarded as fatal. The marshal will recover.

The Spivey brothers were intoxicated and had been creating a disturbance all the afternoon.

It was Luke Brannon, the brave deputy sheriff of Butler county, who had been sent to Oxford by Sheriff Bisdorf, that landed Spivey in jail and held him there.

Held Mob at Bay.

He had sworn in as assistants ex-Mayor Peter Flannagan and Horace Cormier, and the three held the mob at bay with double six-shooters after they landed their prisoner in jail. The mob followed them and clamored for the prisoner. Then followed speeches by ex-Mayor Flannagan, Rev. Dr. Thomas J. Potter, of the Presbyterian church, and others, notably that of the brother of Marshal Woodruff, and all was over, as the deputy sheriff, Luke Brannon, had not been idle during the speaking.

Took Prisoner Out Through Cellar.

When he entered the town jail he conducted his prisoner to the cellar and crawled out of a coal chute and crossed the back lots until he got to the Miami university campus. Trusted lieutenants meanwhile in the persons of Horace Cormier and Mr. Nagle secured the other brother, Louis Spivey, and spirited him out through the coal chute. The party took two hacks and drove rapidly to Hamilton, a distance of 20 miles, where they arrived after midnight, and securely lodged their prisoners in the Butler county jail. The mob finally found they had been beaten and quietly dispersed.

Windows in many of the down town buildings are cleaned by women, and some of these are as much at home as the men, when standing upon a narrow sill far above the bustling street. Almost daily, two women janitors can be seen washing the upper windows of a business house in Fifth avenue near Smithfield street. They use no belts or chains and clamber about from sill to sill, without the slightest indications of light-headedness.

Within half an hour, upwards of a hundred narrow escapes are apt to occur in the construction of a skyscraper, and many of these are seen by the scores of pedestrians who "rubber" at the work on these lofty edifices. For instance, only a day or so ago, hundreds of persons saw a nervy piece of risk performed by a laborer on the Bessemer building, now being completed at Sixth street and Duquesne way. Something became wrong at the end of a protruding scaffold, more than 100 feet above the sidewalk. A long piece of timber was shoved out until the end came close to the point that required adjusting. Upon this beam a man crawled, but ere he had passed far, the timber began to tilt. Coolly drawing himself back as a boy would go upon a see-saw board, the laborer reversed the equilibrium and the big beam settled back in its place. The man remained upon his perilous perch and called to a companion to place his weight upon the base of the beam. When the fellow workman complied with the request, the man crept nearly to the end of the pole, but the weight of the other man proved insufficient and for a second time the timber started as though about to fall. The climber once more drew his body back about a foot and with a bump that might have thrown one or both of the men from their places, the big beam again settled back, and another laborer was induced to act as a bottom weight. This proved satisfactory, and the man climbed to the end, and with a display of nerve that nearly paralyzed the crowd, he slowly adjusted a chain and then returned to his other work as though nothing had happened.

John Potter, foreman of the stone masons engaged upon the Bessemer structure, can be seen a dozen times a day, riding to the top of the high structure building, perched upon one of the stones to be used in completing the masonry. His thrilling feat is always watched with wonder by crowds of passers by and frequently there are those who turn away in horror, fearing the man will fall to his death. The stones are drawn to the summit by means of rope and derrick, and when Potter desires to go aloft he steps upon one of these stones, holds the chain with one hand and rides skyward. By the time he is at his destination where he is swung in by the derrick, he appears almost like a speck. When Potter is ready to descend, he seizes the dangling chain, steps into the empty hook and is lowered by machinery to the earth below.

GROWING LENGTHWISE

You want the children to grow, but not all lengthwise. When they start that way Scott's Emulsion will help them to grow right—with due plumpness and outward proportion, and with inward vigor and good spirits.

The Emulsion increases digestive power and strengthens the vital organs to get the best and make the most out of all the other food. It gives a kind of help that every growing child ought to have.

Mrs. Williams

Always Felt Tired

1329 Hawthorne Avenue, Minneapolis, Minn., August 26, 1903.

Mrs. Procter Williams says: "*My greatest trouble seemed to be a general weakness and all-over-tired feeling. I did not expect to be ever strong again. I was in a pitiful state when my husband, who had been benefited by the use of Paine's Celery Compound, urged me to try it. At once after I began taking the remedy my headaches disappeared. My nerves became strong. I consider my cure a miracle, for I had tried a great many doctors and different remedies, and spent hundreds of dollars in vain.*"

VERY LITTLE DONE BY THE SAFETY BOARD

Helmets Wanted for the Firemen And a Supply May Be Ordered.

The board of public safety consumed considerable time last evening in doing nothing. At least an hour was spent in caucus before President Grafton called the members to order and then nearly that much time was lost in talking over matters. The entire complement, excepting Ogilvie, was present.

Mr. Taylor reported that he had been investigating the needs of the firemen and had discovered that the board should by all means buy helmets for them. He said they were used in every up-to-date city and cited many reasons why the local firemen can not do without them. They can be bought for $3.50 each, and it is likely a purchase will be ordered, a committee being appointed to act as it thinks best.

Another attempt is to be made for the purpose of securing permanent quarters for the board. It has been meeting anywhere that room could be had, and council will now be asked to furnish a room for the use of the board. The board is willing to occupy a room on the third floor of the city hall and council will be asked to fit it up.

A large number of bills were read by Clerk Huntsman and the majority of them were ordered paid.

SPEEDY SALE OF BONDS IS EARNESTLY DEMANDED

Council Must Pass an Appropriation Ordinance Before Money Can Be Paid Out.

The employes of the city are doomed to suffer another prolonged wait for their salaries. Tomorrow is the regular pay day, but there is not any money which the treasurer and auditor can use for the payment of the bills and as a result the employes will be compelled to wait at least 10 days. At the adjourned meeting of council tonight that body can arrange for the payment of the bills within 10 days if they so desire, and it is thought probable they will do so.

As was well explained by Special Examiner MacKenzie, when he was on his official visit to the city, it is now necessary for council to pass an appropriation ordinance before any money can be paid out and that is what the body must do now or the employes will suffer. Auditor Davidson states that there is about $8,000 in the treasury at the present time. That amount will cover all expenses incurred up to date, but it will be necessary to appropriate every penny of it. After it is gone is when the hardest blow will be dealt. The only recourse upon which the councilmen can fall is to make a speedy sale of the bonds, and from all appearances they will meet with further difficulty in carrying out that plan.

Though it is not known what council will do this evening relative to a final disposal of the bonds it is thought a strenuous effort will be made to get them off the city's hands. Having several offers, none of them tempting, however, the body is not entirely tied up, and realizing the conditions it is assured everything within their power will be done by the city fathers.

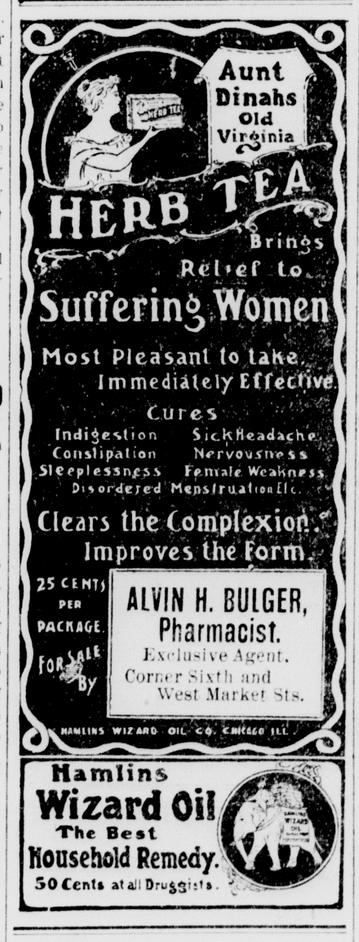

THE CURFEW BELL NOW RINGS AT 9

Mistaken For An Alarm of Fire—One Lad Taken to the City Jail.

The curfew bell rang last night at 9 o'clock, an hour earlier than has been customary since Mayor Weaver inaugurated the adherence to the ordinance. When the rather doleful sounds of the bell pealed forth on the night air persons in all parts of the city were seen to stop suddenly, all thinking it an alarm of fire. According to the ordinance the curfew must ring at 9 o'clock every evening between the dates of October 1 and April 1.

Wayor Weaver announced this morning that he intends to see that this ordinance is rigidly enforced, more so than it was ever before. He believes that it will be productive of much good and has ordered Chief Wyman to instruct the police to keep a strict watch for all violators.

In anticipation of the mayor's wishes, Officer Dawson started the ball rolling last evening when he arrested William Munday, a lad of 14 years. The youngster was warned several times by the officer to seek his home and instead of heeding the officer's command he became very abusive and defied the officer to send him home. It was not the wish of Officer Dawson to do the boy an injustice, but he did not think it was his duty to permit him so openly to disobey the law, and took him to jail. The mayor assessed a small fine and allowed the boy to go after a severe reprimand. It is hoped by the mayor that the case will be an example to other boys.

Record Breaking Auto Trip.

New York, Oct. 2.—Bert Holcomb and Henry Sendall finished a record breaking automobile trip from Chicago to New York, the machine making the trip in 76 hours. The automobile, a 24-horse power machine, had been delayed several hours on account of losing the road. The car covered 1,177 miles, an average of 15½ miles per hour. It was driven by relays of chauffeurs.

Troops Lost in Snowstorm.

Albertville, France, Oct. 2.—While the Twenty-second Alpine battalion was engaged in maneuvers near Selongey the troops were lost for a time in a heavy snowstorm while approaching the edge of a precipice. Captain Alzieu, who was in command, fell over the precipice and was killed. There were no other casualties.

TWO YEAR SCALE PLEASES TRENTON

Manufacturers Believe It Will Have a Good Effect Upon Trade.

CONDITIONS ARE BETTER

Child Labor Being Eliminated From New Jersey Potteries—Staple Lines Picking Up and Specialties in Demand.

From a Staff Correspondent.

Trenton, N. J., October 2.—Although the result of the referendum vote on the proposition of the Brotherhood of Operative Potters signing a two year agreement with the manufacturers, regulating prices in both the sanitary and general ware lines, has been forwarded to the headquarters of the Brotherhood, there appears to be a growing satisfaction among the potters of this city in favor of the move.

Both the manufacturers and the men appear anxious to prevent another occurrence similar to that which took place in the west over the increase in the uniform scale and which kept the trade in a state of uneasiness until a preliminary settlement was reached about two weeks ago in Philadelphia.

Aside from the sanitary plants, the general ware shops here will be but little affected by any change that may be brought about by the Brotherhood in the way of an increase in wages, unless they decide in the meantime to adopt the uniform price list. The feeling that prevails among the manufacturers in regard to the two year proposition is that a two year agreement will tend to steady the trade and improve both the condition of employer and employe.

Since the possibilities of a strike have been eliminated and the settlement of the difficulty at the International pottery, it has had the effect of greatly improving the condition of the local trade. All the staple lines during the past week have enjoyed liberal patronage and there has been a brisk demand for specialties. The potteries that include jardinieres in their production report an exceptionally good business, considerably in advance of last year. Trenton potteries with hotel china, last year experienced one of the largest trades in their history, but judging from the orders which are now being sent in by the men on the road, the trade in this line of goods will likely surpass the orders for 1902. The large department stores and houses handling fancy crockery are among the heaviest buyers. Most of the orders call for shipment in time for the holiday trade.

The condition of the labor arm of the trade seems to be particularly satisfactory since Deputy Factory Inspector Milburn succeeded in ridding many of the potteries of the curse of child labor. About a month ago, or as soon as the new child labor law went into effect, Mr. Milburn started to make an inspection of the potteries and succeeded in causing the discharge of many young boys who were employed as mould runners and in the other small jobs which require but little previous training. Mr. Milburn in about a week or so will go to South Jersey and there will make a similar crusade.

Howard B. Moses has been connected with the Glasgow pottery for 21 years. Last week he celebrated the event by passing cigars around among the employes and ice cream to the girls. In the midst of the festivities he was called down into the decorating department and there in the presence of all the employes he was presented with a gold head handled umbrella and two bouquets of roses.

BELL 'PHONE LINES

Being Extended at a Rapid Rate in Lisbon—Both Systems in Use.

Lisbon, October 2.—(Special.)—The reconstruction of the Bell Telephone company's lines in Lisbon to accommodate new patrons was commenced yesterday afternoon. A gang of workmen came here from the southern part of the county, together with several wagon loads of poles from East Liverpool and Wellsville. The work of preparing the local system to handle its increased patronage will be pushed vigorously.

There seems to be no longer any doubt that nearly all the business people of Lisbon who have signed contracts for the Bell 'phone will be compelled to use both 'phones.

Dieting Invites Disease.

To cure dyspepsia or indigestion it is no longer necessary to live on milk and toast. Starvation produces such weakness that the whole system becomes an easy prey to disease. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that one cares to eat, and is a never failing cure for indigestion, dyspepsia and all stomach troubles. Kodol digests what you eat—makes the stomach sweet. Sold by A. H. Bulger.

DISCUSSED TARIFF QUESTION.

Premier Balfour Does Not Mention Cabinet Possibilities.

London, Oct. 2.—Addressing a mass meeting at Sheffield in connection with the conference of the National Conservative association, Premier Balfour delivered the speech which has been long heralded as the first heavy gun to be fired in the fiscal reform campaign which is absorbing the attention of the united kingdom, her colonies, and indeed the whole world, and which has caused the present British cabinet crisis, the result of which it is impossible to foretell.

Mr. Balfour, in the course of his speech, did not even hint at the successors in the cabinet to Mr. Chamberlain, Lord George Hamilton and Mr. Ritchie. In fact, he did not mention the ministerial resignations, ignoring altogether that phase of the situation on which it was expected he would make some declaration. The premier confined himself strictly to the tariff question and his speech was to a large extent a repetition of the arguments contained in his secret pamphlet.

Rheumatism

"THE PAIN KING."

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is

SSS

safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy.

If you have Rheumatism, write us, and our physicians will furnish without charge any information desired, and we will mail free our book on Rheumatism.

LET DOWN TO PRAY

Lynchers at Oxford Foiled by Gallant Dash of Deputy Sheriff.

PRISONER SPIRITED OUT OF TOWN

Battle on Streets During Fair Results in Fatal Wounding of Two Men. Village Marshal and Deputy Injured Attempting to Make Arrests.

Oxford, O., Oct. 2.—A mob broke open the jail and took Joseph Spivey to an elm tree one square away, on which Henry Corbin was lynched in 1892. Spivey was strung up and let down to pray. A second time he was strung up and let down, and while he was pleading for time to write to his wife Deputy Sheriff Brennan and a few assistants rushed forward, cut the rope and dashed down the street with the prisoner. He was rushed to the jail and has been spirited out of town. John Spivey, his brother, is dying with a bullet through his head. E. V. Jetter, of Monroe, O., was also fatally wounded by the Spiveys.

Were Looking for Trouble.

The trouble arose out of a disturbance created by John Spivey and Joseph Spivey, who came over from Kentucky with some friends and began shooting on the streets of Oxford during the progress of a fair. The village marshal and his deputy attempted to arrest them, and were both wounded. The crowd then pursued the Spivey brothers with shotguns. The men were overtaken after Joseph had been shot in the right side and John knocked unconscious with a stone. A stranger who refused to give his name was shot in the abdomen.

The wound of Deputy Marshal Manrod, who was shot in making the arrests, is regarded as fatal. The marshal will recover.

The Spivey brothers were intoxicated and had been creating a disturbance all the afternoon.

It was Luke Brannon, the brave deputy sheriff of Butler county, who had been sent to Oxford by Sheriff Bisdorf, that landed Spivey in jail and held him there.

Held Mob at Bay.

He had sworn in as assistants ex-Mayor Peter Flannagan and Horace Cormier, and the three held the mob at bay with double six-shooters after they landed their prisoner in jail. The mob followed them and clamored for the prisoner. Then followed speeches by ex-Mayor Flannagan, Rev. Dr. Thomas J. Potter, of the Presbyterian church, and others, notably that of the brother of Marshal Woodruff, and all was over, as the deputy sheriff, Luke Brannon, had not been idle during the speaking.

Took Prisoner Out Through Cellar.

When he entered the town jail he conducted his prisoner to the cellar and crawled out of a coal chute and crossed the back lots until he got to the Miami university campus. Trusted lieutenants meanwhile in the persons of Horace Cormier and Mr. Nagle secured the other brother, Louis Spivey, and spirited him out through the coal chute. The party took two hacks and drove rapidly to Hamilton, a distance of 20 miles, where they arrived after midnight, and securely lodged their prisoners in the Butler county jail. The mob finally found they had been beaten and quietly dispersed.

ABOUT BOY'S CLOTHES

For the school boy it's the clothes that wear most people are after, but to good materials must be added good workmanship, if good wear is to be accomplished. There is an art in making boy's clothing—an art which is not understood in the sweat shops. Only about a dozen boys' clothing manufacturers in the whole United States with capital enough and spunk enough and enterprise enough to employ skilled labor and these are the makers that supply the Erlanger stock. It is not how cheap, but how good that influences our buying and selling boys' clothing. The great growth of business in this department indicates that the mass of people appreciate that the best is the cheapest in the end. Our boys' clothing would be the highest priced in town, if we did not cut our profits.

SPIVEY BROTHERS IN DANGEROUS CONDITION

Both May Die As a Result of Injuries Received in the Oxford Riot.

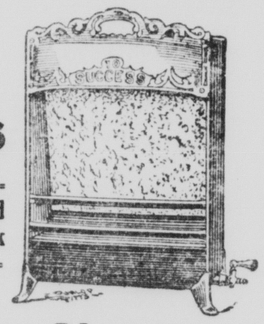

Hamilton, October 2.—(Special.)—The physicians in attendance upon the Spivey brothers, the two men concerned in last night's riot at Oxford, state that they are in a very serious condition.

One of the men is suffering from gun shot wounds and the other from the rough treatment at the hands of the mob that had him strung up on a tree. Both may die.

ABOUT BOY'S CLOTHES

For the school boy it's the clothes that wear most people are after, but to good materials must be added good workmanship, if good wear is to be accomplished. There is an art in making boy's clothing—an art which is not understood in the sweat shops. Only about a dozen boys' clothing manufacturers in the whole United States with capital enough and spunk enough and enterprise enough to employ skilled labor and these are the makers that supply the Erlanger stock. It is not how cheap, but how good that influences our buying and selling boys' clothing. The great growth of business in this department indicates that the mass of people appreciate that the best is the cheapest in the end. Our boys' clothing would be the highest priced in town, if we did not cut our profits. : : : : : : : : : : : :

ANOTHER OFFER FOR THE BONDS

It Is Better by Hundreds Than That of C. R. Williams & Co.

REGARDED WITH MUCH FAVOR

By Members of the Finance Committee Who Have Examined.

AN OPTION UNTIL OCT. 7

Another offer has been made council for the $92,925 worth of bonds, and from what can be learned of the responsibility of the firm it looks at last as if the bonds will go. W. G. McCullough, representing a Pittsburg firm, arrived in the city this morning and proposed furnishing a buyer who will give par for the bonds and will pay the accrued interest. He is to receive but $150 for his trouble.

The proposition was carried before the finance committee of council by City Auditor Davidson and every one of that committee looked upon it from a favorable standpoint. They realize that it is a better offer than they had ever expected, and when Mr. McCullough asked for an option on the bonds until Wednesday, October 7, his request was immediately granted.

The time given to C. R. Williams & Co., of Pittsburg, to take the bonds expired yesterday, and the finance committee was under no obligations to this concern, nor could it be restrained from calling off the negotiations with it. The proposition of Mr. McCullough is by nearly $700 better than that of C. R. Williams & Co. He asks only $150 for his services and guarantees that his company will pay par and the accrued interest which alone will amount to the $700 at the time of the proposed sale. C. R. Williams & Co. offered to pay par, plus $200, but the city was to pay the accrued interest.

The members of the finannce committee are jubilant over the outlook for the disposal of the bonds and are very anxious that nothing develops that will foil their plans.

UNABLE TO SLEEP SINCE THE MISHAP

A Hanover Township Man Wants Damages From His Neighbor For Reckless Driving.

Lisbon, October 2.—(Special)—Andrew DeVille, of Hanover township, through his attorney, has filed suit against Frank Speidel, also of Hanover township, for $30 damages.

The case is said to be the outgrowth of ill feeling of long standing between the parties. The plaintiff says that on August 23 last, he and the defendant had hitched their horses in an inclosure adjoining the Catholic church yard at Dungannon. After the meeting the plaintiff alleged he had unhitched his horse, and led it to an enclosure opening on the public highway. The plaintiff's wife, an aged and enfeebled woman, had entered the buggy, and the husband was in the act of doing so, having stopped for that purpose, when Speidel is said to have driven up with a double team on his way out of the enclosure, and though, it is alleged, there was ample room to get out, he ran into and upset DeVille's rig.

It is alleged Speidel was driving at a rapid speed, and intentionally ran into DeVille's rig. Mrs. DeVille escaped bodily injury, but the husband says his nervous system was so shocked he has not been able to sleep comfortably since; that his left eye was injured and has become inflamed causing him much suffering, and that, by reason of the shattered condition of his nervous system he has been unable to attend to his farm duties. The buggy was also damaged.

GETS A WARRANT AGAINST HIS WIFE

Albert Flesch, of Chester, Accuses Mrs. Flesch of Smashing Things.

A warrant was sworn out before Justice Pugh, of Chester, this afternoon by Albert Flesch, against his wife, who left him recently. Mrs. Flesch is alleged to have taken possession of her husband's barber shop and residence and smashed the furniture and equipment.

OUTLOOK IS GOOD FOR OIL COMPANY

Territory in Which Local Men Are Interested Is Promising.

W. H. Riley returned yesterday from the oil fields back of Marietta, where he spent a few days looking after the interests of the Newport Oil & Gas company, the members of which are mostly local people. Mr. Riley reports the coming in of another well and says the outlook for the company is very encouraging.

There are quite a number of good producers on the leases owned by the company, and it seems that they are right in the midst of a prolific field. The last producer was shot on Tuesday and is now spurting forth at the rate of 20 barrels per day. A sample of the oil was tendered to the members of the company by Mr. Riley, and it is pronounced to be of excellent quality.

'PHONE SERVICE WILL BE BETTER

As a Result of Rivalry Between the Two Competing Companies.

GROCERS FAVOR THE C. C.

Though it is now absolutely certain the object of the Business Men's association to have the people of East Liverpool adopt the Bell telephone, or any other one service, is out of the question, much good will result to the subscribers generally through its efforts. The two companies have left no stone unturned that would tend to make their particular service more popular, and the controversy has taken the form of a fight between the companies instead of having accomplished anything toward the adoption of the one service.

The association of retail grocers and meat dealers is by far the strongest society of its kind in the city, every merchant in those lines having connected himself with the body some time ago. The session last night was a regular one and routine work occupied the attention of its members. It had been announced that since the merchants' association had taken such a positive stand, it was no more than right that this association also express its preference in the telephone controversy, and the members were prepared last evening to discuss the merits of the case in an intelligent manner.

The discussion was a lengthy one, and the question was viewed from every standpoint. The general sentiment favored the Columbiana, even if one system was to be adopted, and the expressions were positive and logical. However, the patrons of a very large majority of these business men were accustomed to doing much of their business by telephone. These patrons in the main were subscribers of the Columbiana, and from what had been gathered before the meeting they proposed to continue to patronize it. It was also shown that not a few Bell telephones were in use among patrons of the grocers and butchers, and in order to cater to all in a manner that will be in every way acceptable it was decided that both services must be maintained. Formal action to that effect was taken.

The physicians of the city held a well attended meeting last evening, and were prepared, it is said, to argue for their particular favorite as long as any one was left to take the other side. Little reliable data can be secured as to precisely what did occur, but it is known that no telephone was adopted on account of the very strong sentiment favoring both. At the conclusion of the meeting it was announced that no decision had been reached, but when it was learned that the grocers' association had adopted both systems, the physicians are said to have favored the plan and concluded to follow it out.

PARTIAL LIST HANDED DOWN

Grand Jury Has Reported 31 Indictments and a Few Are Made Public.

A TRUE BILL FOR MURDER

Found in the Case of Anthony Clunk, Who Killed Frank Nuzum.

A FINAL REPORT TONIGHT

Lisbon, October 2.—(Special.)—The grand jury made a partial report last evening, returning 31 indictments. Only a few have been given out, as the authorities have not had time to serve summons on the accused. Following are some of the indictments returned:

Anthony M. Clunk, Elkton, murder in the second degree.

Leonard Eells, Lisbon, shooting with intent to kill and wound.

Frank Rose, East Palestine, attempting to assault and abuse females.

Harry Potts, Wellsville, larceny.

Nicholson Murray, East Liverpool, petit larceny.

Harry Dobbins, East Liverpool, petit larceny.

George Stewart, East Liverpool, petit larceny.

John Consadine, East Liverpool, robbery.

James Brannon, East Liverpool, pocket picking.

It is expected that the grand jury will conclude a busy session this evening by making its final report. A large number of witnesses have been examined, principally from East Liverpool and Wellsville.

GRAVE CHARGES MADE AGAINST CHESTER MAN

FOURTEEN-YEAR-OLD GIRL TELLS A SHOCKING TALE.

As a Result a Warrant Is Issued For Her Father, a Well Known Mill Man.

Chester authorities, lady members of the First M. E. church of East Liverpool, Dr. Pratt, the pastor, and the prosecuting attorney of Hancock county are today investigating very grave charges against a Chester man. If the charges are sustained a term in the penitentiary probably awaits him.

Fewson Hopper, a tinner at the mill in Chester, came there to work from Joliet, Ill., about two years ago. He has a large family. For some time his daughter, Emma, aged 14, has been in the hands of a number of good women belonging to the First M. E. church of this city, who, from the statements of the child, believe they have discovered ample grounds for charges and legal proceedings against the father.

One lady of the church and the child appeared before Justice Johnston in Chester today at the instance of Prosecuting Attorney McKenzie; Dr. Pratt, Justice Johnston and the church ladies Mrs. Hopper, the child's mother, was also brought into court and examined.

The father, for whom a warrant is out, was still at work at the mill and had not been arrested at 3 p. m.

ANOTHER TROLLEY LINE ACROSS THE COUNTY

Proposed Road to Run Via Salem to Lisbon and East Palestine.

Columbus, October 2.—(Special)—Another electric line has been incorporated to operate in Columbiana county. It is the Salem and Eastern Railroad company, capital stock, $5,000. The road is to start at Sebring and run in an easterly direction through Mahoning and Columbiana counties to Salem; thence easterly to Leetonia and Columbiana and into East Palestine, which will be the eastern terminal point. The line will also extend from Salem to Lisbon, which will be the southern terminal point.

E. S. Cook, F. S. McGowan, A. T. Brewer, J. W. Tyler and M. L. Fowler are the incorporators. The papers filed with the secretary of state to incorporate the company were attested before a notary in Cuyahoga county, which makes it appear that the parties behind the company are from Cleveland.

NON-SUPPORT IS HER CHARGE

MRS. LEVI BURROWS' ACCUSATION AGAINST HER HUSBAND.

Says She Works Like a Slave to Keep Her Children from Starving.

Chief Wyman is searching for Levi Burrows, who, if apprehended will be arrested and taken before Mayor Weaver to answer the charge of non-support. Mrs. Burrows, wife of the fugitive, appeared at the city hall this morning and filed the charge. Her case is truly a pitiful one.

Mrs. Burrows is the mother of six children, the oldest of whom is but 14 years of age. The woman alleges that her husband has failed to support the children for months and that to keep them from starvation she has been compelled to wash almost day and night throughout the week. She alleges further that her husband is well able to provide for the children, if he chose to do so, and that he has been living in a shanty boat for some time, working only enough to keep himself. He is a potter and could work every day.

The oldest child, Nettie, it will be remembered, mysteriously disappeared a few days ago and was later located at the home of William Prosser at New Cumberland. Mrs. Burrows has asked Mayor Weaver to furnish her money enough to have the daughter returned from New Cumberland. The girl is old enough to do light work, and Mrs. Burrows needs her assistance very badly. It is possible that a fund will be started by the mayor for Mrs. Burrows.

CLARKE WOULD SIT IN MOURNERS ROW

Senator Hanna Tells Why His Opponent Would Be Useless If Elected to Congress.

Paulding, October 2.—"Mr. Clarke accuses me of charging 400,000 Democrats with being Socialists," said Senator Hanna in his speech here yesterday. "I said no such thing, but what I do say is that Tom Johnson and his propaganda are Socialistic at heart and Socialistic in practice. And now I want to plead with you the slimy serpent has raised his head to strike and to kill.

"If you are so unfortunate as to send a Democrat to the senate it will avail you nothing," said Mr. Hanna. "He will go to Washington all right, but he will simply take his seat in the back of the room on the mourners' row. If I go back to the senate, and I will go back, I hope to do effective work in your interests, for President Roosevelt is certain to be again the chief executive of the nation and the next congress is certain to be Republican."

Mr. Hanna disposed of Democratic charges and queries with a single sentence yesterday. "Every statement Tom Johnson has made and is making against me is absolutely false and he knows it," said the senator. "He charges me with using my political influence to secure franchises. Well, that comes pretty near being libelous, but Johnson is a poor man and I will attack him."

WELLSVILLE OFFICIALS VISITED CITY HALL

Also Inspected the Fire Station With a View of Getting Information.

Mayor W. L. Fogo and City Solicitor Charles E. Boyd, of Wellsville, were visitors in the city last evening. They called at the city hall and paid their respects to the officials around that building, after which they called at the central fire station.

Though the two visitors would not make a statement as to their object in calling at the fire station, it is understood that the officials of Wellsville are going to make an endeavor to better equip their fire department, and were making an inspection of the central station for the purpose of gaining information that would assist them in carrying out the proposition. The fire department in Wellsville is badly crippled, having no horses and it is the intention to purchase two animals and go to considerable other expense along the same line.

HEALTH BOARD TO TAKE ACTION

Bill of Dr. Ogden for Services In Smallpox Case May Cause Contention.

RIGHT TO DO SUCH WORK

Is Called in Question As Result of Action On Councilman Moon's Bill.

DOUBT ABOUT THE CASE

At least three very important meetings are scheduled for this evening. It is the regular meeting night of the board of health, the board of public service and council will meet in adjourned session.

At the session of the board of health it is expected more friction will develop than at any meeting held by that body since its organization. A large number of bills are to come before the board for consideration and one of them, it is said, will meet serious objection on the part of certain members. It will be remembered that several weeks ago when a case of smallpox was reported in the West End, Dr. C. B. Ogden, the city's health officer, volunteered to attend the case for $15 per day, he to furnish the medicine. It is contended that Dr. Ogden has no legal right to work for the city in any other capacity than that of health officer, and that the case pronounced smallpox was nothing but a severe case of chickenpox.

The alleged case of smallpox has been pronounced cured, the quarantine having been raised. It is said that while the person was sick with the supposed dread disease she ate regularly three times a day, and during the entire period of confinement the house was never known to be abed only at night. There are a number of well known local physicians, it is alleged, who have stated positively that the disease was only chicken pox. The physician who had the case in charge when it was turned over to the health officer, it is said, would have willingly attended the case for much less than $15. Those objecting to the bill, it is said, do not favor paying at the rate of $15 per day for services of such minor consequences.

It is not expected that an attempt will be made to prove what the disease was, such a job being almost impossible, physicians always differing on such questions. However, the point will be raised as to the health officer's legal right to do the work. It is alleged by persons interested that Dr. Ogden has no more right to sell his services to the city than had Councilman Moon to sell feed. As a matter of fact Dr. Ogden receives a salary for his work, and it is alleged that he cannot be paid by the city for work incident to the position.

Council and the board of public service will attend to several matters very important to the municipality, and every member of both bodies have been earnestly requested to be present.

DIXONVLILE SCHOOL WILL OPEN MONDAY

The Worry of the Township School Directors Will Now Be At An End.

The directors of the Liverpool township schools are now resting easy. It will be recalled that Enos Jones, one of the members, reported at the city hall a few days ago his fear of spending time in the penitentiary or some other institution because the Dixonville school could not be opened on the date agreed to by the directors.

His fear originated from the delay of a school furnishing concern which was contracted with to supply seats for the new Dixonville school.

The seats arrived in the city yesterday and the school house will be ready for occupancy on next Monday.

Called a Pastor.

Lisbon, October 2.—(Special.)—The congregation of the Reformed church, which was organized in Lisbon less than a year ago, has extended a call to Rev. C. H. Brandt, of Phoenixville, Pa., to become its regular pastor. Thus far the pulpit has been supplied somewhat irregularly by visiting ministers.

A MILK CONTRACT IS IN DISPUTE

Case Involving the Continuance of a Verbal Contract Comes From Moultrie.

Lisbon, October 2.—(Special)—Attorney Charles S. Speaker will go to Moultrie tomorrow to try a case in which a creamery company has brought an action involving an interesting question. The matter in dispute is as to whether a creamery company, under a verbal contract, can compel a party to deliver milk for a whole year. Such a contract was made in this case, but the party delivering the milk quit in about six months, and gave his supply to another creamery.

The proprietors of the Moultrie Creamery allege all their contracts with employers and milk dealers are made by the year, and this decrease in the milk supply is a serious handicap. Mr. Speaker will represent the plaintiff.

MRS. M. A. CROXALL HAS PASSED AWAY

The Oldest Native Born Resident of the City and Highly Honored.

HER LONG, USEFUL LIFE

The death of Mrs. Mary Ann Croxall occurred last night at 10:30 o'clock at her home on West Third street, where she had lived for the past 35 years. Mrs. Croxall was in her seventy-eighth year, and was the oldest native born resident of East Liverpool.

Her husband, the late Jesse Croxall, who died in 1881, was one of the pioneers of the pottery industry here.

The funeral services will be held at the late residence Sunday afternoon at 2 o'clock. Rev. T. V. Milligan, a former pastor of the First Presbyterian church here, is to officiate, assisted by Rev. C. G. Jordan. The interment will be private at Riverview cemetery.

Mrs. Croxall was the daughter of the late Thomas Carey and was born in this city. When she was but a few years of age her parents moved to Hookstown, where she spent the years of her girlhood. It was at Hookstown that she was married to Mr. Croxall. Returning to this city Mr. Croxall, with his brother, purchased of the late Mr. Bennett the pottery located near the corner of Washington and Second streets. This was the pioneer plant of this city or section.

Owing to ill health Mr. Croxall disposed of his interest in the pottery and engaged in other pursuits. At one time he occupied and owned the property now known as the Bradshaw addition. Mrs. Croxall had, at a very early age, united with the Presbyterian church and she took a prominent and important part in the religious affairs in this city. She was closely identified with the auxiliary organizations of the church and accomplished a great deal of good, becoming noted for her charity. Her own life presented an example worthy of emulation and she possessed those traits of character that endeared her to all. Her acquaintance in this city was unusually large, through her activity and energy in affairs that affected the social and religious side of life. Her untiring efforts have done much to advance the cause of Christianity and her compassion for the poor has saved many an hour of suffering. Mrs. Croxall remained a leader in such work until the infirmities of age compelled her to give way to younger members of the church.

With the exception of three years spent at Trenton, all the years of Mrs. Croxall's life since her return from Hookstown in early womanhood, have been spent here and they have been full of good deeds and kind actions. Of the seven children born to Mr. and Mrs. Croxall, two survive, Frank H. Croxall and Mrs. George C. Murphy, both of this city.

Mrs. Croxall had been an invalid for almost a year, and although it was apparent that the infirmities of age were undermining her rugged constitution, it was the hope of her near relatives and friends that she might be spared to them for a number of years. The infirmities became more pronounced as the days passed, and for the past 10 months she had been confined to her room. Last Sunday she became very much worse and was seen to be failing very rapidly. What is thought to have been a slight attack of pneumonia developed, resulting in her death.

BENTLEY POPE BADLY INJURED

Well-Known Former Resident Thrown Headlong Upon Brick Pavement.

UNCONSCIOUS FOR SOME TIME

He Rallied From a Dazed State and Recovered and Went to Work.

HIS ESCAPE A NARROW ONE

A dispatch from Coshocton states that I. Bentley Pope, president of the Pope-Gosser pottery, of that city, was violently thrown from his bicycle, on Main street, Wednesday evening about 4:30 o'clock, and an ugly gash was cut in his head just over the right eye. He was rendered totally unconscious for a quarter of an hour and remained dazed for about an hour.

Mr. Pope was riding home from the pottery at a good rate of speed. At a point on Main street between the restdince of Capt. J. M. Compton and Judge C. B. Hunt, he was seen to suddenly pitch over the handlebars of his bicycle and light squarely on his head on the paved street.

Some of the women and children in the neighborhood rushed to the spot but were so excited that they were unable to do anything to revive the injured man. He lay on the street for at least five minutes before anything could be done for him. J. M. Compton happened along with his buggy and with the assistance of Russell Hanlon lifted him into the buggy and took him to his home at the corner of Seventh and Main streets.

The wound bled profusely and a pool of blood was formed where Mr. Pope's head lay on the street. His face and head were completely covered with blood and it was feared he might be very seriously injured.

Dr. Carr had been summoned and had arrived at the residence by the time Mr. Pope was carried in. An ugly three cornered cut over the right eye and a number of minor bruises were found. Mr. Pope soon rallied to his senses.

He was at a loss to know how the accident occurred and could not remember the slightest thing about it for some time, but the next morning he stated that he remembered seeing a piece of brick lying on the pavement directly in front of him and that he was unable to turn his bicycle out of the way.

Mr. Pope was feeling much better yesterday morning and went to the factory again as usual.

TERMS OF SEPARATION FIXED IN ADVANCE

Middleton Township Couple Arrange Preliminaries Before Seeking a Divorce.

Lisbon, October 2.—(Special)—Anna E. Burson, of Middleton township, is plaintiff in a divorce action which will be filed in court here today against George H. Burson.

The marriage of the two parties took place September 6, 1895, at Chillicothe, O., and in spite of her husband's intemperate habits, the wife lived with him continuously until August 12 last, when they separated, each signing a post nuptial agreement which the court is asked to make final and binding by decreeing a divorce.

By the terms of the mutual agreement entered into on the date of their separation, the wife has custody of their two children, Harry, aged 6, and Grace May, aged 3 years. The children will continue in her custody until April 1, 1904, provided she remains a resident of Middleton township, but in case of her removal the father becomes their custodian. On April 1, 1904, the father gets custody of the boy. The agreement further provides that the father shall continue to the support of both children and that either parent my visit the child in custody of the other parent at any suitable time.

A division of their land and household effects is also agreed upon, the wife getting 22 acres along with numerous articles of furniture, etc.

Library Board Meets—A meeting of the board of directors of the Carnegie library will be held this evening. The report of Miss Gertrude Baker, the librarian, will be received and other routine matters will be considered.

WITH THE WORKMEN IN THE CLAY PLANTS

NEW CASTLE.

Local No. 54 held a very interesting meeting with a fair attendance. The communication from the national president was read in regard to the two years' agreement with the manufacturers. A special meeting was called for Monday, September 28, to act on the same. The meeting was held and the result was sent to President Duffy.

In regard to the potteries here, the Universal is not doing much. Mr. Simpson, the manager, can not get along with his men. He tries to ignore the rules of the sanitary ware pressers, and when the shop committee calls him down he makes it so warm for them that they quit. Then he tries it on the new shop committee with the same result. Last winter there were 35 journeymen pressers. Today there are but 12, the balance becoming disgusted and leaving. Brothers Tom Gourley, Minnie and Hoffman, pressers, went away last Saturday, with Brother Cope, a kilnhand. The China works are doing well, but there is one grievance there in regard to the price paid for gilding. The lister and the shop committee only ask for $2.50 per day, which is the price paid in East Liverpool. The firm is waiting, claiming the matter is in the hands of the standing price list committee.

Matters at the Shenango are entirely different. Everything is on the rush. The firm is rushed with orders. This is the first time the shop has been rushed to its fullest capacity. Dan McCarron is a hustler and is going to make a grand success of the Shenango Pottery company.

Tom McKeone, Messrs. Murphy and Bartly, coverdish makers, have orders to make five dozen every day, or as much more as they like, but no less.

W. J. McKeone, who has taken charge of the big dish bench, has secured a helper and will now give the firm what dishes they need.

Brother Braley, the apprentice dishmaker, has gone to Coshocton, and George Brown, of East Liverpool, will take his place. Brother John Leese has gone to Crooksville to work in the new shop.

MANY CHANGES.

In the settlement of the pottery wage scale for the next two years are involved many issues of vital importance to the trade and they will be discussed for many a day. The course of action pursued and the results obtained will cause a number of innovations that were not even contemplated at the Wheeling convention. For instance, a proposition for a wage agreement to endure for a term of years was defeated, the majority of the delegates then thinking it unwise to bind themselves to a working agreement for longer than one year. Already there has been some talk of doing away with the convention, which ordinarily would be held next year, and adopt the plan of biennial conventions. The election of officers next May and any other matters other than wages could be settled by a referendum vote of the trade. It is pointed out that the holding of biennial conventions would save several thousands of dollars to the organization and other good arguements are advanced.

A WESTERN TRIP.

Now that the wage matters have been settled President T. J. Duffy, of the N. B. of O. P., will turn his attention to the formation of local unions at several of the new pottery towns. So strong is the organization that no trouble is experienced in incorporating the operatives at the new potteries in unions. One reason why this is an easy matter is that a majority of the operatives have at some time or other worked in this city, where the sentiment of unionism is predominant, particularly among the pottery operatives.

President Duffy left today for Evansville, Ind., where he will organize a local among the operatives of that city. From Evansville he will go to Tiffin, where he will visit the local organized there several months ago. After the Tiffin visit he will go to Cameron, where he will form a new local from the employes of the Benedum plant, the arrangements for which have already been made.

POTTERY NOTES.

Arthur Shaw has been helping out in the dish shop at Goodwin's.

Sam Shipley, of the kiln drawing crew at Thompson s, has resigned.

Fred Owens, who has been working at Minerva, has returned to this city.

Henry Smith, the presser, has changed from the Colonial to Goodwin's.

Joe Cartwright, the baker maker, has resigned his position here to accept one at Ford City.

Quite a number of Salineville operatives have arrived in the city since the shut down at the Dresden plant there.

Cartwright's will soon install the new jumbo jigger, recently ordered. The machine has been completed and will increase the output of the firm in this line of work as the old one will be used.

A DEATH KNELL TO OLD ECONOMY

Sounded by the Auctioneer Selling Off the Famous Society's Effects.

FIVE MEMBERS ARE LEFT

Of the Once Powerful Organization Their Property Now Goes Into the Hands of Strangers—Peculiar and Pathetic Scenes.

Economy, Pa., October 2.—Within sight of the graves in which repose the remains of many of the pioneers of the quaint and once world-famous settlement, their treasured possessions, crude but historic implements of their handiwork and other objects which have characterized the great farm of the Harmony society, were sold yesterday for a mere song. The auction of the equipment, implements and live stock of the Economites which began yesterday morning was picturesque, pathetic and throughout interesting.

The staid village with its wide, unpaved streets and houses constructed of home-made bricks, perhaps never before in its history witnessed the business activity and confusion which prevailed yesterday. Farmers and stockmen from all the nearby towns were present at the big sale, hundreds of curious sightseers were here, and a number of beggars and fakirs mingled with the crowds. In many respects the town indicated that it was the scene of a country fair. The disposal of the effects of the Harmony society marks the beginning of a new era for the vast acreage of fertile ground which for almost a century were tilled by the thrifty Dutch and Germans.

The great farm which yielded millions to the Harmony society was yesterday practically abandoned, and within another year the verdant pastures will have been dotted with modern new residences; many historic landmarks will have been supplanted by other buildings, and scarcely anything will be left as a monument to the once sanctified territory of the big and distinctively peculiar family of Father George Rapp, the founder of the colony, except three blocks in the central portion of the town, in the enclosure of which are a series of magnificent but odd buildings, a pretty graveyard in which sleep about 100 Economite husbandmen and their families, a church and the "town hall," whose famous curfew bell is now silent forever.

Were the proceeds of the big auction sale devoted to memorials for the members of the society whose mounds are located under the graceful trees in the midst of the town, the money would scarcely buy half of them crude headboards. Every farming implement, all the stock wagons, harness, and, in fact, everything that will not be needed by the five surviving members of the society, was placed under the auctioneer's hammer yesterday, and the prices received in every instance for the stock and goods was astonishingly low.

The equipment of the farm was, perhaps, the most complete in this section of the country, and, therefore, the sale attracted many prominent farmers of Beaver, Allegheny and Butler counties. The auction was conducted at the old barns of the society in the middle of the town, and almost continuously during its progress several hundred persons participated in the bidding, inspected the stock and the several car loads of farming tools, fixtures and what not. In the large collection of stock and implements were many curious relics. Some of these time-honored fixtures of the farm which had more than intrinsic worth to the honest and sturdy, peace-loving Germans, who worked and worshipped in homespun garments, were almost given away by the auctioneer, who, in a fog-horn voice, shouted, "Going, are you all done? Sold for $10," on numerous occasions when he prodded up a fine Jersey milch cow and announced that it had been sold to the highest bidder.

Sixty head of cattle, embracing Jerseys, Herfords, Holsteins and mixed breeds, were placed on the block, and they brought on an average the ridiculously low price of $13. In the herd were a few cows which have almost outgrown their usefulness, and which have furnished milk to more than one generation of Harmonites. The prices received for those would scarcely pay for their shipping to Pittsburg. A number of fine Jersey cows, which were fresh, young and healthy, were sold for $20 each, while a number of good horses were sold at remarkably low prices.

Everything necessary for the cultivation of a farm was placed on sale yesterday, from the most improved harvester to a grubbing hoe. The bidding was not spirited on the larger implements and machinery, therefore it was decided to hold over these goods until today, when the sale was continued. Many of the tools which for almost three score years were used in the fields by the Economites were manufactured by their hands or by their forefathers. These were religiously treasured by the members of the colony for years, but yesterday the queer collection was desecrated by the eager crowds of curiosity and bargain seekers.

An old buck saw, the teeth of which indicated that it was home made, and whose handles were fashioned from hickory, was knocked down to the highest bidder for 5 cents. A cattle yoke, the bow of which was maple, and which was probably made in the early part of the last century by some patient member of the old colony, was thrown into the crowd by the auctioneer, as were crude but substantial objects required on a farm. Apple butter paddles, great iron kettles, wine casks, whose age had rendered them very valuable, grindstones and cider presses, were practically given away by the auctioneer. None of the five members—all that are left of the prosperous society—was present at the sale yesterday.

While the quintet has a splendid home and every comfort that wealth can provide, the bass voice of the auctioneer yesterday sounded to the five a death knell for old Economy. The sale proclaimed the actual abandonment of the 3,800 acres which were purchased by Father Rapp and his followers in the spring of 1805, and that the undulating green hills and meadows will soon be converted into a busy hustling business and manufacturing community depriving them of the quietude which has prevailed at Economy since the inception of the colony.

The members of the society who now dwell in the miniature new Economy in the midst of the old farm are: Franz Gilmann, Christina Rall, Barbara Boesch, John S. Duss, the trustee of the society, and Mrs. Duss.

The four blocks in which the few members of the old society reside is enclosed by a tall white painted board fence. The buildings and grounds are practically unchanged since the famous regine of Father Hendici, the aged trustee of the society who died about 12 years ago. The group of buildings and the ground within the enclosure will be retained by the survivors of the society for life. Each of the members save Mrs. Duss has reached an advanced age, but are hardy and happy, and while wealthy and with every means at their disposal to provide themselves with luxuries, they still adhere to the provincialisms and customs which characterized their ancestors.

Six months ago the Economy farm was sold and transferred to a land company. Since then the sale portions of the farm have been leased. These leases will all expire after harvest. Then the territory will be laid out in building lots and converted into a pretty modern residential district.

The old grist mill, which has been a landmark in Economy for at least 80 years, and which is now in a state of decay, will soon be razed and replaced by a large new series of dwellings. The old barns will also soon come down, and within another year nothing will be left of the original settlement but the group of dwellings, the dance hall, church and the graveyard, with its weeping willows and white tombstones, in the center of the town.

Go Prepared.

In preparing for your summer outing a little forethought may save you no end of trouble. Mr. John H. Manly, a dry goods merchant, of Bellville, R. I., while packing an outfit for camping a few weeks on Narragansett Bay, put in a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy for emergency use. The second day in camp his little boy was taken with cramp colic. The first dose of this remedy gave relief and the second dose effected a cure. Think of the pain and suffering this boy would have had to endure without this remedy at hand to relieve him. Such cases often result fatally. For sale by Alvin H. Bulger.

SLOT MACHINES SMASHED

Beaver County District Attorney Takes Summary Means to Abolish Them.

Beaver Pa., October 2.—District Attorney D. K. Cooper yesterday destroyed 11 slot machines, which had been seized by Sheriff Howard Bliss during recent raids on gambling houses in the Beaver valley. The machines were thrown from a window in the top floor of the court house and those that were not sufficiently smashed by the fall were knocked to pieces with an ax.

A large crowd watched the machines being destroyed. A few nickels were found in the debris. The bulk of the money had previously been taken from them and will be used to help pay the cost of prosecution.

STREET CAR CONDUCTOR THROWN BY A CAR

Attempt to Board a Moving Car Resulted in Conductor Smith Receiving Painful Injuries.

Conductor Smith of the East Liverpool line, was painfully injured about the head yesterday afternoon in attempting to board a rapidly moving car at Ralston crossing. His escape from being thrown under the wheels was a very narrow one and he is congratulating himself that his injuries are not of a more dangerous character.

Smith had finished his run for the day and was not in charge of the car which brought about his injury. He lives in the nighborhood of Ralston's crossing and attempted to board the car to ride to the city. As the car passed he prepared to swing aboard, but he stumbled over some obstacle just as he was about to make the last step and lost his footing. He was thrown to the ground with great force, sustaining a number of deep cuts and several bruises about the head and face.

Smith was taken to the office of Dr. R. J. Marshall, where his injuries were attended to. He was able to walk around this morning, but he will not be fit for duty for a week or more.

ARE WELL SATISFIED

People Along Railroad Street Agreed to Building of a Four-Foot Fence.

Property owners and those living along Railroad street are very well satisfied with the fence the railroad company is having built along its right of way. Statements to the contrary are untrue and the people think it is doing the railroad company an injustice.

Before the work was commenced it was announced that the company would build a six-foot fence. There was objection on the part of the people to this and a conference with the company was sought. Through the efforts of City Solicitor Davidson and several prominent East Enders the company agreed to a four-foot fence. The people realize the necessity of the barrier and are now very well satisfied.

Car of Clay Went Wrong.

Work has been suspended at the Klondike pottery on account of the shortage of clay and it may be several days before work can be resumed. A car of clay consigned to the firm was sent to East Palestine by mistake and was unloaded there. Now the operatives will be compelled to loaf until another car is received.

Foot Ball Tomorrow.

The East End foot ball enthusiasts will turn out en masse tomorrow to see the first game of the season at Columbian park. The Oakland Athletic club is to meet the first Sebring team and a great contest is in prospect. The Dixonville Tigers will play a Wellsville team at the school house grounds tomorrow.

Organizing at Smith's Ferry.

District Deputy D. Frank White, with the able assistance of O. D. Culbertson, is at work among the people of Smith's Ferry for the purpose of organizing a lodge of the Protected Home Circle. PEARL HUNTING

A Permanent Industry at Canal Dover. Some Good Finds Reported.

For the last two weeks there has been a regular craze in this city for hunting pearls in the Tuscarawas river near Canal Dover. Some one discovered that some of the common fresh water mussels contain pears of a fairly good quality and since then hundreds of people have been dredging the river with fairly good success.

The pearls found vary in size from the small slugs to half an inch in diameter and bring anywhere from $1 to $100. John E. Ross, a New Philadelphia jeweler, has the finest one, which has been found near his place. It is valued at about $100.

The pearl-bearing mussels are found about three miles above that city. Pearl hunting bids fair to be a permanent business.

JAIL BREAK ATTEMPTED

Martin's Ferry Murderer's Plot to Escape from Prison Is Frustrated.

St. Clairsville, October 2.—A bold attempt to break jail was discovered in time to prevent the escape of five prisoners, who are awaiting trial for murder. Harry Bowers, who held up and robbed Dr. R. H. Wilson, of Martin's Ferry, had secured two small files, with which he had removed a section of the metal floor of his cell sufficiently large to permit his body to pass through.

He was at work on the concrete beneath, when the flickering light in his cell was discovered by Jailer Clyde Bulger, and he was removed to another cell.

When Tom Johnson began his crusade for "just taxation" in Cleveland, the tax rate was 2.67 per $100 valuation. Despite the fact that, under the wise, businesslike administration of Governor Nash, the state tax has been cut in half, the rate for Cleveland this year will be 3.01 per $100. What is more, the bonded indebtedness of the city has been increased from $13,000,000 to $17,000,000, and its credit has gone from good to bad, the late offer of bonds at a 4 per cent rate attracting few bidders, although the city had previously found a ready market for its obligations at a figure that netted the buyer less than 3½ per cent. There are 106 office-holders in Johnson's Cleveland machine drawing an aggregate salaries of $296,756. These officials return a total valuation for taxation of $41,195 and contribute the niggardly sum of $1,238.33 to the county treasury. Charles Salen, chairman of the Democratic state committee, is county clerk and draws the same salary as the president of the United States—$50,000. He makes no return and pays no taxes. In view of these facts, Clevelanders are awakening to the fact that they have been made victims of a bunco game; that Johnson, while preaching just taxation, is surrounded by a gang whose sole purpose is to loot the public tills.

Ohio has again disgraced herself by a lynching. Mob spirit made sad work in the staid college town of Oxford. Every such outbreak by a mob works more harm than the most diligent efforts of reformers can counteract in years. A stern application of the law, to discourage future lawlessness, should and doubtless will follow. Ohio has no more sympathy with lynching than with any other form of anarchy.

The treasury surplus has been reduced and it is surely not an alarming amount of stored-up wealth for a country as great as the United States. Yet it continues to worry the Democrats. They produced a deficit of huge proportions in a short time when they last attempted to manage the nation's finances, and would do it again in a hurry if they got a chance.

War is inevitable between the United States and Germany, says a Chicago professor who has just returned from the latter country. Wonder where he got his tip? Our friend the kaiser has acknowledged the Monroe doctrine, as well as our trade supremacy, and there is little else left to quarrel about.

The triumph of Tom Johnson in Ohio would make the land owners bear all tax burdens. The farmers of this commonwealth will take good care that he does not triumph.

Testimony in the Tillman trial shows that the ex-lieutenant governor of South Carolina had in him more of the coward than of the desperado.

Railroad earnings continue to increase, which is pretty goood evidence that there is nothing radically wrong with the business situation.

The subsidence of the base ball season gives the women golf champions their opportunity and columns of notice in the daily papers.

The Chicago papers loudly boast that the stock yards attract more attention than the art institute as a centennial exhibit.

The Boston champions are likely to discover what really good ball playing is before they get through with Pittsburg.

Japan seems anxious to get mixed up in the oriental imbroglio. The way is easy.

The one-minute automobile has arrived along with the two-minute horse.

OBITUARY

John Morrison.

Lisbon, October 2.—(Special.)—Relatives here received word late yesterday afternoon of the death of John Morrison, son of the late Harvey Morrison, a well known Lisbon lawyer which occurred in Cleveland yesterday afternoon. Death was due to consumption, with which he had been very low for some time. Mr. Morrison was born in Lisbon about 35 years ago and had spent most of his life here. The body was brought here at noon today and at 3:30 o'clock funeral service will be held at the home of Mrs. Ora Morrison, stepmother of the deceased on West Walnut street. Rev. J. A. Ulman, of the M. E. church, will officiate at the services, which will be private on account of the enfeebled condition of Attorney John W. Morrison, an uncle. Interment in the Lisbon cemetery.

Iron Works Destroyed by Fire.

Canton, O., Oct. 2.—A portion of the Novelty Iron company's plant was destroyed, with a loss of about $150,000. The fire is supposed to have been caused by a spark from a passing locomotive. The frame structure, which includes the pattern making department, the setting-up room, coke sheds and scratch room, were destroyed, and the machine shop and other portions of the plant were badly damaged by water.

Three Legal Names in One Day.

Wheeling, Oct. 2.—Mrs. Tillie Crow had her name changed twice by process of law. She was granted an absolute divorce from her husband, John A. Crow, her maiden name of Crumbacker being restored. With the decree in her hand she appeared in the county court, secured a marriage license, and within two hours was Mrs. John W. Woodward.

Ohioan Equals World's Record.

Austerlitz, Ky., Oct. 2.—At the annual live bird shoot of the Hilltop Gun club, situated on the famous Clay farm near here, C. W. Phellis, of Mechanicsburg, O., equaled the world's record and set a new record for the state of Kentucky by scoring 50 straight in a 30-yard boundary. Heikes, of Dayton, O., scored 48; Gilbert, of Spirit Lake, Ia., 47, and Hirschey, of Minnesota, 44.

SOCIAL EVENTS

THE MOCK TRIAL A BIG SUCCESS

ALL OF THE CAST CARRIED OUT THEIR PARTS FINELY.

Entertainment Under Auspices of Ladies' Auxiliary of Y. M. C. A. a Most Amusing One.

The mock trial of an alleged breach of promise suit, given at the opera house last evening under the auspices of the Ladies' Auxiliary of the Y. M. C. A., attracted a large audience and was a fine entertainment. Judge, counsel, witnesses and attorneys all acquitted themselves with credit and sallies of wit kept the crowd in roars of laughter.

The case was that of Mrs. Jerusha Rugg Perkins, a widow and boarding housekeeper, against Herman Feustel, Jr. The sum of $3.98 was claimed for alleged breach of promise to marry. The testimony developed that Feustel was not at all willing to please the widow, who was in a marrying mood, but was exceedingly anxious to wed the widow's niece, Miss Jerusha Ray Perkins, and that love letters and poems addressed to the latter had been appropriated by the former. The characters in the play were in the following capable hands:

Judge—M. C. Wright.
Plaintiff—Miss Nina Kinsey.
Defendant—Herman Fuestel, Jr.
Prosecuting Attorney—Col. A. V. Newton, of Worcester, Mass.
Defendant's Attorney—Frank E. Grosshans.
Court Officer—Homer Morris.
Court Crier—W. V. Harris.
Clerk of Courts—Willis Davidson.
Witnesses—Dr. W. A. Hobbs, Justice H. P. McCarron, Mrs. John Sellers, Joseph Betz, Miss Maud Webber.
Jurors—F. M. Leasure, Will Morris, W. J. McKinney, D. F. Nellis, Dr. C. H. Birkett, C. L. Gray, W. S. Smith, O. N. Earl, R. G. Otterman, Adam Hill, W. W. Webster, E. W. Bartlett.

The jury, in duty bound to pay no attention to the evidence, the arguments, or the judge's charge, found for the plaintiff and decided that the $3.98 should be divided, $3 going to jury and 98 cents to the judge. The ladies in the cast were well skilled to handle their difficult parts, and 'Squire McCarron, Dr. Hobbs and Joseph Betz proved star witnesses and told some remarkable tales. Col. Newton won new laurels as prosecuting attorney, and F. E. Grosshans, the counsel for the defense, conducted his side with distinguished ability. His closing argument was a gem. It was a pleasing performance throughout—as good as a play and better than many plays.

Farewell Reception.

The missionary society, the Ladies' guild and the Girls Friendly society of St. Stephen's church united last evening in giving Mrs. William Stubbs a farewell reception. Mr. and Mrs. Stubbs will leave in a short time for England, where they will reside. The entertainment was in the form of a social, each member present expressing their regret upon the departure of one of the most willing and active workers in the church. The ladies of the society served refreshments, after which each one of the societies presented Mrs. Stubbs with a handsome remembrance, as a token of their high esteem for her. The gifts were a bible, a gold cross and a gold thimble. Rev. Edwin Weary made an address when the presentations were made. The event was a complete surprise to Mrs. Stubbs and a social success.

Wedded at Calcutta.

Rev. Mr. Clark, at the Calcutta U. P. parsonage yesterday, married Daniel Darby and Miss Goldie Crawford, two popular young people of this city.

THE BOND PROTECTS YOU

Will Reed Gives Signed Bond, With Mi-o-na, the Flesh-Forming Food.

With every box of Mi-o-na, the flesh-forming food, and digestion regulator, Will Reed gives the following guarantee bond, binding him to refund the money if Mi-o-na does not give an increase in weight and cure dyspepsia and all stomach troubles.

GUARANTEE BOND.
I hereby agree to refund the price paid for Mi-o-na if the purchaser tells me that it has not increased flesh and given freedom from stomach troubles. WILL REED.

For years there has been a demand for a natural means for increasing flesh, and Mi-o-na has come to supply this need.

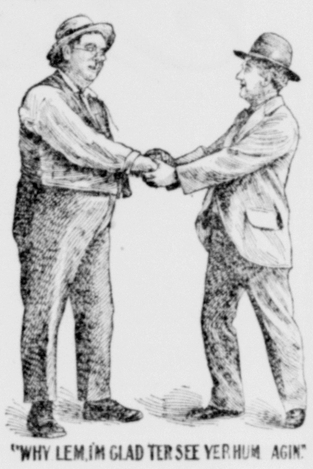

It is not a cod liver oil preparation, but a combination of flesh-forming elements, that regulates and aids digestion and restores health. It mingles with the food you eat, aids its assimilation, tones up and strengthens the digestive organs, and puts the whole system in proper physical condition.

Every one who is troubled with dyspepsia, has that tired feeling, loss of appetite, or is losing flesh or is in a run down condition, should take the guarantee bond to Will Reed and begin the use of Miona at his risk.

Remember that treatment costs you nothing unless it does all that is claimed for it.

FOUND THE PRISONER IN HIS WIFE'S LAP

Edward McLaughlin's Charge Against Virgil Zearley—The Case Dismissed.

Virgil Zearley, a railroader who was arrested in the West End early Wednesday evening, cnarged with carrying concealed weapons, upon complaint of Edward McLaughlin, was brought before the mayor last evening at 7 o'clock. A number of witnesses were called in and were examined by the mayor. Zearley pleaded not guilty. McLaughlin was questioned on the matter. He said that when he came home early in the evening he found Zearley in the house and in his wife's lap. He said that he at once ordered Zearley out of the house and that when he left the yard he threatened McLaughlin and put his hand to his hip pocket as though about to pull a revolver. McLaughlin said that he saw the butt end of the weapon in his pocket and that for this reason he made complaint against him.

Several of McLaughlin's neighbors who witnessed the affair and who were called in as witnesses, admitted that they had seen Zearley put his hand to his hip pocket, but none of the witnesses admitted having seen the revolver. The mayor dismissed the case, after giving Zearley some good advice. The mayor told him to stay away from the McLaughlin home, as he had no business there.

FIRE PROTECTION IS DEMANDED

A Strongly Worded Petition to Council Urges Action in the Matter.

The Chester council will be presented with a petition this evening, the importance of which can scarcely be calculated. The News Review touched a popular chord when it took up the question of fire protection in Chester, and the outcome of that agitation has been an uprising among the citizens and property owners. There can be but one result, since the best and heaviest taxpayers in the entire community have taken the matter up. The council must take decisive action and that at once.

A petition was prepared a few days ago, and has been widely circulated. The heading reads as follows:

"To the Honorable Council of the Town of Chester:

"We, the undersigned citizens of the town of Chester, do petition you as follows:

"That our rapidly growing town is in sore need of fire protection, the rates for insurance having doubled during the past year, and have now reached a point that renders it almost impossible for the average wage earner to pay. In justice to your citizens and to perpetuate the present unprecedented growth of our thriving little town, we pray that your body at once take the necessary steps that will give to us adequate fire protection."

The document has upwards of 100 names upon it, and when it is placed before the council tonight there will be men on the ground amply able to put forth a good strong argument in favor of its provisions being made a law.

It will be remembered that the town of Chester had a liberal proposition from the water company many months ago. The acceptance of the terms of that contract was prevented by certain citizens who failed to realize its importance at the time. Now, it is said, these very men are more anxious than anyone else to have the council act promptly in the matter of providing adequate fire protection for Chester.

CIFT TO SUPT. BROWN

St. Railway Employes' Testimonial to the Popular Bridge Official.

Supt. R. S. Brown, custodian of the East Liverpool bridge, will sever his connection with that institution today and a little surprise was planned for him by the employes of the East Liverpool & Rock Springs street railway.

In his duties as superintendent Mr. Brown has been intimately associated with the employes of the street railway, and no one regrets his departure more than they. As soon as it was learned that he intended to leave a movement was started to procure for him a small token of the high regard in which he was held.

A committee selected a heavy solid gold band ring, inscribed on the inside with the words: "East Liverpool & Rock Springs Street Railway Boys, 1903." Upon the outside the beautiful keepsake contained Mr. Brown's monogram, "R. S. B." The present was handed to the retiring superintendent without ceremony, the feeling of friendship and the deep regret at his departure being so strong that it would not permit of speechmaking.

The New Bank.

It is not yet certain when the new bank will be ready for business. Judge John A. Campbell, of New Cumberland, president of the company, has just made a trip to Pittsburg to purchase United States bonds which the bank must own and place in the proper depository of the government before beginning business.

An Answer is Filed.

An answer to the petition of Robert Pitcairn, of Pittsburg, for an injunction against the town of Chester, has been filed in the United States circuit court at Parkersburg. The case involves the ownership of First street in Chester.

Negro Lynched in Texas.

Marshall, Tex., Oct. 2.—A mob of several men forced their way through the brick wall of the city jail with the aid of a telephone pole and with sledge hammers and crowbars took out Walter Davis, a negro, and marched him to the west side of town, where he was hanged to a tree. The lynching was the result of the killing of Constable Hayes while he was taking a negro to jail. Hayes was shot from ambush, being literally riddled with bullets. Shortly after killing the constable Walter Davis and two other negroes were arrested and lodged in jail at Marshall. A mob formed during the afternoon and attacked the jail. The Marshall musketeers were ordered out and arrived at the jail after the mob had secured the negro.

THE CAPITOL IS COMING

A LONG VACANCY IN THE PASTORATE

Such Is the Probable Condition of Affairs in the First Presbyterian Church.

In all probability the First Presbyterian church will be without a pastor for the next two months. So far as could be learned today no arrangements have been made for a congregational meeting to consider the matter and when it is taken up no hasty decision will be made. It has been stated that the pulpit will be supplied from Sunday to Sunday with ministers from neighboring cities and a definite announcement will likely be made tomorrow for the services next Sunday.

When the call was extended by the church congregation to the Rev. John Montgomery, of Findlay, it was not anticipated that he would be unable to accept. The petition of his congregation, however, to have him returned to Findlay, was recognized by the presbytery and as a result the spectacle of one of the best charges in the state "going begging" is presented.

The loss of Rev. Mr. Jordan is being felt keenly by the congregation of the church and particular pains will be taken to find some minister who will prove as acceptable. Probably the plan of having the prospective pastors preach at the church will be pursued and if this is done it will no doubt be several weeks before another call can be extended.

Found Body Hanging to Tree.

Wheeling, Oct. 2.—A party of farmers coming into the city over a lonely road along Caldwell's run found the dead body of William Kremke, 65 years old, hanging from the limb of a tree. He had probably been dead several hours. Kremke's home was in Martins Ferry, where nine children are living. Some time ago his wife secured a divorce.

McClellan Nominated.

New York, Oct. 2.—The Democratic convention at Canegie hall nominated for mayor George B. McClellan, and completed its ticket by naming for controller Edward M. Grout and for president of the board of aldermen Charles V. Fornes.

The Cause of Many Sudden Deaths.

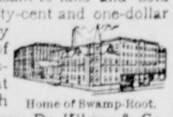

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co. Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Home of Swamp-Root.

Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghampton, N. Y., on every bottle.

Immigration Record Broken.

New York, Oct. 2.—The September record for immigration was broken. The official figures for this port show an increase of 5,543 immigrants landed at Ellis island in excess of the number landed in September, 1902.

Curiosity Gratified.

Fairmont, W. Va., Oct. 2.—Desiring to see a bullet come out of a rifle, Benjamin Durr, the 12-year-old son of Jesse Durr, of Hoult, told his sister to pull the trigger. The entire top of the lad's head was torn off.

Lumber Plant Burned.

Monessen, Pa., Oct. 2.—The Peoples Lumber company plant, with the exception of the office, was destroyed by fire. Loss $50,000, insurance $13,000.

Fairmont, W. Va., Oct. 2.—Philip Campbell, a 15-year-old boy of Grangeville, is dead of lockjaw. He was recently wounded by a toy pistol.

TRIFLING WITH YOUR HEALTH

Is like Playing with a loaded Gun. If you have Kidney Trouble attend to it at once.

It is easy to tell whether your Kidneys or bladder are diseased. Take a bottle or glass tumbler and fill it with urine. If there is a sediment—a powder-like substance—after standing a day and night, if it is pale or discolored, ropy or stringy, there is something wrong with the Kidneys. Other sure signs of disease are a desire to urinate often, pain in the back, or if your urine stains linen.

There is no question that Dr. David Kennedy's Favorite Remedy is the best and surest medicine in the world for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation, and the sicknesses peculiar to women. It quickly relieves and cures inability to hold urine and the necessity of getting up a number of times during the night, and puts an end to the scalding pain when passing urine.

The Rev. Henry P. Miller, pastor Baptist Church, Spartenburg, S. C., writes:

"For years I suffered with Kidney, liver and heart troubles, swimming in the head, dull headache and numbness of the limbs. Physicians prescribed for me and I took different medicines, but none of them did me any good. But Dr. David Kennedy's Favorite Remedy cured me in about two weeks."

It is for sale by all druggists in the ***Now 50 Cent Size*** and the regular $1.00 size bottles—less than a cent a dose.

PITTSBURG'S VICTORY OVER BOSTON TEAM

A Splendid Game Opens the Championship Series, 16,000 in Attendance.

Pittsburg, October 2.—Pittsburg in the first game of the world's championship at the Huntington avenue grounds yesterday won by a score of 7 to 3, gaining the winning margin of four runs after two were out and no one on bases in the very first inning. The showing made by the Bostons, especially in the early innings, was a bitter disappointment to the host of admirers and "stage fright" seems to be the only reasonable explanation.

While Cy Young lacked his best speed, which is the chief merit of his pitching, the contest would never have assumed its one-sided character had not Ferris and Criger "fallen down" in some unaccountable manner. Ferris was manifestly nervous, but why Lou Criger should have become inoculated with the same disease is inexplicable. When you analyze the game, Pittsburg, with all its splendid hitting, was entitled to only two runs, but the same was true of Boston on half the hits. The crowd numbered 16,242.

There was considerable money bet on the Boston-Pittsburg series and also on the outcome of yesterday's game. In the forenoon there was brisk betting and no less than $10,000 was put up. The prevailing odds were 10 to 8.

John Newell, a well known Pittsburg hotel man, won $1,000 of John Keenan's money for which he jeopardized $800.

OAKLANDS WILL MEET SEBRING'S FAST TEAM

First Foot Ball Game of the Season at Columbian Park to Take Place Tomorrow.

Foot ball enthusiasts of the East End will have the opportunity of witnessing the first game of the season next Saturday on the Columbian park gridiron. The fast team from Sebring has been booked by Manager Weaver for that day and a fine game is expected. Last year the Oaklands with a patched up team went to Sebring and were defeated by a score of 10 to 0. The Oaklands are confident of reversing this score in the game tomorrow.

Saturday is an excellent day for a foot ball contest and the East End enthusiasts will turn out en masse to see their favorites at work. The kick-off will take place promptly at 4 o'clock.

While the Oaklands will have a great deal the same eleven as in the game against the Rovers, they will miss big Bitner, who has gone to Akron to play with a professional team. He is a fast player and added a tower of strength to the line. The Oaklands missed "Ducky" Myler in that game with the Rovers and it is very likely that he will go in at quarter for them tomorrow. Mountford, the high school boy, will be at left half again.

Sebring has one of the strongest teams in the state and recently defeated Alliance 22 to 0.

The Oakland lineup will be: Price or Johnson, center; Flesch, right guard; Sanford, right tackle; Weikert, right end; Goddard, left tackle; Miles, left end; Gray, left guard; Angle or Hendricks, right half; Mountford, left half; Orr, full back and Myler or Little, quarter back.

Second High School Team Won.

The Second High school team won an unexpected game yesterday afternoon from the East End Tigers, in the gridiron contest at the East End school grounds. The school boys were up against a much heavier team but they managed to win by a score of 2 to 0. The only score of the game, a touch back, was secured by them. They punted the ball from the field to the Tigers' goal line and the Tiger Dwyer who caught the ball, was promptly downed. The High school boys are righly pleased at their victory owing to the fact that nearly all the Tigers' players were full grown men.

The lineups were:

High School.	Positions.	Tigers.
Ball	Left end	Petts
Barlow	Left tackle	Kane
Frost	Left guard	R. Wilson
Thompson	Center	B. Fetty
Wilson	Right guard	Carroll
Croft	Right tackle	L. Price
Miller	Right end	H. Mills
Cripps	Quarterback	C. Price
Smith	Left half	Schrowder
Gipner	Right half	Green
Wynn	Fullback	Terrence
Wells, Ritchey	Sub.	T. Wilson

Threw the Games.

William Phyle, captain of the Memphis base ball team, which won the Southern league pennant by the narrow margin of two points from Little Rock, managed by Mike Finn, is authority for the statement that Memphis was enabled to win by bribing opposing players in at least six of the games played. His statement caused a sensation in all Southern league cities where there has already been much talk and counter-charges of "laying down" in the closest pennant struggle that was ever witnessed in the south.

SPORTING MISCELLANY.

The Mt. Union college football team has elected Emory Powell for this season's captain.

Dr. C. F. Schiltz, formerly one of O. M. U.'s star players, has consented to coach the Canton football team during the rest of the season.

Mike Donovan, of Rochester, N. Y., is open to meet Jack Sullivan, Joe Walcott, George Cole or any of the 150 pound men who are looking for an opponent.

Mr. Billings is out with a statement that he will enter Lou Dillon for the Memphis gold cup if Smathers enters Major Delmar. There is very likely to be some great racing that day.

Jack Lowery, the featherweight, is out with a defi to all of the 126 pound men. Tommy Daly or Kid Goodman can have another crack at him or he will take on Jack Dorman in private.

LOCOMOTIVE SPARK STARTS A BIG BLAZE

Novelty Iron Works at Canton Suffer $15,000 to $20,000 Damage By Fire.

Canton, October 2.—The plant of the Novelty Iron works was damaged by fire last night to the extent of between $15,000 and $20,000. The frame portion of the structure, about 5,000x250 feet, was gutted, destroying the pattern making, the setting-up room, coke sheds and the scratch room.

The machine department was damaged by water and the roof was badly damaged over the foundry and testing department. The patterns in the brick vaults were saved and work will probably not be entirely suspended. The loss is pretty well covered by insurance. A spark from a passing locomotive is supposed to have started the fire.

DANGEROUS WORK IN THE BIG CITIES

Many Persons Engaged in Occupations That Imperil Their Lives Daily.

PROFESSIONAL CLIMBERS

And Others Who Have Duties to Perform on Tall Buildings And Some of the Risks They Run—Cool Heads Required for the Work.

Pittsburg, October 2.—That death constantly stares one in the face, is a thought that seldom troubles the mind of the average human being, but if the person who passes daily through the crowded streets of Pittsburg or any other large and busy city were able to realize the number of hairbreadth escapes daily encountered, he would be amazed.

The steeple climber and professional lofter who works on the tall building, is one whose life is constantly in jeopardy, and yet the number of accidents to such persons is small in comparison with the risk undertaken. The janitor whose duty is to clean the windows of a tall structure, is equipped with a device to render his position safe when it becomes necessary for him to step upon a lofty window ledge, and wash the panes hundreds of feet above the scurrying crowds. He is provided with a strong belt from which dangles a chain that snaps into rings at the sides of the windows, and this outfit makes it practically impossible for him to fall. Some janitors, however, seem more at home at these dizzy heights than when they are upon terra firma, and they ignore the precaution referred to.

Windows in many of the down town buildings are cleaned by women, and some of these are as much at home as the men, when standing upon a narrow sill far above the bustling street. Almost daily, two women janitors can be seen washing the upper windows of a business house in Fifth avenue near Smithfield street. They use no belts or chains and clamber about from sill to sill, without the slightest indications of light-headedness.

Within half an hour, upwards of a hundred narrow escapes are apt to occur in the construction of a skyscraper, and many of these are seen by the scores of pedestrians who "rubber" at the work on these lofty edifices. For instance, only a day or so ago, hundreds of persons saw a nervy piece of risk performed by a laborer on the Bessemer building, now being completed at Sixth street and Duquesne way. Something became wrong at the end of a protruding scaffold, more than 100 feet above the sidewalk. A long piece of timber was shoved out until the end came close to the point that required adjusting. Upon this beam a man crawled, but ere he had passed far, the timber began to tilt. Coolly drawing himself back as a boy would do upon a see-saw board, the laborer reversed the equilibrium and the big beam settled back in its place. The man remained upon his perilous perch and called to a companion to place his weight upon the base of the beam. When the fellow workman complied with the request, the man crept nearly to the end of the pole, but the weight of the other man proved insufficient and for a second time the timber started as though about to fall. The climber once more drew his body back about a foot and with a bump that might have thrown one or both of the men from their places, the big beam again settled back, and another laborer was induced to act as a bottom weight. This proved satisfactory, and the man climbed to the end, and with a display of nerve that nearly paralyzed the crowd, he slowly adjusted a chain and then returned to his other work as though nothing had happened.

John Potter, foreman of the stone masons engaged upon the Bessemer structure, can be seen a dozen times a day, riding to the top of the high structure building, perched upon one of the stones to be used in completing the masonry. His thrilling feat is always watched with wonder by crowds of passers by and frequently there are those who turn away in horror, fearing the man will fall to his death. The stones are drawn to the summit by means of rope and derrick, and when Potter desires to go aloft he steps upon one of these stones, holds the chain with one hand and rides skyward. By the time he is at his destination where he is swung in by the derrick, he appears almost like a speck. When Potter is ready to descend, he seizes the dangling chain, steps into the empty hook and is lowered by machinery to the earth below.

Mrs. Williams

Always Felt Tired

1329 Hawthorne Avenue, Minneapolis, Minn., August 26, 1903.

Mrs. Procter Williams says: "*My greatest trouble seemed to be a general weakness and all-over-tired feeling. I did not expect to be ever strong again. I was in a pitiful state when my husband, who had been benefited by the use of Paine's Celery Compound, urged me to try it. At once after I began taking the remedy my headaches disappeared. My nerves became strong. I consider my cure a miracle, for I had tried a great many doctors and different remedies, and spent hundreds of dollars in vain.*"

VERY LITTLE DONE BY THE SAFETY BOARD

Helmets Wanted for the Firemen And a Supply May Be Ordered.

The board of public safety consumed considerable time last evening in doing nothing. At least an hour was spent in caucus before President Grafton called the members to order and then nearly that much time was lost in talking over matters. The entire complement, excepting Ogilvie, was present.

Mr. Taylor reported that he had been investigating the needs of the firemen and had discovered that the board should by all means buy helmets for them. He said they were used in every up-to-date city and cited many reasons why the local firemen can not do without them. They can be bought for $3.50 each, and it is likely a purchase will be ordered, a committee being appointed to act as it thinks best.

Another attempt is to be made for the purpose of securing permanent quarters for the board. It has been meeting anywhere that room could be had, and council will now be asked to furnish a room for the use of the board. The board is willing to occupy a room on the third floor of the city hall and council will be asked to fit it up.

A large number of bills were read by Clerk Huntsman and the majority of them were ordered paid.

SPEEDY SALE OF BONDS IS EARNESTLY DEMANDED

Council Must Pass an Appropriation Ordinance Before Money Can Be Paid Out.

The employes of the city are doomed to suffer another prolonged wait for their salaries. Tomorrow is the regular pay day, but there is not any money which the treasurer and auditor can use for the payment of the bills and as a result the employes will be compelled to wait at least 10 days. At the adjourned meeting of council tonight that body can arrange for the payment of the bills within 10 days if they so desire, and it is thought probable they will do so.

As was well explained by Special Examiner MacKenzie, when he was on his official visit to the city, it is now necessary for council to pass an appropriation ordinance before any money can be paid out and that is what the body must do now or the employes will suffer. Auditor Davidson states that there is about $8,000 in the treasury at the present time. That amount will cover all expenses incurred up to date, but it will be necessary to appropriate every penny of it. After it is gone is when the hardest blow will be dealt. The only recourse upon which the councilmen can fall is to make a speedy sale of the bonds, and from all appearances they will meet with further difficulty in carrying out that plan.

Though it is not known what council will do this evening relative to a final disposal of the bonds it is thought a strenuous effort will be made to get them off the city's hands. Having several offers, none of them tempting, however, the body is not entirely tied up, and realizing the conditions it is assured everything within their power will be done by the city fathers.

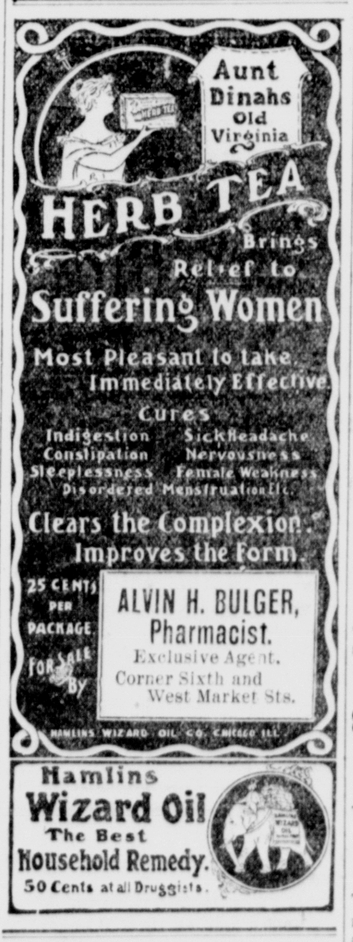

THE CURFEW BELL NOW RINGS AT 9

Mistaken For An Alarm of Fire—One Lad Taken to the City Jail.

The curfew bell rang last night at 9 o'clock, an hour earlier than has been customary since Mayor Weaver inaugurated the adherence to the ordinance. When the rather doleful sounds of the bell pealed forth on the night air persons in all parts of the city were seen to stop suddenly, all thinking it an alarm of fire. According to the ordinance the curfew must ring at 9 o'clock every evening between the dates of October 1 and April 1.

Wayor Weaver announced this morning that he intends to see that this ordinance is rigidly enforced, more so than it was ever before. He believes that it will be productive of much good and has ordered Chief Wyman to instruct the police to keep a strict watch for all violators.

In anticipation of the mayor's wishes, Officer Dawson started the ball rolling last evening when he arrested William Munday, a lad of 14 years. The youngster was warned several times by the officer to seek his home and instead of heeding the officer's command he became very abusive and defied the officer to send him home. It was not the wish of Officer Dawson to do the boy an injustice, but he did not think it was his duty to permit him so openly to disobey the law, and took him to jail. The mayor assessed a small fine and allowed the boy to go after a severe reprimand. It is hoped by the mayor that the case will be an example to other boys.

Record Breaking Auto Trip.

New York, Oct. 2.—Bert Holcomb and Henry Sendall finished a record-breaking automobile trip from Chicago to New York, the machine making the trip in 76 hours. The automobile, a 24-horse power machine, had been delayed several hours on account of losing the road. The car covered 1,177 miles, an average of 15½ miles per hour. It was driven by relays of chauffeurs.

Troops Lost in Snowstorm.

Albertville, France, Oct. 2.—While the Twenty-second Alpine battalion was engaged in maneuvers near Selongey the troops were lost for a time in a heavy snowstorm while approaching the edge of a precipice. Captain Alzieu, who was in command, fell over the precipice and was killed. There were no other casualties.

TWO YEAR SCALE PLEASES TRENTON

Manufacturers Believe It Will Have a Good Effect Upon Trade.

CONDITIONS ARE BETTER

Child Labor Being Eliminated From New Jersey Potteries—Staple Lines Picking Up and Specialties in Demand.

From a Staff Correspondent.

Trenton, N. J., October 2.—Although the result of the referendum vote on the proposition of the Brotherhood of Operative Potters signing a two year agreement with the manufacturers, regulating prices in both the sanitary and general ware lines, has been forwarded to the headquarters of the Brotherhood, there appears to be a growing satisfaction among the potters of this city in favor of the move.

Both the manufacturers and the men appear anxious to prevent another occurrence similar to that which took place in the west over the increase in the uniform scale and which kept the trade in a state of uneasiness until a preliminary settlement was reached about two weeks ago in Philadelphia.

Aside from the sanitary plants, the general ware shops here will be but little affected by any change that may be brought about by the Brotherhood in the way of an increase in wages, unless they decide in the meantime to adopt the uniform price list. The feeling that prevails among the manufacturers in regard to the two year proposition is that a two year agreement will tend to steady the trade and improve both the condition of employer and employe.

Since the possibilities of a strike have been eliminated and the settlement of the difficulty at the International pottery, it has had the effect of greatly improving the condition of the local trade. All the staple lines during the past week have enjoyed liberal patronage and there has been a brisk demand for specialties. The potteries that include jardinieres in their production report an exceptionally good business, considerably in advance of last year. Trenton potteries with hotel china, last year experienced one of the largest trades in their history, but judging from the orders which are now being sent in by the men on the road, the trade in this line of goods will likely surpass the orders for 1902. The large department stores and houses handling fancy crockery are among the heaviest buyers. Most of the orders call for shipment in time for the holiday trade.

The condition of the labor arm of the trade seems to be particularly satisfactory since Deputy Factory Inspector Milburn succeeded in ridding many of the potteries of the curse of child labor. About a month ago, or as soon as the new child labor law went into effect, Mr. Milburn started to make an inspection of the potteries and succeeded in causing the discharge of many young boys who were employed as mould runners and in the other small jobs which require but little previous training. Mr. Milburn in about a week or so will go to South Jersey and there will make a similar crusade.

Howard B. Moses has been connected with the Glasgow pottery for 21 years. Last week he celebrated the event by passing cigars around among the employes and ice cream to the girls. In the midst of the festivities he was called down into the decorating department and there in the presence of all the employes he was presented with a gold head handled umbrella and two bouquets of roses.

SILVER TONCUED CAMPAIGN ORATORS

This County Has a Long List of Those Who Are Ready to Speak for Republicanism.

Columbus, October 2.—(Special.)—The Republican state executive committee has issued a list of speakers in the various counties reported as available and to whom invitations have been extended to take part in the coming campaign this fall. Columbiana county presents a formidable array of speakers who are included in the list, as follows:

BELL 'PHONE LINES

Being Extended at a Rapid Rate in Lisbon—Both Systems in Use.

Lisbon, October 2.—(Special.)—The reconstruction of the Bell Telephone company's lines in Lisbon to accommodate new patrons was commenced yesterday afternoon. A gang of workmen came here from the southern part of the county, together with several wagon loads of poles from East Liverpool and Wellsville. The work of preparing the local system to handle its increased patronage will be pushed vigorously.

There seems to be no longer any doubt that nearly all the business people of Lisbon who have signed contracts for the Bell 'phone will be compelled to use both 'phones.

Dieting Invites Disease.

To cure dyspepsia or indigestion it is no longer necessary to live on milk and toast. Starvation produces such weakness that the whole system becomes an easy prey to disease. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that one cares to eat, and is a never failing cure for indigestion, dyspepsia and all stomach troubles. Kodol digests what you eat—makes the stomach sweet. Sold by A. H. Bulger.

DISCUSSED TARIFF QUESTION.

Premier Balfour Does Not Mention Cabinet Possibilities.

London, Oct. 2.—Addressing a mass meeting at Sheffield in connection with the conference of the National Conservative association, Premier Balfour delivered the speech which has been long heralded as the first heavy gun to be fired in the fiscal reform campaign which is absorbing the attention of the united kingdom, her colonies, and indeed the whole world and which has caused the present British cabinet crisis, the result of which it is impossible to foretell.

Mr. Balfour, in the course of his speech, did not even hint at the successors in the cabinet to Mr. Chamberlain, Lord George Hamilton and Mr. Ritchie. In fact, he did not mention the ministerial resignations, ignoring altogether that phase of the situation on which it was expected he would make some declaration. The premier confined himself strictly to the tariff question and his speech was to a large extent a repetition of the arguments contained in his secret pamphlet.

Rheumatism

"THE PAIN KING."

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy.

LET DOWN TO PRAY

Lynchers at Oxford Foiled by Gallant Dash of Deputy Sheriff.

PRISONER SPIRITED OUT OF TOWN

Battle on Streets During Fair Results in Fatal Wounding of Two Men. Village Marshal and Deputy Injured Attempting to Make Arrests.

Oxford, O., Oct. 2.—A mob broke open the jail and took Joseph Spivey to an elm tree one square away, on which Henry Corbin was lynched in 1892. Spivey was strung up and let down to pray. A second time he was strung up and let down, and while he was pleading for time to write to his wife Deputy Sheriff Brennan and a few assistants rushed forward, cut the rope and dashed down the street with the prisoner. He was rushed to the jail and has been spirited out of town. John Spivey, his brother, is dying with a bullet through his head. E. V. Jetter, of Monroe, O., was also fatally wounded by the Spiveys.

Were Looking for Trouble.

The trouble arose out of a disturbance created by John Spivey and Joseph Spivey, who came over from Kentucky with some friends and began shooting on the streets of Oxford during the progress of a fair. The village marshal and his deputy attempted to arrest them, and were both wounded. The crowd then pursued the Spivey brothers with shotguns. The men were overtaken after Joseph had been shot in the right side and John knocked unconscious with a stone. A stranger who refused to give his name was shot in the abdomen.

The wound of Deputy Marshal Manrod, who was shot in making the arrests, is regarded as fatal. The marshal will recover.

The Spivey brothers were intoxicated and had been creating a disturbance all the afternoon.

It was Luke Brannon, the brave deputy sheriff of Butler county, who had been sent to Oxford by Sheriff Bisdorf, that landed Spivey in jail and held him there.

Held Mob at Bay.

He had sworn in as assistants ex-Mayor Peter Flannagan and Horace Cormier, and the three held the mob at bay with double six-shooters after they landed their prisoner in jail. The mob followed them and clamored for the prisoner. Then followed speeches by ex-Mayor Flannagan, Rev. Dr. Thomas J. Potter, of the Presbyterian church, and others, notably that of the brother of Marshal Woodruff, and all was over, as the deputy sheriff, Luke Brannon, had not been idle during the speaking.

Took Prisoner Out Through Cellar.

When he entered the town jail he conducted his prisoner to the cellar and crawled out of a coal chute and crossed the back lots until he got to the Miami university campus. Trusted lieutenants meanwhile in the persons of Horace Cormier and Mr. Nagle secured the other brother, Louis Spivey, and spirited him out through the coal chute. The party took two hacks and drove rapidly to Hamilton, a distance of 20 miles, where they arrived after midnight, and securely lodged their prisoners in the Butler county jail. The mob finally found they had been beaten and quietly dispersed.

ABOUT BOY'S CLOTHES

For the school boy it's the clothes that wear most people are after, but to good materials must be added good workmanship, if good wear is to be accomplished. There is an art in making boy's clothing—an art which is not understood in the sweat shops. Only about a dozen boys' clothing manufacturers in the whole United States with capital enough and spunk enough and enterprise enough to employ skilled labor and these are the makers that supply the Erlanger stock. It is not how cheap, but how good that influences our buying and selling boys' clothing. The great growth of business in this department indicates that the mass of people appreciate that the best is the cheapest in the end. Our boys' clothing would be the highest priced in town, if we did not cut our profits.

ANOTHER OFFER FOR THE BONDS

It Is Better by Hundreds Than That of C. R. Williams & Co.

REGARDED WITH MUCH FAVOR

By Members of the Finance Committee Who Have Examined.

AN OPTION UNTIL OCT. 7

Another offer has been made council for the $92,925 worth of bonds, and from what can be learned of the responsibility of the firm it looks at last as if the bonds will go. W. G. McCullough, representing a Pittsburg firm, arrived in the city this morning and proposed furnishing a buyer who will give par for the bonds and will pay the accrued interest. He is to receive but $150 for his trouble.

The proposition was carried before the finance committee of council by City Auditor Davidson and every one of that committee looked upon it from a favorable standpoint. They realize that it is a better offer than they had ever expected, and when Mr. McCullough asked for an option on the bonds until Wednesday, October 7, his request was immediately granted.

The time given to C. R. Williams & Co., of Pittsburg, to take the bonds expired yesterday, and the finance committee was under no obligations to this concern, nor could it be restrained from calling off the negotiations with it. The proposition of Mr. McCullough is by nearly $700 better than that of C. R. Williams & Co. He asks only $150 for his services and guarantees that his company will pay par and the accrued interest which alone will amount to the $700 at the time of the proposed sale. C. R. Williams & Co. offered to pay par, plus $200, but the city was to pay the accrued interest.

The members of the finaunce committee are jubilant over the outlook for the disposal of the bonds and are very anxious that nothing develops that will foil their plans.

UNABLE TO SLEEP SINCE THE MISHAP

A Hanover Township Man Wants Damages From His Neighbor For Reckless Driving.

Lisbon, October 2.—(Special)—Andrew DeVille, of Hanover township, through his attorney, has filed suit against Frank Speidel, also of Hanover township, for $30 damages.

The case is said to be the outgrowth of ill feeling of long standing between the parties. The plaintiff says that on August 23 last, he and the defendant had hitched their horses in an inclosure adjoining the Catholic church yard at Dungannon. After the meeting the plaintiff alleged he had unhitched his horse, and led it to an enclosure opening on the public highway. The plaintiff's wife, an aged and enfeebled woman, had entered the buggy, and the husband was in the act of doing so, having stopped for that purpose, when Speidel is said to have driven up with a double team on his way out of the enclosure, and though, it is alleged, there was ample room to get out, he ran into and upset DeVille's rig.

It is alleged Speidel was driving at a rapid speed, and intentionally ran into DeVille's rig. Mrs. DeVille escaped bodily injury, but the husband says his nervous system was so shocked he has not been able to sleep comfortably since; that his left eye was injured and has become inflamed causing him much suffering, and that by reason of the shattered condition of his nervous system he has been unable to attend to his farm duties. The buggy was also damaged.

GETS A WARRANT AGAINST HIS WIFE

Albert Flesch, of Chester, Accuses Mrs. Flesch of Smashing Things.

A warrant was sworn out before Justice Pugh, of Chester, this afternoon by Albert Flesch, against his wife, who left him recently. Mrs. Flesch is alleged to have taken possession of her husband's barber shop and residence and smashed the furniture and equipment.

OUTLOOK IS GOOD FOR OIL COMPANY

Territory in Which Local Men Are Interested Is Promising.

W. H. Riley returned yesterday from the oil fields back of Marietta, where he spent a few days looking after the interests of the Newport Oil & Gas company, the members of which are mostly local people. Mr. Riley reports the coming in of another well and says the outlook for the company is very encouraging.

There are quite a number of good producers on the leases owned by the company, and it seems that they are right in the midst of a prolific field. The last producer was shot on Tuesday and is now spurting forth at the rate of 20 barrels per day. A sample of the oil was tendered to the members of the company by Mr. Riley, and it is pronounced to be of excellent quality.

'PHONE SERVICE WILL BE BETTER

As a Result of Rivalry Between the Two Competing Companies.

GROCERS FAVOR THE C. C.

Though it is now absolutely certain the object of the Business Men's association to have the people of East Liverpool adopt the Bell telephone, or any other one service, is out of the question, much good will result to the subscribers generally through its efforts. The two companies have left no stone unturned that would tend to make their particular service more popular, and the controversy has taken the form of a fight between the companies instead of having accomplished anything toward the adoption of the one service.

The association of retail grocers and meat dealers is by far the strongest society of its kind in the city, every merchant in those lines having connected himself with the body some time ago. The session last night was a regular one and routine work occupied the attention of its members. It had been announced that since the merchants' association had taken such a positive stand, it was no more than right that this association also express its preference in the telephone controversy, and the members were prepared last evening to discuss the merits of the case in an intelligent manner.

The discussion was a lengthy one, and the question was viewed from every standpoint. The general sentiment favored the Columbiana, even if one system was to be adopted, and the expressions were positive and logical. However, the patrons of a very large majority of these business men were accustomed to doing much of their business by telephone. These patrons in the main were subscribers of the Columbiana, and from what had been gathered before the meeting they proposed to continue to patronize it. It was also shown that not a few Bell telephones were in use among patrons of the grocers and butchers, and in order to cater to all in a manner that will be in every way acceptable it was decided that both services must be maintained. Formal action to that effect was taken.

The physicians of the city held a well attended meeting last evening, and were prepared, it is said, to argue for their particular favorite as long as any one was left to take the other side. Little reliable data can be secured as to precisely what did occur, but it is known that no telephone was adopted on account of the very strong sentiment favoring both. At the conclusion of the meeting it was announced that no decision had been reached, but when it was learned that the grocers' association had adopted both systems, the physicians are said to have favored the plan and concluded to follow it out.

Mrs. J. B. Irwin Ill.

Columbus, October 2.—(Special)—Mrs. I. B. Cameron, wife of State Treasurer Cameron, has been called to Cleveland by news of the serious illness of her mother, Mrs. J. B. Irwin, who is well known in Columbiana county, having been a resident of Salineville for many years.

PARTIAL LIST HANDED DOWN

Grand Jury Has Reported 31 Indictments and a Few Are Made Public.

A TRUE BILL FOR MURDER

Found in the Case of Anthony Clunk, Who Killed Frank Nuzum.

A FINAL REPORT TONIGHT

Lisbon, October 2.—(Special.)—The grand jury made a partial report last evening, returning 31 indictments. Only a few have been given out, as the authorities have not had time to serve summons on the accused. Following are some of the indictments returned:

Anthony M. Clunk, Elkton, murder in the second degree.

Leonard Eells, Lisbon, shooting with intent to kill and wound.

Frank Rose, East Palestine, attempting to assault and abuse females.

Harry Potts, Wellsville, larceny.

Nicholson Murray, East Liverpool, petit larceny.

Harry Dobbins, East Liverpool, petit larceny.

George Stewart, East Liverpool, petit larceny.

John Consadine, East Liverpool, robbery.

James Brannon, East Liverpool, pocket picking.

It is expected that the grand jury will conclude a busy session this evening by making its final report. A large number of witnesses have been examined, principally from East Liverpool and Wellsville.

GRAVE CHARGES MADE AGAINST CHESTER MAN

FOURTEEN-YEAR-OLD GIRL TELLS A SHOCKING TALE.

As a Result a Warrant Is Issued For Her Father, a Well Known Mill Man.

Chester authorities, lady members of the First M. E. church of East Liverpool, Dr. Pratt, the pastor, and the prosecuting attorney of Hancock county are today investigating very grave charges against a Chester man. If the charges are sustained a term in the penitentiary probably awaits him.

Fewson Hopper, a tinner at the mill in Chester, came there to work from Joliet, Ill., about two years ago. He has a large family. For some time his daughter, Emma, aged 14, has been in the hands of a number of good women belonging to the First M. E. church of this city, who, from the statements of the child, believe they have discovered ample grounds for charges and legal proceedings against the father.

One lady of the church and the child appeared before Jusuce Johnston in Chester today at the instance of Prosecuting Attorney McKenzie; Dr. Pratt, Justice Johnston and the church ladies Mrs. Hopper, the child's mother, was also brought into court and examined.

The father, for whom a warrant is out, was still at work at the mill and had not been arrested at 3 p. m.

ANOTHER TROLLEY LINE ACROSS THE COUNTY

Proposed Road to Run Via Salem to Lisbon and East Palestine.

Columbus, October 2.—(Special)—Another electric line has been incorporated to operate in Columbiana county. It is the Salem and Eastern Railroad company, capital stock, $5,000. The road is to start at Sebring and run in an easterly direction through Mahoning and Columbiana counties to Salem; thence easterly to Leetonia and Columbiana and into East Palestine, which will be the eastern terminal point. The line will also extend from Salem to Lisbon, which will be the southern terminal point.

E. S. Cook, F. S. McGowan, A. T. Brewer, J. W. Tyler and M. L. Fowler are the incorporators. The papers filed with the secretary of state to incorporate the company were attested before a notary in Cuyahoga county, which makes it appear that the parties behind the company are from Cleveland.

NON-SUPPORT IS HER CHARGE

MRS. LEVI BURROWS' ACCUSATION AGAINST HER HUSBAND.

Says She Works Like a Slave to Keep Her Children from Starving.

Chief Wyman is searching for Levi Burrows, who, if apprehended will be arrested and taken before Mayor Weaver to answer the charge of non-support. Mrs. Burrows, wife of the fugitive, appeared at the city hall this morning and filed the charge. Her case is truly a pitiful one.

Mrs. Burrows is the mother of six children, the oldest of whom is but 14 years of age. The woman alleges that her husband has failed to support the children for months and that to keep them from starvation she has been compelled to wash almost day and night throughout the week. She alleges further that her husband is well able to provide for the children, if he chose to do so, and that he has been living in a shanty boat for some time, working only enough to keep himself. He is a potter and could work every day.

The oldest child, Nettie, it will be remembered, mysteriously disappeared a few days ago and was later located at the home of William Prosser at New Cumberland. Mrs. Burrows has asked Mayor Weaver to furnish her money enough to have the daughter returned from New Cumberland. The girl is old enough to do light work, and Mrs. Burrows needs her assistance very badly. It is possible that a fund will be started by the mayor for Mrs. Burrows.

CLARKE WOULD SIT IN MOURNERS ROW

Senator Hanna Tells Why His Opponent Would Be Useless If Elected to Congress.

Paulding, October 2.—"Mr. Clarke accuses me of charging 400,000 Democrats with being Socialists," said Senator Hanna in his speech here yesterday. "I said no such thing, but what I do say is that Tom Johnson and his propaganda are Socialistic at heart and Socialistic in practice. And now I want to plead with you the slimy serpent has raised his head to strike and to kill.

"If you are so unfortunate as to send a Democrat to the senate it will avail you nothing," said Mr. Hanna. "He will go to Washington all right, but he will simply take his seat in the back of the room on the mourners' row. If I go back to the senate, and I will go back, I hope to do effective work in your interests, for President Roosevelt is certain to be again the chief executive of the nation and the next congress is certain to be Republican."

Mr. Hanna disposed of Democratic charges and queries with a single sentence yesterday. "Every statement Tom Johnson has made and is making against me is absolutely false and he knows it," said the senator. "He charges me with using my political influence to secure franchises. Well, that comes pretty near being libelous, but Johnson is a poor man and I will attack him."

WELLSVILLE OFFICIALS VISITED CITY HALL

Also Inspected the Fire Station With a View of Getting Information.

Mayor W. L. Fogo and City Solicitor Charles E. Boyd, of Wellsville, were visitors in the city last evening. They called at the city hall and paid their respects to the officials around that building, after which they called at the central fire station.

Though the two visitors would not make a statement as to their object in calling at the fire station, it is understood that the officials of Wellsville are going to make an endeavor to better equip their fire department, and were making an inspection of the central station for the purpose of gaining information that would assist them in carrying out the proposition. The fire department in Wellsville is badly crippled, having no horses and it is the intention to purchase two animals and go to considerable other expense along the same line.

Day of Atonement.

Yom Kippur, or the day of atonement, the most solemn religious day in the Jewish calendar, commenced Wednesday evening at sunset and continued until sunset last evening. During that time no orthodox or reformed exponent of Judaism touched food or drink.

HEALTH BOARD TO TAKE ACTION

Bill of Dr. Ogden for Services In Smallpox Case May Cause Contention.

RIGHT TO DO SUCH WORK

Is Called in Question As Result of Action On Councilman Moon's Bill.

DOUBT ABOUT THE CASE

At least three very important meetings are scheduled for this evening. It is the regular meeting night of the board of health, the board of public service and council will meet in adjourned session.

At the session of the board of health it is expected more friction will develop than at any meeting held by that body since its organization. A large number of bills are to come before the board for consideration and one of them, it is said, will meet serious objection on the part of certain members. It will be remembered that several weeks ago when a case of smallpox was reported in the West End, Dr. C. B. Ogden, the city's health officer, volunteered to attend the case for $15 per day, he to furnish the medicine. It is contended that Dr. Ogden has no legal right to work for the city in any other capacity than that of health officer, and that the case pronounced smallpox was nothing but a severe case of chickenpox.

The alleged case of smallpox has been pronounced cured, the quarantine having been raised. It is said that while the person was sick with the supposed dread disease she ate regularly three times a day, and during the entire period of confinement in the house was never known to be abed only at night. There are a number of well known local physicians, it is alleged, who have stated positively that the disease was only chicken pox. The physician who had the case in charge when it was turned over to the health officer, it is said, would have willingly attended the case for much less than $15. Those objecting to the bill, it is said, do not favor paying at the rate of $15 per day for services of such minor consequences.

It is not expected that an attempt will be made to prove what the disease was, such a job being almost impossible, physicians always differing on such questions. However, the point will be raised as to the health officer's legal right to do the work. It is alleged by persons interested that Dr. Ogden has no more right to sell his services to the city than had Councilman Moon to sell feed. As a matter of fact Dr. Ogden receives a salary for his work, and it is alleged that he cannot be paid by the city for work incident to the position.

Council and the board of public service will attend to several matters very important to the municipality, and every member of both bodies have been earnestly requested to be present.

DIXONVLILE SCHOOL WILL OPEN MONDAY

The Worry of the Township School Directors Will Now Be At An End.

The directors of the Liverpool township schools are now resting easy. It will be recalled that Enos Jones, one of the members, reported at the city hall a few days ago his fear of spending time in the penitentiary or some other institution because the Dixonville school could not be opened on the date agreed to by the directors.

His fear originated from the delay of a school furnishing concern which was contracted with to supply seats for the new Dixonville school.

The seats arrived in the city yesterday and the school house will be ready for occupancy on next Monday.

Called a Pastor.

Lisbon, October 2.—(Special.)—The congregation of the Reformed church, which was organized in Lisbon less than a year ago, has extended a call to Rev. C. H. Brandt, of Phoenixville, Pa., to become its regular pastor. Thus far the pulpit has been supplied somewhat irregularly by visiting ministers.

A MILK CONTRACT IS IN DISPUTE

Case Involving the Continuance of a Verbal Contract Comes From Moultrie.

Lisbon, October 2.—(Special)—Attorney Charles S. Speaker will go to Moultrie tomorrow to try a case in which a creamery company has brought an action involving an interesting question. The matter in dispute is as to whether a creamery company, under a verbal contract, can compel a party to deliver milk for a whole year. Such a contract was made in this case, but the party delivering the milk quit in about six months, and gave his supply to another creamery.

The proprietors of the Moultrie Creamery allege all their contracts with employers and milk dealers are made by the year, and this decrease in the milk supply is a serious handicap. Mr. Speaker will represent the plaintiff.

MRS. M. A. CROXALL HAS PASSED AWAY

The Oldest Native Born Resident of the City and Highly Honored.

HER LONG, USEFUL LIFE

The death of Mrs. Mary Ann Croxall occurred last night at 10:30 o'clock at her home on West Third street, where she had lived for the past 35 years. Mrs. Croxall was in her seventy-eighth year, and was the oldest native born resident of East Liverpool.

Her husband, the late Jesse Croxall, who died in 1881, was one of the pioneers of the pottery industry here.

The funeral services will be held at the late residence Sunday afternoon at 2 o'clock. Rev. T. V. Milligan, a former pastor of the First Presbyterian church here, is to officiate, assisted by Rev. C. G. Jordan. The interment will be private at Riverview cemetery.

Mrs. Croxall was the daughter of the late Thomas Carey and was born in this city. When she was but a few years of age her parents moved to Hookstown, where she spent the years of her girlhood. It was at Hookstown that she was married to Mr. Croxall. Returning to this city Mr. Croxall, with his brother, purchased of the late Mr. Bennett the pottery located near the corner of Washington and Second streets. This was the pioneer plant of this city or section.

Owing to ill health Mr. Croxall disposed of his interest in the pottery and engaged in other pursuits. At one time he occupied and owned the property now known as the Bradshaw addition. Mrs. Croxall had, at a very early age, united with the Presbyterian church and she took a prominent and important part in the religious affairs in this city. She was closely identified with the auxiliary organizations of the church and accomplished a great deal of good, becoming noted for her charity. Her own life presented an example worthy of emulation and she possessed those traits of character that endeared her to all. Her acquaintance in this city was unusually large, through her activity and energy in affairs that affected the social and religious side of life. Her untiring efforts have done much to advance the cause of Christianity and her compassion for the poor has saved many an hour of suffering. Mrs. Croxall remained a leader in such work until the infirmities of age compelled her to give way to younger members of the church.

With the exception of three years spent at Trenton, all the years of Mrs. Croxall's life since her return from Hookstown in early womanhood, have been spent here and they have been full of good deeds and kind actions. Of the seven children born to Mr. and Mrs. Croxall, two survive, Frank H. Croxall and Mrs. George C. Murphy, both of this city.

Mrs. Croxall had been an invalid for almost a year, and although it was apparent that the infirmities of age were undermining her rugged constitution, it was the hope of her near relatives and friends that she might be spared to them for a number of years. The infirmities became more pronounced as the days passed, and for the past 10 months she had been confined to her room. Last Sunday she became very much worse and was seen to be failing very rapidly. What is thought to have been a slight attack of pneumonia developed, resulting in her death.

BENTLEY POPE BADLY INJURED

Well-Known Former Resident Thrown Headlong Upon Brick Pavement.

UNCONSCIOUS FOR SOME TIME

He Rallied From a Dazed State and Recovered and Went to Work.

HIS ESCAPE A NARROW ONE

A dispatch from Coshocton states that I. Bentley Pope, president of the Pope-Gosser pottery, of that city, was violently thrown from his bicycle, on Main street, Wednesday evening about 4:30 o'clock, and an ugly gash was cut in his head just over the right eye. He was rendered totally unconscious for a quarter of an hour and remained dazed for about an hour.

Mr. Pope was riding home from the pottery at a good rate of speed. At a point on Main street between the restdince of Capt. J. M. Compton and Judge C. B. Hunt, he was seen to suddenly pitch over the handlebars of his bicycle and light squarely on his head on the paved street.

Some of the women and children in the neighborhood rushed to the spot but were so excited that they were unable to do anything to revive the injured man. He lay on the street for at least five minutes before anything could be done for him. J. M. Compton happened along with his buggy and with the assistance of Russell Hanlon lifted him into the buggy and took him to his home at the corner of Seventh and Main streets.

The wound bled profusely and a pool of blood was formed where Mr. Pope's head lay on the street. His face and head were completely covered with blood and it was feared he might be very seriously injured.

Dr. Carr had been summoned and had arrived at the residence by the time Mr. Pope was carried in. An ugly three cornered cut over the right eye and a number of minor bruises were found. Mr. Pope soon rallied to his senses.

He was at a loss to know how the accident occurred and could not remember the slightest thing about it for some time, but the next morning he stated that he remembered seeing a piece of brick lying on the pavement directly in front of him and that he was unable to turn his bicycle out of the way.

Mr. Pope was feeling much better yesterday morning and went to the factory again as usual.

TERMS OF SEPARATION FIXED IN ADVANCE

Middleton Township Couple Arrange Preliminaries Before Seeking a Divorce.

Lisbon, October 2.—(Special)—Anna E. Burson, of Middleton township, is plaintiff in a divorce action which will be filed in court here today against George H. Burson.

The marriage of the two parties took place September 6, 1895, at Chillicothe, O., and in spite of her husband's intemperate habits, the wife lived with him continuously until August 12 last, when they separated, each signing a post nuptial agreement which the court is asked to make final and binding by decreeing a divorce.

By the terms of the mutual agreement entered into on the date of their separation, the wife has custody of their two children, Harry, aged 6, and Grace May, aged 3 years. The children will continue in her custody until April 1, 1904, provided she remains a resident of Middleton township, but in case of her removal the father becomes their custodian. On April 1, 1904, the father gets custody of the boy. The agreement further provides that the father shall continue to the support of both children and that either parent my visit the child in custody of the other parent at any suitable time.

A division of their land and household effects is also agreed upon, the wife getting 22 acres along with numerous articles of furniture, etc.

Library Board Meets—A meeting of the board of directors of the Carnegie library will be held this evening. The report of Miss Gertrude Baker, the librarian, will be received and other routine matters will be considered.

WITH THE WORKMEN IN THE CLAY PLANTS

NEW CASTLE.

Local No. 54 held a very interesting meeting with a fair attendance. The communication from the national president was read in regard to the two years' agreement with the manufacturers. A special meeting was called for Monday, September 28, to act on the same. The meeting was held and the result was sent to President Duffy.

In regard to the potteries here, the Universal is not doing much. Mr. Simpson, the manager, can not get along with his men. He tries to ignore the rules of the sanitary ware pressers, and when the shop committee calls him down he makes it so warm for them that they quit. Then he tries it on the new shop committee with the same result. Last winter there were 35 journeymen pressers. Today there are but 12, the balance becoming disgusted and leaving. Brothers Tom Gourley, Minnie and Hoffman, pressers, went away last Saturday, with Brother Cope, a kilnhand. The China works are doing well, but there is one grievance there in regard to the price paid for gilding. The lister and the shop committee only ask for $2.50 per day, which is the price paid in East Liverpool. The firm is waiting, claiming the matter is in the hands of the standing price list committee.

Matters at the Shenango are entirely different. Everything is on the rush. The firm is rushed with orders. This is the first time the shop has been rushed to its fullest capacity. Dan McCarron is a hustler and is going to make a grand success of the Shenango Pottery company.

Tom McKeone, Messrs. Murphy and Bartly, coverdish makers, have orders to make five dozen every day, or as much more as they like, but no less.

W. J. McKeone, who has taken charge of the big dish bench, has secured a helper and will now give the firm what dishes they need.

Brother Braley, the apprentice dishmaker, has gone to Coshocton, and George Brown, of East Liverpool, will take his place. Brother John Leese has gone to Crooksville to work in the new shop.

MANY CHANGES.

In the settlement of the pottery wage scale for the next two years are involved many issues of vital importance to the trade and they will be discussed for many a day. The course of action pursued and the results obtained will cause a number of innovations that were not even contemplated at the Wheeling convention. For instance, a proposition for a wage agreement to endure for a term of years was defeated, the majority of the delegates then thinking it unwise to bind themselves to a working agreement for longer than one year. Already there has been some talk of doing away with the convention, which ordinarily would be held next year, and adopt the plan of biennial conventions. The election of officers next May and any other matters other than wages could be settled by a referendum vote of the trade. It is pointed out that the holding of biennial conventions would save several thousands of dollars to the organization and other good arguements are advanced.

A WESTERN TRIP.

Now that the wage matters have been settled President T. J. Duffy, of the N. B. of O. P., will turn his attention to the formation of local unions at several of the new pottery towns. So strong is the organization that no trouble is experienced in incorporating the operatives at the new potteries in unions. One reason why this is an easy matter is that a majority of the operatives have at some time or other worked in this city, where the sentiment of unionism is predominant, particularly among the pottery operatives.

President Duffy left today for Evansville, Ind., where he will organize a local among the operatives of that city. From Evansville he will go to Tiffin, where he will visit the local organized there several months ago. After the Tiffin visit he will go to Cameron, where he will form a new local from the employes of the Benedum plant, the arrangements for which have already been made.

POTTERY NOTES.

Arthur Shaw has been helping out in the dish shop at Goodwin's.

Sam Shipley, of the kiln drawing crew at Thompson's, has resigned.

Fred Owens, who has been working at Minerva, has returned to this city.

Henry Smith, the presser, has changed from the Colonial to Goodwin's.

Joe Cartwright, the baker maker, has resigned his position here to accept one at Ford City.

Quite a number of Salineville operatives have arrived in the city since the shut down at the Dresden plant there.

Cartwright's will soon install the new jumbo jigger, recently ordered. The machine has been completed and will increase the output of the firm in this line of work as the old one will be used.

A DEATH KNELL TO OLD ECONOMY

Sounded by the Auctioneer Selling Off the Famous Society's Effects.

FIVE MEMBERS ARE LEFT

Of the Once Powerful Organization. Their Property Now Goes Into the Hands of Strangers—Peculiar and Pathetic Scenes.

Economy, Pa., October 2.—Within sight of the graves in which repose the remains of many of the pioneers of the quaint and once world-famous settlement, their treasured possessions, crude but historic implements of their handiwork and other objects which have characterized the great farm of the Harmony society, were sold yesterday for a mere song. The auction of the equipment, implements and live stock of the Economites which began yesterday morning was picturesque, pathetic and throughout interesting.

The staid village with its wide, unpaved streets and houses constructed of home-made bricks, perhaps never before in its history witnessed the business activity and confusion which prevailed yesterday. Farmers and stockmen from all the nearby towns were present at the big sale, hundreds of curious sightseers were here, and a number of beggars and fakirs mingled with the crowds. In many respects the town indicated that it was the scene of a country fair. The disposal of the effects of the Harmony society marks the beginning of a new era for the vast acreage of fertile ground which for almost a century were tilled by the thrifty Dutch and Germans.

The great farm which yielded millions to the Harmony society was yesterday practically abandoned, and within another year the verdant pastures will have been dotted with modern new residences; many historic landmarks will have been supplanted by other buildings, and scarcely anything will be left as a monument to the once sanctified territory of the big and distinctively peculiar family of Father George Rapp, the founder of the colony, except three blocks in the central portion of the town, in the enclosure of which are a series of magnificent but odd buildings, a pretty graveyard in which sleep about 100 Economite husbandmen and their families, a church and the "town hall," whose famous curfew bell is now silent forever.

Were the proceeds of the big auction sale devoted to memorials for the members of the society whose mounds are located under the graceful trees in the midst of the town, the money would scarcely buy half of them crude headboards. Every farming implement, all the stock wagons, harness, and, in fact, everything that will not be needed by the five surviving members of the society, was placed under the auctioneer's hammer yesterday, and the prices received in every instance for the stock and goods was astonishingly low.

The equipment of the farm was, perhaps, the most complete in this section of the country, and, therefore, the sale attracted many prominent farmers of Beaver, Allegheny and Butler counties. The auction was conducted at the old barns of the society in the middle of the town, and almost continuously during its progress several hundred persons participated in the bidding, inspected the stock and the several car loads of farming tools, fixtures and what not. In the large collection of stock and implements were many curious relics. Some of these time-honored fixtures of the farm which had more than intrinsic worth to the honest and sturdy, peace-loving Germans, who worked and worshipped in homespun garments, were almost given away by the auctioneer, who, in a fog-horn voice, shouted, "Going, are you all done? Sold for $10," on numerous occasions when he prodded up a fine Jersey milch cow and announced that it had been sold to the highest bidder.

Sixty head of cattle, embracing Jerseys, Herfords, Holsteins and mixed breeds, were placed on the block, and they brought on an average the ridiculously low price of $13. In the herd were a few cows which have almost outgrown their usefulness, and which have furnished milk to more than one generation of Harmonites. The prices received for those would scarcely pay for their shipping to Pittsburg. A number of fine Jersey cows, which were fresh, young and healthy, were sold for $20 each, while a number of good horses were sold at remarkably low prices.

Everything necessary for the cultivation of a farm was placed on sale yesterday, from the most improved harvester to a grubbing hoe. The bidding was not spirited on the larger implements and machinery, therefore it was decided to hold over these goods until today, when the sale was continued. Many of the tools which for almost three score years were used in the fields by the Economites were manufactured by their hands or by their forefathers. These were religiously treasured by the members of the colony for years, but yesterday the queer collection was desecrated by the eager crowds of curiosity and bargain seekers.

An old buck saw, the teeth of which indicated that it was home made, and whose handles were fashioned from hickory, was knocked down to the highest bidder for 5 cents. A cattle yoke, the bow of which was maple, and which was probably made in the early part of the last century by some patient member of the old colony, was thrown into the crowd by the auctioneer, as were crude but substantial objects required on a farm. Apple butter paddles, great iron kettles, wine casks, whose age had rendered them very valuable, grindstones and cider presses, were practically given away by the auctioneer. None of the five members—all that are left of the prosperous society—was present at the sale yesterday.

While the quintet has a splendid home and every comfort that wealth can provide, the bass voice of the auctioneer yesterday sounded to the five a death knell for old Economy. The sale proclaimed the actual abandonment of the 3,800 acres which were purchased by Father Rapp and his followers in the spring of 1805, and that the undulating green hills and meadows will soon be converted into a busy hustling business and manufacturing community depriving them of the quietude which has prevailed at Economy since the inception of the colony.

The members of the society who now dwell in the miniature new Economy in the midst of the old farm are: Franz Gilmann, Christina Rall, Barbara Boesch, John S. Duss, the trustee of the society, and Mrs. Duss.

The four blocks in which the few members of the old society reside is enclosed by a tall white painted board fence. The buildings and grounds are practically unchanged since the famous regine of Father Hendici, the aged trustee of the society who died about 12 years ago. The group of buildings and the ground within the enclosure will be retained by the survivors of the society for life. Each of the members save Mrs. Duss has reached an advanced age, but are hardy and happy, and while wealthy and with every means at their disposal to provide themselves with luxuries, they still adhere to the provincialisms and customs which characterized their ancestors.

Six months ago the Economy farm was sold and transferred to a land company. Since then the sale portions of the farm have been leased. These leases will all expire after harvest. Then the territory will be laid out in building lots and converted into a pretty modern residential district.

The old grist mill, which has been a landmark in Economy for at least 80 years, and which is now in a state of decay, will soon be razed and replaced by a large new series of dwellings. The old barns will also soon come down, and within another year nothing will be left of the original settlement but the group of dwellings, the dance hall, church and the graveyard, with its weeping willows and white tombstones, in the center of the town.

Star Bargain Store

The Greatest Sale of Tailor Made Suits, Jackets, Dress and Walking Skirts, Waists and Millinery for Tomorrow and Monday.

Tailor Made Suits

We never sold half as many tailor made suits as we do this season, our styles being right and prices from one-fourth to one-third lower than any place in town. Many customers told us that our suits are from $4 to $8 less than they could get elsewhere. You will say the same if you will look around and then see our line and learn our prices. For tomorrow and Monday we will offer some astonishing bargains in suits which we have no room to enumerate, but be sure to see them.

Tailor Made Skirts

We are selling lots of walking skirts these days. It is our line and low prices that does the business. Come and see our line of walking skirts at $1.98, $2.98, $3.98, $4.98, $5.98, $6.98 and $8.98. 100 more of our fine broadcloth skirts in black, blue and castor with drop linings, which are fully worth $7, will go as a flyer for $4.98. We have them in all sizes. Better skirts at special sale prices.

SLOT MACHINES SMASHED

Beaver County District Attorney Takes Summary Means to Abolish Them.

Beaver Pa., October 2.—District Attorney D. K. Cooper yesterday destroyed 11 slot machines, which had been seized by Sheriff Howard Bliss during recent raids on gambling houses in the Beaver valley. The machines were thrown from a window in the top floor of the court house and those that were not sufficiently smashed by the fall were knocked to pieces with an ax.

A large crowd watched the machines being destroyed. A few nickels were found in the debris. The bulk of the money had previously been taken from them and will be used to help pay the cost of prosecution.

Be Prepared.

In preparing for your summer outing a little forethought may save you no end of trouble. Mr. John H. Manly, a dry goods merchant, of Bellville, R. I., while packing an outfit for camping a few weeks on Narragansett Bay, put in a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy for emergency use. The second day in camp his little boy was taken with cramp colic. The first dose of this remedy gave relief and the second dose effected a cure. Think of the pain and suffering this boy would have had to endure without this remedy at hand to relieve him. Such cases often result fatally. For sale by Alvin H. Bulger.

STREET CAR CONDUCTOR THROWN BY A CAR

Attempt to Board a Moving Car Resulted in Conductor Smith Receiving Painful Injuries.

Conductor Smith of the East Liverpool line, was painfully injured about the head yesterday afternoon in attempting to board a rapidly moving car at Ralston crossing. His escape from being thrown under the wheels was a very narrow one and he is congratulating himself that his injuries are not of a more dangerous character.

Smith had finished his run for the day and was not in charge of the car which brought about his injury. He lives in the nighborhood of Ralston's crossing and attempted to board the car to ride to the city. As the car passed he prepared to swing aboard, but he stumbled over some obstacle just as he was about to make the last step and lost his footing. He was thrown to the ground with great force, sustaining a number of deep cuts and several bruises about the head and face.

Smith was taken to the office of Dr. R. J. Marshall, where his injuries were attended to. He was able to walk around this morning, but he will not be fit for duty for a week or more.

ARE WELL SATISFIED

People Along Railroad Street Agreed to Building of a Four-Foot Fence.

Property owners and those living along Railroad street are very well satisfied with the fence the railroad company is having built along its right of way. Statements to the contrary are untrue and the people think it is doing the railroad company an injustice.

Before the work was commenced it was announced that the company would build a six-foot fence. There was objection on the part of the people to this and a conference with the company was sought. Through the efforts of City Solicitor Davidson and several prominent East Enders the company agreed to a four-foot fence. The people realize the necessity of the barrier and are now very well satisfied.

Car of Clay Went Wrong.

Work has been suspended at the Klondike pottery on account of the shortage of clay and it may be several days before work can be resumed. A car of clay consigned to the firm was sent to East Palestine by mistake and was unloaded there. Now the operatives will be compelled to loaf until another car is received.

Foot Ball Tomorrow.

The East End foot ball enthusiasts will turn out en masse tomorrow to see the first game of the season at Columbian park. The Oakland Athletic club is to meet the first Sebring team and a great contest is in prospect. The Dixonville Tigers will play a Wellsville team at the school house grounds tomorrow.

Organizing at Smith's Ferry.

District Deputy D. Frank White, with the able assistance of O. D. Culbertson, is at work among the people of Smith's Ferry for the purpose of organizing a lodge of the Protected Home Circle. As a result of the work done so far quite a number of names have been secured and the success of the undertaking seems assured.

PEARL HUNTING

A Permanent Industry at Canal Dover. Some Good Finds Reported.

For the last two weeks there has been a regular craze in this city for hunting pearls in the Tuscarawas river near Canal Dover. Some one discovered that some of the common fresh water mussels contain pears of a fairly good quality and since then hundreds of people have been dredging the river with fairly good success.

The pearls found vary in size from the small slugs to half an inch in diameter and bring anywhere from $1 to $100. John E. Ross, a New Philadelphia jeweler, has the finest one, which has been found near his place. It is valued at about $100.

The pearl-bearing mussels are found about three miles above that city. Pearl hunting bids fair to be a permanent business.

JAIL BREAK ATTEMPTED

Martin's Ferry Murderer's Plot to Escape from Prison Is Frustrated.

St. Clairsville, October 2.—A bold attempt to break jail was discovered in time to prevent the escape of five prisoners, who are awaiting trial for murder. Harry Bowers, who held up and robbed Dr. R. H. Wilson, of Martin's Ferry, had secured two small files, with which he had removed a section of the metal floor of his cell sufficiently large to permit his body to pass through.

He was at work on the concrete beneath, when the flickering light in his cell was discovered by Jailer Clyde Bulger, and he was removed to another cell.

When Tom Johnson began his crusade for "just taxation" in Cleveland, the tax rate was 2.67 per $100 valuation. Despite the fact that, under the wise, businesslike administration of Governor Nash, the state tax has been cut in half, the rate for Cleveland this year will be 3.01 per $100. What is more, the bonded indebtedness of the city has been increased from $13,000,000 to $17,000,000, and its credit has gone from good to bad, the late offer of bonds at a 4 per cent rate attracting few bidders, although the city had previously found a ready market for its obligations at a figure that netted the buyer less than 3½ per cent. There are 106 office-holders in Johnson's Cleveland machine drawing an aggregate salaries of $296,756. These officials return a total valuation for taxation of $41,195 and contribute the niggardly sum of $1,238.33 to the county treasury. Charles Salen, chairman of the Democratic state committee, is county clerk and draws the same salary as the president of the United States—$50,000. He makes no return and pays no taxes. In view of these facts, Clevelanders are awakening to the fact that they have been made victims of a bunco game; that Johnson, while preaching just taxation, is surrounded by a gang whose sole purpose is to loot the public tills.

Ohio has again disgraced herself by a lynching. Mob spirit made sad work in the staid college town of Oxford. Every such outbreak by a mob works more harm than the most diligent efforts of reformers can counteract in years. A stern application of the law, to discourage future lawlessness, should and doubtless will follow. Ohio has no more sympathy with lynching than with any other form of anarchy.

The treasury surplus has been reduced and it is surely not an alarming amount of stored-up wealth for a country as great as the United States. Yet it continues to worry the Democrats. They produced a deficit of huge proportions in a short time when they last attempted to manage the nation's finances, and would do it again in a hurry if they got a chance.

War is inevitable between the United States and Germany, says a Chicago professor who has just returned from the latter country. Wonder where he got his tip? Our friend the kaiser has acknowledged the Monroe doctrine, as well as our trade supremacy and there is little else left to quarrel about.

The triumph of Tom Johnson in Ohio would make the land owners bear all tax burdens. The farmers of this commonwealth will take good care that he does not triumph.

Testimony in the Tillman trial shows that the ex-lieutenant governor of South Carolina had in him more of the coward than of the desperado.

Railroad earnings continue to increase, which is pretty goood evidence that there is nothing radically wrong with the business situation.

The subsidence of the base ball season gives the women golf champions their opportunity and columns of notice in the daily papers.

The Chicago papers loudly boast that the stock yards attract more attention than the art institute as a centennial exhibit.

The Boston champions are likely to discover what really good ball playing is before they get through with Pittsburg.

Japan seems anxious to get mixed up in the oriental imbroglio. The way is easy.

The one-minute automobile has arrived along with the two-minute horse.

OBITUARY

John Morrison.

Lisbon, October 2.—(Special)—Relatives here received word late yesterday afternoon of the death of John Morrison, son of the late Harvey Morrison, a well known Lisbon lawyer which occurred in Cleveland yesterday afternoon. Death was due to consumption, with which he had been very low for some time. Mr. Morrison was born in Lisbon about 35 years ago and had spent most of his life here. The body was brought here at noon today and at 3:30 o'clock funeral service will be held at the home of Mrs. Ora Morrison, stepmother of the deceased on West Walnut street. Rev. J. A. Ulman, of the M. E. church, will officiate at the services, which will be private on account of the enfeebled condition of Attorney John W. Morrison, an uncle. Interment in the Lisbon cemetery.

Iron Works Destroyed by Fire.

Canton, O., Oct. 2.—A portion of the Novelty Iron company's plant was destroyed, with a loss of about $150,000. The fire is supposed to have been caused by a spark from a passing locomotive. The frame structure, which includes the pattern making department, the setting-up room, coke sheds and scratch room, were destroyed, and the machine shop and other portions of the plant were badly damaged by water.

Three Legal Names in One Day.

Wheeling, Oct. 2.—Mrs. Tillie Crow had her name changed twice by process of law. She was granted an absolute divorce from her husband, John A. Crow, her maiden name of Crubaugh being restored. With the decree in her hand she appeared in the county court, secured a marriage license, and within two hours was Mrs. John W. Woodward.

Ohioan Equals World's Record.

Austerlitz, Ky., Oct. 2.—At the annual live bird shoot of the Hilltop Gun club, situated on the famous Clay farm near here, C. W. Phellis, of Mechanicsburg, O., equaled the world's record and set a new record for the state of Kentucky by scoring 50 straight in a 30-yard boundary. Heikes, of Dayton O., scored 48; Gilbert, of Spirit Lake, Ia., 47, and Hirschey, of Minnesota, 44.

Always Reliable

We are not trying to establish a reputation for "lowest cut rates." We are not trying to make the biggest show. We do not claim the earth. Our ambition now is just what it was years ago—to deserve the reputation of always being reliable. We won that reputation honestly and it cannot be taken away from us. In drugs reliability is the most important consideration.

SOCIAL EVENTS

THE MOCK TRIAL A BIG SUCCESS

ALL OF THE CAST CARRIED OUT THEIR PARTS FINELY.

Entertainment Under Auspices of Ladies' Auxiliary of Y. M. C. A. a Most Amusing One.

The mock trial of an alleged breach of promise suit, given at the opera house last evening under the auspices of the Ladies' Auxiliary of the Y. M. C. A., attracted a large audience and was a fine entertainment. Judge, counsel, witnesses and attorneys all acquitted themselves with credit and sallies of wit kept the crowd in roars of laughter.

The case was that of Mrs. Jerusha Rugg Perkins, a widow and boarding housekeeper, against Herman Feustel, Jr. The sum of $3.98 was claimed for alleged breach of promise to marry. The testimony developed that Feustel was not at all willing to please the widow, who was in a marrying mood, but was exceedingly anxious to wed the widow's niece, Miss Jerusha Ray Perkins, and that love letters and poems addressed to the latter had been appropriated by the former. The characters in the play were in the following capable hands:

Judge—M. C. Wright.
Plaintiff—Miss Nina Kinsey.
Defendant—Herman Fuestel, Jr.
Prosecuting Attorney—Col. A. V. Newton, of Worcester, Mass.
Defendant's Attorney—Frank E. Grosshans.
Court Officer—Homer Morris.
Court Crier—W. V. Harris.
Clerk of Courts—Willis Davidson.
Witnesses—Dr. W. A. Hobbs, Justice H. P. McCarron, Mrs. John Sellers, Joseph Betz, Miss Maud Webber.
Jurors—F. M. Leasure, Will Morris, W. J. McKinney, D. F. Nellis, Dr. C. H. Birkett, C. L. Gray, W. S. Smith, O. N. Earl, R. G. Otterman, Adam Hill, W. W. Webster, E. W. Bartlett.

The jury, in duty bound to pay no attention to the evidence, the arguments, or the judge's charge, found for the plaintiff and decided that the $3.98 should be divided, $3 going to jury and 98 cents to the judge. The ladies in the cast were well skilled to handle their difficult parts, and 'Squire McCarron, Dr. Hobbs and Joseph Betz proved star witnesses and told some remarkable tales. Col. Newton won new laurels as prosecuting attorney, and F. E. Grosshans, the counsel for the defense, conducted his side with distinguished ability. His closing argument was a gem. It was a pleasing performance throughout—as good as a play and better than many plays.

Farewell Reception.

The missionary society, the Ladies guild and the Girls Friendly society of St. Stephen's church united last evening in giving Mrs. William Stubbs a farewell reception. Mr. and Mrs. Stubbs will leave in a short time for England, where they will reside. The entertainment was in the form of a social, each member present expressing their regret upon the departure of one of the most willing and active workers in the church. The ladies of the society served refreshments, after which each one of the societies presented Mrs. Stubbs with a handsome remembrance, as a token of their high esteem for her. The gifts were a bible, a gold cross and a gold thimble. Rev. Edwin Weary made an address when the presentations were made. The event was a complete surprise to Mrs. Stubbs and a social success.

Wedded at Calcutta.

THE BOND PROTECTS YOU

Will Reed Gives Signed Bond, With Mi-o-na, the Flesh-Forming Food.

With every box of Mi-o-na, the flesh-forming food, and digestion regulator, Will Reed gives the following guarantee bond, binding him to refund the money if Mi-o-na does not give an increase in weight and cure dyspepsia and all stomach troubles.

GUARANTEE BOND.

I hereby agree to refund the price paid for Mi-o-na if the purchaser tells me that it has not increased flesh and given freedom from stomach troubles. WILL REED.

For years there has been a demand for a natural means for increasing flesh, and Mi-o-na has come to supply this need.

It is not a cod liver oil preparation, but a combination of flesh-forming elements, that regulates and aids digestion and restores health. It mingles with the food you eat, aids its assimilation, tones up and strengthens the digestive organs, and puts the whole system in proper physical condition.

Every one who is troubled with dyspepsia, has that tired feeling, loss of appetite, or is losing flesh or is in a run down condition, should take the guarantee bond to Will Reed and begin the use of Miona at his risk.

Remember that treatment costs you nothing unless it does all that is claimed for it.

OUND THE PRISONER IN HIS WIFE'S LAP

dward McLaughlin's Charge Against Virgil Zearley—The Case Dismissed.

Virgil Zearley, a railroader who was rested in the West End early Wednesday evening, cnarged with carrying concealed weapons, upon complaint of Edward McLaughlin, was brought before the mayor last evening at 7 o'clock. A number of witnesses were called in and were examined by the mayor. Zearley pleaded not guilty. McLaughlin was questioned on the matter. He said that when he came home early in the evening he found Zearley in the house and in his wife's lap. He said that he at once ordered Zearley out of the house and that when he left the yard he threatened McLaughlin and put his hand to his hip pocket as though about to pull a revolver. McLaughlin said that he saw the butt end of the weapon in his pocket and that for this reason he made complaint against him.

Several of McLaughlin's neighbors who witnessed the affair and who were called in as witnesses, admitted that they had seen Zearley put his hand to his hip pocket, but none of the witnesses admitted having seen the revolver. The mayor dismissed the case, after giving Zearley some good advice. The mayor told him to stay away from the McLaughlin home, as he had no business there.

First Dance of the Season.

Prof. H. G. Bailey, of Alliance, gave his opening dance of the winter season last evening in the city hall. The dance was attended by a fairly good crowd, including several from East Liverpool. Mrs. Bailey furnished the music and rendered several new and popular dance selections, which were appreciated. The evening was most enjoyably spent. Mr. Bailey proposes to hold a dance here every Thursday evening during the winter.

FIRE PROTECTION IS DEMANDED

A Strongly Worded Petition to Council Urges Action in the Matter.

The Chester council will be presented with a petition this evening, the importance of which can scarcely be calculated. The News Review touched a popular chord when it took up the question of fire protection in Chester, and the outcome of that agitation has been an uprising among the citizens and property owners. There can be but one result, since the best and heaviest taxpayers in the entire community have taken the matter up. The council must take decisive action and that at once.

A petition was prepared a few days ago, and has been widely circulated. The heading reads as follows:

"To the Honorable Council of the Town of Chester:

"We, the undersigned citizens of the town of Chester, do petition you as follows:

"That our rapidly growing town is in sore need of fire protection, the rates for insurance having doubled during the past year, and have now reached a point that renders it almost impossible for the average wage earner to pay. In justice to your citizens and to perpetuate the present unprecedented growth of our thriving little town, we pray that your body at once take the necessary steps that will give to us adequate fire protection."

The document has upwards of 100 names upon it, and when it is placed before the council tonight there will be men on the ground amply able to put forth a good strong argument in favor of its provisions being made a law.

It will be remembered that the town of Chester had a liberal proposition from the water company many months ago. The acceptance of the terms of that contract was prevented by certain citizens who failed to realize its importance at the time. Now, it is said these very men are more anxious than anyone else to have the council act promptly in the matter of providing adequate fire protection for Chester.

GIFT TO SUPT. BROWN

St. Railway Employes' Testimonial to the Popular Bridge Official.

Supt. R. S. Brown, custodian of the East Liverpool bridge, will sever his connection with that institution today and a little surprise was planned for him by the employes of the East Liverpool & Rock Springs street railway.

In his duties as superintendent Mr. Brown has been intimately associated with the employes of the street railway, and no one regrets his departure more than they. As soon as it was learned that he intended to leave a movement was started to procure for him a small token of the high regard in which he was held.

A committee selected a heavy solid gold band ring, inscribed on the inside with the words: "East Liverpool & Rock Springs Street Railway Boys, 1903." Upon the outside the beautiful keepsake contained Mr. Brown's monogram, "R. S. B." The present was handed to the retiring superintendent without ceremony, the feeling of friendship and the deep regret at his departure being so strong that it would not permit of speechmaking.

The New Bank.

It is not yet certain when the new bank will be ready for business. Judge John A. Campbell, of New Cumberland, president of the company, has just made a trip to Pittsburg to purchase United States bonds which the bank must own and place in the proper depository of the government before beginning business.

An Answer is Filed.

An answer to the petition of Robert Pitcairn, of Pittsburg, for an injunction against the town of Chester, has been filed in the United States circuit court at Parkersburg. The case involves the ownership of First street in Chester.

CHESTER NOTES.

J. C. Lewis was in Pittsburg yesterday.

Sheriff C. F. Allison was in town yesterday, collecting taxes.

James Washer lost $130 Wednesday night at some unknown place.

Risinger Bros. today put up seven of the new gas street lamps ordered by the city. The entire town will be well lighted in a short time.

Rev. Mr. Wilson, of Mars, Pa., writes O. O. Allison that he is considering the call extended to become pastor of the new Presbyterian church.

The ladies of the U. P. church will give an oyster supper at Rock Springs park this evening. The ladies have made ample arrangements to serve the large number that will attend.

Dr. Charles H. Birkett, of East Liverpool, has brought suit before Justice Pugh against John Flannagan, of New Cumberland, for possession of real estate alleged to be unlawfully detained.

Negro Lynched in Texas.

Marshall, Tex., Oct. 2.—A mob of several men forced their way through the brick wall of the city jail with the aid of a telephone pole and with sledge hammers and crowbars took out Walter Davis, a negro, and marched him to the west side of town, where he was hanged to a tree. The lynching was the result of the killing of Constable Hayes while he was taking a negro to jail. Hayes was shot from ambush, being literally riddled with bullets. Shortly after killing the constable Walter Davis and two other negroes were arrested and lodged in jail at Marshall. A mob formed during the afternoon and attacked the jail. The Marshall musketeers were ordered out and arrived at the jail after the mob had secured the negro.

THE CAPITOL IS COMING

LONG VACANCY IN THE PASTORATE

h Is the Probable Condition of Affairs in the First Presbyterian Church.

all probability the First Presbyan church will be without a pastor the next two months. So far as ld be learned today no arrangets have been made for a congregaal meeting to consider the matter when it is taken up no hasty decision will be made. It has been stated that the pulpit will be supplied from Sunday to Sunday with ministers from neighboring cities and a definite announcement will likely be made tomorrow for the services next Sunday.

When the call was extended by the church congregation to the Rev. John Montgomery, of Findlay, it was not anticipated that he would be unable to accept. The petition of his congregation, however, to have him returned to Findlay, was recognized by the presbytery and as a result the spectacle of one of the best charges in the state "going begging" is presented.

The loss of Rev. Mr. Jordan is being felt keenly by the congregation of the church and particular pains will be taken to find some minister who will prove as acceptable. Probably the plan of having the prospective pastors preach at the church will be pursued and if this is done it will no doubt be several weeks before another call can be extended.

Found Body Hanging to Tree.

Wheeling, Oct. 2.—A party of farmers coming into the city over a lonely road along Caldwell's run found the dead body of William Kremke, 65 years old, hanging from the limb of a tree. He had probably been dead several hours. Kremke's home was in Martins Ferry, where nine children are living. Some time ago his wife secured a divorce.

The Cause of Many Sudden Deaths.

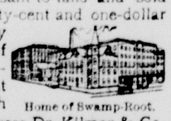

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co. Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghampton, N. Y., on every bottle.

New York, Oct. 2.—The September record for immigration was broken. The official figures for this port show an increase of 5,543 immigrants landed at Ellis island in excess of the number landed in September, 1902.

Curiosity Gratified.

Fairmont, W. Va., Oct. 2.—Desiring to see a bullet come out of a rifle, Benjamin Durr, the 12-year-old son of Jesse Durr, of Hoult, told his sister to pull the trigger. The entire top of the lad's head was torn off.

Lumber Plant Burned.

Monessen, Pa., Oct. 2.—The Peoples Lumber company plant, with the exception of the office, was destroyed by fire. Loss $50,000, insurance $13,000.

Deadly Toy Pistol.

Fairmont, W. Va., Oct. 2.—Philip Campbell, a 15-year-old boy of Grangeville, is dead of lockjaw. He was recently wounded by a toy pistol.

TRIFLING WITH YOUR HEALTH

Is like Playing with a loaded Gun. If you have Kidney Trouble attend to it at once.

It is easy to tell whether your Kidneys or bladder are diseased. Take a bottle or glass tumbler and fill it with urine. If there is a sediment—a powder-like substance—after standing a day and night, if it is pale or discolored, ropy or stringy, there is something wrong with the Kidneys. Other sure signs of disease are a desire to urinate often, pain in the back, or if your urine stains linen.

There is no question that Dr. David Kennedy's Favorite Remedy is the best and surest medicine in the world for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation, and the sicknesses peculiar to women. It quickly relieves and cures inability to hold urine and the necessity of getting up a number of times during the night, and puts an end to the scalding pain when passing urine.

The Rev. Henry P. Miller, pastor Baptist Church, Spartenburg, S. C., writes:

"For years I suffered with Kidney, liver and heart troubles, swimming in the head, dull headache and numbness of the limbs. Physicians prescribed for me and I took different medicines, but none of them did me any good. But Dr. David Kennedy's Favorite Remedy cured me in about two weeks."

It is for sale by all druggists in the **Now 50 Cent Size** and the regular $1.00 size bottles—less than a cent a dose.

PITTSBURG'S VICTORY OVER BOSTON TEAM

A Splendid Game Opens the Championship Series, 16,000 in Attendance.

Pittsburg, October 2.—Pittsburg in the first game of the world's championship at the Huntington avenue grounds yesterday won by a score of 7 to 3, gaining the winning margin of four runs after two were out and no one on bases in the very first inning. The showing made by the Bostons, especially in the early innings, was a bitter disappointment to the host of admirers and "stage fright" seems to be the only reasonable explanation.

While Cy Young lacked his best speed, which is the chief merit of his pitching, the contest would never have assumed its one-sided character had not Ferris and Criger "fallen down" in some unaccountable manner. Ferris was manifestly nervous, but why Lou Criger should have become inoculated with the same disease is inexplicable. When you analyze the game, Pittsburg, with all its splendid hitting, was entitled to only two runs, but the same was true of Boston on half the hits. The crowd numbered 16,242.

There was considerable money bet on the Boston-Pittsburg series and also on the outcome of yesterday's game. In the forenoon there was brisk betting and no less than $10,000 was put up. The prevailing odds were 10 to 8.

John Newell, a well known Pittsburg hotel man, won $1,000 of John Keenan's money for which he jeopardized $800.

OAKLANDS WILL MEET SEBRING'S FAST TEAM

First Foot Ball Game of the Season at Columbian Park to Take Place Tomorrow.

Foot ball enthusiasts of the East End will have the opportunity of witnessing the first game of the season next Saturday on the Columbian park gridiron. The fast team from Sebring has been booked by Manager Weaver for that day and a fine game is expected. Last year the Oaklands with a patched up team went to Sebring and were defeated by a score of 10 to 0. The Oaklands are confident of reversing this score in the game tomorrow.

Saturday is an excellent day for a foot ball contest and the East End enthusiasts will turn out en masse to see their favorites at work. The kick-off will take place promptly at 4 o'clock.

While the Oaklands will have a great deal the same eleven as in the game against the Rovers, they will miss big Bitner, who has gone to Akron to play with a professional team. He is a fast player and added a tower of strength to the line. The Oaklands missed "Ducky" Myler in that game with the Rovers and it is very likely that he will go in at quarter for them tomorrow. Mountford, the high school boy, will be at left half again.

Sebring has one of the strongest teams in the state and recently defeated Alliance 22 to 0.

The Oakland lineup will be: Price or Johnson, center; Flesch, right guard; Sanford, right tackle; Weikert, right end; Goddard, left tackle; Miles, left end; Gray, left guard; Angle or Hendricks, right half; Mountford, left half; Orr, full back and Myler or Little, quarter back.

Second High School Team Won.

The Second High school team won an unexpected game yesterday afternoon from the East End Tigers, in the gridiron contest at the East End school grounds. The school boys were up against a much heavier team but they managed to win by a score of 2 to 0. The only score of the game, a touch back, was secured by them. They punted the ball from the field to the Tigers' goal line and the Tiger Dwyer who caught the ball, was promptly downed. The High school boys are righly pleased at their victory owing to the fact that nearly all the Tigers' players were full grown men.

The lineups were:

High School.	Positions.	Tigers.
Ball	Left end	Petts
Barlow	Left tackle	Kane
Frost	Left guard	R. Wilson
Thompson	Center	B. Fetty
Wilson	Right guard	Carroll
Croft	Right tackle	L. Price
Miller	Right end	H. Mills
Cripps	Quarterback	C. Price
Smith	Left half	Schrowder
Gipner	Right half	Green
Wynn	Fullback	Terrence
Wells, Ritchey	Sub.	T. Wilson

Threw the Games.

William Phyle, captain of the Memphis base ball team, which won the Southern league pennant by the narrow margin of two points from Little Rock, managed by Mike Finn, is authority for the statement that Memphis was enabled to win by bribing opposing players in at least six of the games played. His statement caused a sensation in all Southern league cities where there has already been much talk and counter-charges of "laying down" in the closest pennant struggle that was ever witnessed in the south.

SPORTING MISCELLANY.

The Mt. Union college football team has elected Emory Powell for this season's captain.

Dr. C. F. Schiltz, formerly one of O. M. U.'s star players, has consented to coach the Canton football team during the rest of the season.

Mike Donovan, of Rochester, N. Y., is open to meet Jack Sullivan, Joe Walcott, George Cole or any of the 150 pound men who are looking for an opponent.

Mr. Billings is out with a statement that he will enter Lou Dillon for the Memphis gold cup if Smathers enters Major Delmar. There is very likely to be some great racing that day.

Jack Lowery, the featherweight, is out with a defi to all of the 126 pound men. Tommy Daly or Kid Goodman can have another crack at him or he will take on Jack Dorman in private.

LOCOMOTIVE SPARK STARTS A BIG BLAZE

Novelty Iron Works at Canton Suffer $15,000 to $20,000 Damage By Fire.

Canton, October 2.—The plant of the Novelty Iron works was damaged by fire last night to the extent of between $15,000 and $20,000. The frame portion of the structure, about 5,000x250 feet, was gutted, destroying the pattern making, the setting-up room, coke sheds and the scratch room.

The machine department was damaged by water and the roof was badly damaged over the foundry and testing department. The patterns in the brick vaults were saved and work will probably not be entirely suspended. The loss is pretty well covered by insurance. A spark from a passing locomotive is supposed to have started the fire.

DANGEROUS WORK IN THE BIG CITIES

Many Persons Engaged in Occupations That Imperil Their Lives Daily.

PROFESSIONAL CLIMBERS

And Others Who Have Duties to Perform on Tall Buildings And Some of the Risks They Run—Cool Heads Required for the Work.

Pittsburg, October 2.—That death constantly stares one in the face, is a thought that seldom troubles the mind of the average human being, but if the person who passes daily through the crowded streets of Pittsburg or any other large and busy city were able to realize the number of hairbreadth escapes daily encountered, he would be amazed.

The steeple climber and professional lofter who works on the tall building, is one whose life is constantly in jeopardy, and yet the number of accidents to such persons is small in comparison with the risk undertaken. The janitor whose duty is to clean the windows of a tall structure, is equipped with a device to render his position safe when it becomes necessary for him to step upon a lofty window ledge, and wash the panes hundreds of feet above the scurrying crowds. He is provided with a strong belt from which dangles a chain that snaps into rings at the sides of the windows, and this outfit makes it practically impossible for him to fall. Some janitors, however, seem more at home at these dizzy heights than when they are upon terra firma, and they ignore the precaution referred to.

Windows in many of the down town buildings are cleaned by women, and some of these are as much at home as the men, when standing upon a narrow sill far above the bustling street. Almost daily, two women janitors can be seen washing the upper windows of a business house in Fifth avenue near Smithfield street. They use no belts or chains and clamber about from sill to sill, without the slightest indications of light-headedness.

Within half an hour, upwards of a hundred narrow escapes are apt to occur in the construction of a skyscraper, and many of these are seen by the scores of pedestrians who "rubber" at the work on these lofty edifices. For instance, only a day or so ago, hundreds of persons saw a nervy piece of risk performed by a laborer on the Bessemer building, now being completed at Sixth street and Duquesne way. Something became wrong at the end of a protruding scaffold, more than 100 feet above the sidewalk. A long piece of timber was shoved out until the end came close to the point that required adjusting. Upon this beam a man crawled, but ere he had passed far, the timber began to tilt. Coolly drawing himself back as a boy would do upon a see-saw board, the laborer reversed the equilibrium and the big beam settled back in its place. The man remained upon his perilous perch and called to a companion to place his weight upon the base of the beam. When the fellow workman complied with the request, the man crept nearly to the end of the pole, but the weight of the other man proved insufficient and for a second time the timber started as though about to fall. The climber once more drew his body back about a foot and with a bump that might have thrown one or both of the men from their places, the big beam again settled back, and another laborer was induced to act as a bottom weight. This proved satisfactory and the man climbed to the end, and with a display of nerve that nearly paralyzed the crowd, he slowly adjusted a chain and then returned to his other work as though nothing had happened.

John Potter, foreman of the stone masons engaged upon the Bessemer structure, can be seen a dozen times a day, riding to the top of the high structure building, perched upon one of the stones to be used in completing the masonry. His thrilling feat is always watched with wonder by crowds of passers by and frequently there are those who turn away in horror, fearing the man will fall to his death. The stones are drawn to the summit by means of rope and derrick, and when Potter desires to go aloft he steps upon one of these stones, holds the chain with one hand and rides skyward. By the time he is at his destination where he is swung in by the derrick, he appears almost like a speck. When Potter is ready to descend, he seizes the dangling chain, steps into the empty hook and is lowered by machinery to the earth below.

Mrs. Williams

Always Felt Tired

1329 Hawthorne Avenue, Minneapolis, Minn., August 26, 1903.

Mrs. Procter Williams says: "*My greatest trouble seemed to be a general weakness and all-over-tired feeling. I did not expect to be ever strong again. I was in a pitiful state when my husband, who had been benefited by the use of Paine's Celery Compound, urged me to try it. At once after I began taking the remedy my headaches disappeared. My nerves became strong. I consider my cure a miracle, for I had tried a great many doctors and different remedies, and spent hundreds of dollars in vain.*"

VERY LITTLE DONE BY THE SAFETY BOARD

Helmets Wanted for the Firemen And a Supply May Be Ordered.

The board of public safety consumed considerable time last evening in doing nothing. At least an hour was spent in caucus before President Grafton called the members to order and then nearly that much time was lost in talking over matters. The entire complement, excepting Ogilvie, was present.

Mr. Taylor reported that he had been investigating the needs of the firemen and had discovered that the board should by all means buy helmets for them. He said they were used in every up-to-date city and cited many reasons why the local firemen can not do without them. They can be bought for $3.50 each, and it is likely a purchase will be ordered, a committee being appointed to act as it thinks best.

Another attempt is to be made for the purpose of securing permanent quarters for the board. It has been meeting anywhere that room could be had, and council will now be asked to furnish a room for the use of the board. The board is willing to occupy a room on the third floor of the city hall and council will be asked to fit it up.

A large number of bills were read by Clerk Huntsman and the majority of them were ordered paid.

SPEEDY SALE OF BONDS IS EARNESTLY DEMANDED

Council Must Pass an Appropriation Ordinance Before Money Can Be Paid Out.

The employes of the city are doomed to suffer another prolonged wait for their salaries. Tomorrow is the regular pay day, but there is not any money which the treasurer and auditor can use for the payment of the bills and as a result the employes will be compelled to wait at least 10 days. At the adjourned meeting of council tonight that body can arrange for the payment of the bills within 10 days if they so desire, and it is thought probable they will do so.

As was well explained by Special Examiner MacKenzie, when he was on his official visit to the city, it is now necessary for council to pass an appropriation ordinance before any money can be paid out and that is what the body must do now or the employes will suffer. Auditor Davidson states that there is about $8,000 in the treasury at the present time. That amount will cover all expenses incurred up to date, but it will be necessary to appropriate every penny of it. After it is gone is when the hardest blow will be dealt. The only recourse upon which the councilmen can fall is to make a speedy sale of the bonds, and from all appearances they will meet with further difficulty in carrying out that plan.

Though it is not known what council will do this evening relative to a final disposal of the bonds it is thought a strenuous effort will be made to get them off the city's hands. Having several offers, none of them tempting, however, the body is not entirely tied up, and realizing the conditions it is assured everything within their power will be done by the city fathers.

THE CURFEW BELL NOW RINGS AT 9

Mistaken For An Alarm of Fire—One Lad Taken to the City Jail.

The curfew bell rang last night at 9 o'clock, an hour earlier than has been customary since Mayor Weaver inaugurated the adherence to the ordinance. When the rather doleful sounds of the bell pealed forth on the night air persons in all parts of the city were seen to stop suddenly, all thinking it an alarm of fire. According to the ordinance the curfew must ring at 9 o'clock every evening between the dates of October 1 and April 1.

Wayor Weaver announced this morning that he intends to see that this ordinance is rigidly enforced, more so than it was ever before. He believes that it will be productive of much good and has ordered Chief Wyman to instruct the police to keep a strict watch for all violators.

In anticipation of the mayor's wishes, Officer Dawson started the ball rolling last evening when he arrested William Munday, a lad of 14 years. The youngster was warned several times by the officer to seek his home and instead of heeding the officer's command he became very abusive and defied the officer to send him home. It was not the wish of Officer Dawson to do the boy an injustice, but he did not think it was his duty to permit him so openly to disobey the law, and took him to jail. The mayor assessed a small fine and allowed the boy to go after a severe reprimand. It is hoped by the mayor that the case will be an example to other boys.

Record Breaking Auto Trip.

New York, Oct. 2.—Bert Holcomb and Henry Sendall finished a record-breaking automobile trip from Chicago to New York, the machine making the trip in 76 hours. The automobile, a 24-horse power machine, had been delayed several hours on account of losing the road. The car covered 1,177 miles, an average of 15½ miles per hour. It was driven by relays of chauffeurs.

Troops Lost in Snowstorm.

Albertville, France, Oct. 2.—While the Twenty-second Alpine battalion was engaged in maneuvers near Selongey the troops were lost for a time in a heavy snowstorm while approaching the edge of a precipice. Captain Alzieu, who was in command, fell over the precipice and was killed. There were no other casualties.

TWO YEAR SCALE PLEASES TRENTON

Manufacturers Believe It Will Have a Good Effect Upon Trade.

CONDITIONS ARE BETTER

Child Labor Being Eliminated From New Jersey Potteries—Staple Lines Picking Up and Specialties in Demand.

From a Staff Correspondent.

Trenton, N. J., October 2.—Although the result of the referendum vote on the proposition of the Brotherhood of Operative Potters signing a two year agreement with the manufacturers, regulating prices in both the sanitary and general ware lines, has been forwarded to the headquarters of the Brotherhood, there appears to be a growing satisfaction among the potters of this city in favor of the move.

Both the manufacturers and the men appear anxious to prevent another occurrence similar to that which took place in the west over the increase in the uniform scale and which kept the trade in a state of uneasiness until a preliminary settlement was reached about two weeks ago in Philadelphia.

Aside from the sanitary plants, the general ware shops here will be but little affected by any change that may be brought about by the Brotherhood in the way of an increase in wages, unless they decide in the meantime to adopt the uniform price list. The feeling that prevails among the manufacturers in regard to the two year proposition is that a two year agreement will tend to steady the trade and improve both the condition of employer and employe.

Since the possibilities of a strike have been eliminated and the settlement of the difficulty at the International pottery, it has had the effect of greatly improving the condition of the local trade. All the staple lines during the past week have enjoyed liberal patronage and there has been a brisk demand for specialties. The potteries that include jardinieres in their production report an exceptionally good business, considerably in advance of last year. Trenton potteries with hotel china, last year experienced one of the largest trades in their history, but judging from the orders which are now being sent in by the men on the road, the trade in this line of goods will likely surpass the orders for 1902. The large department stores and houses handling fancy crockery are among the heaviest buyers. Most of the orders call for shipment in time for the holiday trade.

The condition of the labor arm of the trade seems to be particularly satisfactory since Deputy Factory Inspector Milburn succeeded in ridding many of the potteries of the curse of child labor. About a month ago, or as soon as the new child labor law went into effect, Mr. Milburn started to make an inspection of the potteries and succeeded in causing the discharge of many young boys who were employed as mould runners and in the other small jobs which require but little previous training. Mr. Milburn in about a week or so will go to South Jersey and there will make a similar crusade.

Howard B. Moses has been connected with the Glasgow pottery for 21 years. Last week he celebrated the event by passing cigars around among the employes and ice cream to the girls. In the midst of the festivities he was called down into the decorating department and there in the presence of all the employes he was presented with a gold head handled umbrella and two bouquets of roses.

BELL 'PHONE LINES

Being Extended at a Rapid Rate in Lisbon—Both Systems in Use.

Lisbon, October 2.—(Special.)—The reconstruction of the Bell Telephone company's lines in Lisbon to accommodate new patrons was commenced yesterday afternoon. A gang of workmen came here from the southern part of the county, together with several wagon loads of poles from East Liverpool and Wellsville. The work of preparing the local system to handle its increased patronage will be pushed vigorously.

There seems to be no longer any doubt that nearly all the business people of Lisbon who have signed contracts for the Bell 'phone will be compelled to use both 'phones.

Dieting Invites Disease.

To cure dyspepsia or indigestion it is no longer necessary to live on milk and toast. Starvation produces such weakness that the whole system becomes an easy prey to disease. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that one cares to eat, and is a never failing cure for indigestion, dyspepsia and all stomach troubles. Kodol digests what you eat—makes the stomach sweet. Sold by A. H. Bulger.

Managing Editor Dead.

Winona, Minn., Oct. 2.—Fred N. Van Duzee, managing editor of the Evening Republican and Herald, is dead, aged 36. Mr. Van Duzee for several years acted as Washington correspondent for Twin City newspapers. He was at one time private secretary to Congressman J. A. Tawney.

Shot Wife in Drunken Frenzy.

St. Louis, Oct. 2.—In a drunken frenzy Frank Sepitowski, a grocer's clerk, shot his wife, probably fatally, and then while a mob of infuriated neighbors had gathered and were trying to break down the barred door he shot himself in the head. He will recover.

It's folly to suffer from that horrible plague of the night, itching piles. Doan's Ointment cures, quickly and permanently. At any drug store, 50 cents.

DISCUSSED TARIFF QUESTION.

Premier Balfour Does Not Mention Cabinet Possibilities.

London, Oct. 2.—Addressing a mass meeting at Sheffield in connection with the conference of the National Conservative association, Premier Balfour delivered the speech which has been long heralded as the first heavy gun to be fired in the fiscal reform campaign which is absorbing the attention of the united kingdom, her colonies, and indeed the whole world and which has caused the present British cabinet crisis, the result of which it is impossible to foretell.

Mr. Balfour, in the course of his speech, did not even hint at the successors in the cabinet to Mr. Chamberlain, Lord George Hamilton and Mr. Ritchie. In fact, he did not mention the ministerial resignations, ignoring altogether that phase of the situation on which it was expected he would make some declaration. The premier confined himself strictly to the tariff question and his speech was to a large extent a repetition of the arguments contained in his secret pamphlet.

LET DOWN TO PRAY

Lynchers at Oxford Foiled by Gallant Dash of Deputy Sheriff.

PRISONER SPIRITED OUT OF TOWN

Battle on Streets During Fair Results in Fatal Wounding of Two Men. Village Marshal and Deputy Injured Attempting to Make Arrests.

Oxford, O., Oct. 2.—A mob broke open the jail and took Joseph Spivey to an elm tree one square away, on which Henry Corbin was lynched in 1892. Spivey was strung up and let down to pray. A second time he was strung up and let down, and while he was pleading for time to write to his wife Deputy Sheriff Brennan and a few assistants rushed forward, cut the rope and dashed down the street with the prisoner. He was rushed to the jail and has been spirited out of town. John Spivey, his brother, is dying with a bullet through his head. E. V. Jetter, of Monroe, O., was also fatally wounded by the Spiveys.

Were Looking for Trouble.

The trouble arose out of a disturbance created by John Spivey and Joseph Spivey, who came over from Kentucky with some friends and began shooting on the streets of Oxford during the progress of a fair. The village marshal and his deputy attempted to arrest them, and were both wounded. The crowd then pursued the Spivey brothers with shotguns. The men were overtaken after Joseph had been shot in the right side and John knocked unconscious with a stone. A stranger who refused to give his name was shot in the abdomen.

The wound of Deputy Marshal Manrod, who was shot in making the arrests, is regarded as fatal. The marshal will recover.

The Spivey brothers were intoxicated and had been creating a disturbance all the afternoon.

It was Luke Brannon, the brave deputy sheriff of Butler county, who had been sent to Oxford by Sheriff Bisdorf, that landed Spivey in jail and held him there.

Held Mob at Bay.

He had sworn in as assistants ex-Mayor Peter Flannagan and Horace Cormier, and the three held the mob at bay with double six-shooters after they landed their prisoner in jail. The mob followed them and clamored for the prisoner. Then followed speeches by ex-Mayor Flannagan, Rev. Dr. Thomas J. Potter, of the Presbyterian church, and others, notably that of the brother of Marshal Woodruff, and all was over, as the deputy sheriff, Luke Brannon, had not been idle during the speaking.

Took Prisoner Out Through Cellar.

When he entered the town jail he conducted his prisoner to the cellar and crawled out of a coal chute and crossed the back lots until he got to the Miami university campus. Trusted lieutenants meanwhile in the persons of Horace Cormier and Mr. Nagle secured the other brother, Louis Spivey, and spirited him out through the coal chute. The party took two hacks and drove rapidly to Hamilton, a distance of 20 miles, where they arrived after midnight, and securely lodged their prisoners in the Butler county jail. The mob finally found they had been beaten and quietly dispersed.

Rheumatism

"THE PAIN KING."

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy.

ABOUT BOY'S CLOTHES

For the school boy it's the clothes that wear most people are after, but to good materials must be added good workmanship, if good wear is to be accomplished. There is an art in making boy's clothing—an art which is not understood in the sweat shops. Only about a dozen boys' clothing manufacturers in the whole United States with capital enough and spunk enough and enterprise enough to employ skilled labor and these are the makers that supply the Erlanger stock. It is not how cheap, but how good that influences our buying and selling boys' clothing. The great growth of business in this department indicates that the mass of people appreciate that the best is the cheapest in the end. Our boys' clothing would be the highest priced in town, if we did not cut our profits.
